FISCAL IMPACT:

The cost for the maintenance and operation of the Natasha Lane landscaping, including administration, is estimated at $14,000 for Fiscal Year 2026-27. Because the Assessment District's fund balance has grown to $35,879, the recommended annual assessment for FY 2026-27 is $1,200 and covers only the processing costs with the Los Angeles County Assessor's Office. All other costs associated with the maintenance and operation of the landscaping for FY 2026-27 will be paid from the Assessment Districts existing and available fund balance.

The total cost of $1,200 is prorated to the properties within the District based on the lineal footage of the property frontage on Natasha Lane. The amount assessed to each property is listed in the Engineer's Report (Attachment B) and ranges from $55.35 to $75.27 for the year, with an average annual assessment of $60.00 per parcel. The proposed FY 2026-27 budget includes appropriations for these assessment amounts; therefore, the recommended actions do not require a budget amendment.

BACKGROUND/DISCUSSION:

The properties on Natasha Lane benefiting from the landscaping improvements are required to be assessed to fund the maintenance and operation for Fiscal Year 2026–27. The special assessment district was initially established in 2005 when the development was constructed. This assessment is collected annually and placed on the Los Angeles County tax roll.

On April 22, 2026, the City Council approved Resolution No. 26-27 initiating proceedings for the FY 2026–27 levy of annual special assessments.

Natasha Lane is a twenty-unit residential development extending south from Whittier Boulevard and east of Bluff Road. As part of the development, landscaping was installed within a storm drain easement at the southerly terminus, along the frontage of properties facing Whittier Boulevard, and at the cul-de-sac. The City is responsible for the ongoing maintenance of these landscaped areas.

Resolution No. 26-39 (Attachment A) establishes approval and confirmation of the Engineer's Report (Attachment B) for Natasha Lane Landscape Assessment District No. 2005-1 and authorizes the levy of assessments for FY 2026–27. These actions are required to complete the direct assessment process with Los Angeles County and place the assessments on the annual property tax roll.

SECTION V: DIAGRAM

A Diagram showing the Assessor's parcel number and the dimensions of each lot or parcel of land within the District is on file in the Office of the City Clerk.

SECTION VI: ASSESSMENT

The improvements are to be funded by the levying of assessments on the benefiting properties. The "Municipal Improvement Act of 1913" and Article XIIID of the State Constitution require that assessments must be based on the estimated special benefit for the properties from the improvements. In addition, Article XIIID, Section 4, of the State Constitution requires that a parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred in the parcel. It also requires that publicly owned property, (which benefit from the improvements) are to be assessed. Neither the Act nor the State Constitution specifies the method or formula that should be used to apportion the costs to properties in any special assessment district proceedings. The responsibility for recommending the assessments per panel is an Apportionment Engineer, who is appointed for the purpose of making an analysis of the facts and determining the correct apportionment of the assessment obligation. The City Engineer is hereby appointed as the Assessment Engineer.

All properties are assessed based on the Engineer's Estimate. This estimate includes associated costs for each property based on property frontage along the street (Natasha Lane). In order to apportion the assessment to each parcel in direct proportion with the special and direct benefit which it will receive from the improvements, an analysis has been completed and the respective street frontage of each benefiting parcel is used as the basis for apportioning costs to each property within the Assessment District as follows:

CITY OF MONTEBELLO
CITY COUNCIL AGENDA STAFF REPORT

TO: Honorable Mayor and City Council Members

FROM: Raul Alvarez, City Manager

BY: Cesar Roldan, Director of Public Works

SUBJECT: **ADOPT RESOLUTION NO. 26-40 CONFIRMING THE ENGINEER'S REPORT AND ASSESSMENT FOR THE NATASHA LANE SEWER AND STORM WATER PUMP STATION ASSESSMENT DISTRICT NO. 2005-2 AND LEVYING ASSESSMENTS ON ASSESSABLE LOTS AND PARCELS OF LAND IN SAID DISTRICT FOR FISCAL YEAR 2026-2027**

DATE: June 24, 2026

RECOMMENDATIONS:

It is recommended that the City Council:

1. Conduct the public hearing for the Fiscal Year 2026-27 annual levy of assessments for the Natasha Lane Sewer and Storm Water Pump Station Assessment District No. 2005-2; and
2. Receive and tabulate all assessment ballots submitted pursuant to Article XIII D of the California Constitution (Proposition 218);
3. Determine whether a majority protest exists; and
4. If no majority protest exists, adopt Resolution No. 26-40 (Attachment A) confirming the Engineer's Report and levying assessments on assessable lots and parcels of land within the Natasha Lane Sewer and Storm Water Pump Station Assessment District No. 2005-2 for Fiscal Year 2026-27; or
5. If a majority protest exists, adopt Resolution No. 26-40 (Attachment B – Alternate Resolution) confirming the Engineer's Report and levying assessments on assessable lots and parcels of land within the Natasha Lane Sewer and Storm Water Pump Station Assessment District No. 2005-2 for Fiscal Year 2026-27 in the same amounts and in the same levels as approved and assessed for Fiscal Year 2025-26; and
6. Take such additional, related action that may be desirable.

FISCAL IMPACT:

The Natasha Lane Sewer and Storm Water Assessment District funds the operation, maintenance, servicing, and replacement of the sewer and storm water pump stations that serve the twenty-unit Natasha Lane development.

The total proposed levy for Fiscal Year 2026-27 under the 10-Year Assessment Plan is $67,673. Assessment revenues will fund annual operations and maintenance costs administrative expenses, and the annual pro-rated share of capital replacement costs associated with the necessary replacement and maintenance of the sewer and storm water pump stations.

The Fiscal Year 2026-27 expenditure plan includes $25,587 for operations, maintenance, and administrative costs, $450,000 for sewer pump station replacement, and $200,000 for storm water pump station replacement, for a total projected expenditure of $675,587.

The costs associated with the operation, maintenance, servicing, and replacement of the Natasha Lane sewer and storm water pump stations will be funded through Assessment District No. 2005-2 (Account No. 265-99-330-6040.45). There will be no impact on the General Fund, as all revenues collected and associated expenditures are recorded within Fund 265.

If Resolution No. 26-40 (Alternate Resolution) is adopted due to a majority protest, assessment district revenues will not be available to fund required, necessary and essential replacement and repair projects. As a result, the City would be required to fund the immediate emergency repairs to Pump No. 2 through City resources in the amount of $15,636. Without additional assessment revenue, these expenses would be born solely by the General Fund.

BACKGROUND/DISCUSSION:

Natasha Lane is a twenty-unit residential development completed in 2005 near Whittier Boulevard and Bluff Road. Due to the site's topography, the development required the installation of sewer and storm water pump stations to convey wastewater and storm water flows to higher-elevation infrastructure. The City is responsible for the operation and maintenance of these facilities.

To ensure that the costs associated with the operation, maintenance, servicing, and replacement of these facilities are funded by the properties that directly benefit from them, the City established the Natasha Lane Sewer and Storm Water Pump Station Assessment District No. 2005-2. The assessment district was lawfully formed through public hearings and property owner approval in accordance with California law, including the Benefit Assessment Act of 1982 and Proposition 218.

On April 22, 2026, the City Council adopted Resolution No. 26-28 approving the Fiscal Year 2026-27 Engineer's Report and setting a public hearing for June 24, 2026. Pursuant to Proposition 218 requirements, notices and assessment ballots were mailed to all

property owners within the district, providing an opportunity to support or protest the proposed assessments.

The Engineer's Report details the proposed assessment roll, which reflects the proportional special benefit received by each parcel based on street frontage along Natasha Lane. Funding under the 10-Year Assessment Plan provides for annual operations and maintenance, administrative costs, and a pro-rated share of pump station replacement costs to ensure continued operational reliability and regulatory compliance.

At the public hearing, the City Council will receive public testimony and direct the tabulation of assessment ballots. If a majority protest does not exist, the City Council may adopt Resolution No. 26-40 confirming the Engineer's Report and assessment and levying assessments for Fiscal Year 2026-27. If a majority protest exists, the City Council may adopt Resolution No. 26-40 (Alternate Resolution) confirming the assessment and levying amounts established and assessed at Fiscal Year 2025-2026 rates.

ENVIRONMENTAL:

N/A

ANALYSIS:

The proposed assessments comply with the requirements of the Benefit Assessment Act of 1982 and Article XIII D of the California Constitution. The assessments are based upon the proportional special benefit received by each parcel and are allocated in accordance with the methodology set forth in the Engineer's Report.

Approval of Resolution No. 26-40, following a determination that no majority protest exists, will confirm the Engineer's Report and assessment roll and authorize the annual levy of assessments for Fiscal Year 2026-27. The assessments will then be placed on the Los Angeles County property tax roll for collection.

In the event a majority protest vote is submitted, the Resolution may not be adopted and the Alternate Resolution may be adopted to continue the same assessment and levying amounts as established for Fiscal Year 2025-26.

Additionally, if Resolution No. 26-40 (Alternate Resolution) is adopted, the City would be required to fund the immediate emergency repairs to Pump No. 2 utilizing General Fund appropriations at a cost of $15,6367, as assessment district revenues would not be available to support this expenditure.

SUMMARY:

The City Council is requested to conduct the public hearing, receive and tabulate assessment ballots, determine whether a majority protest exists, and, if no majority protest exists, adopt Resolution No. 26-40 confirming the Engineer's Report and assessment and levying assessments for Fiscal Year 2026-27 for the Natasha Lane Sewer and Storm Water Pump Station Assessment District No. 2005-2. The

assessments will fund the continued operation, maintenance, servicing, and capital replacement of the sewer and storm water pump station facilities serving the Natasha Lane development while ensuring compliance with Proposition 218 and the Benefit Assessment Act of 1982. If the Alternate Resolution is adopted, the assessments would remain at Fiscal Year 2025-26 levels.

WHEREAS, at the conclusion of said hearing, the assessment ballots were tabulated and it was determined that a majority protest to the levy of the proposed assessments does not exist; and

WHEREAS, he City Council may proceed, pursuant to Section 54711 of the Government Code, to adopt a resolution confirming the levy of the assessments on the assessable parcels of property in the District, and the adoption of such a resolution shall constitute the levy of assessments on all assessable lots and parcels of property within the District for Fiscal Year 2026-2027.

NOW, THEREFORE, BE IT RESOLVED, determined, and ordered by the City Council of the City of Montebello as follows:

SECTION 1. Findings. The City Council finds:

SECTION V: DIAGRAM

A Diagram showing the Assessor's parcel number and the dimensions of each lot or parcel of land within the District is on file in the Office of the City Clerk.

SECTION VI: ASSESSMENT

The improvements are to be funded by the levying of assessments on the benefiting properties. The "Municipal Improvement Act of 1913" and Article XIIID of the State Constitution require that assessments must be based on the estimated special benefit received by each property from the improvements. In addition, Article XIIID, Section 4, of the State Constitution requires that a parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred. Publicly owned properties that benefit from the improvements are also subject to assessment.

The Act and the State Constitution do not prescribe a specific method or formula for apportioning costs among properties. The responsibility for recommending individual assessments rests with an Apportionment Engineer, appointed to analyze the facts and determine the proper allocation. The City Engineer is hereby appointed as the Assessment Engineer.

Under the 10-Year Assessment Plan, the total cost of improvements including sewer and storm water pump lift station replacements, operations, and administrative expenses, is spread over ten fiscal years. Each property's annual assessment reflects its pro-rata share of costs for that year, ensuring a fair and proportional allocation in alignment with the special benefits received. Assessments are subject to annual adjustment based on changes in the Consumer Price Index (CPI), which may increase or decrease each year to reflect inflation and changes in operational costs.

All properties are assessed based on the Engineer's Estimate, which calculates each parcel's share of costs according to street frontage along Natasha Lane. This ensures that the assessment is directly proportional to the benefit each parcel derives from the improvements. The respective street frontages of each parcel have been analyzed, and the resulting assessments are detailed in the following table:

CITY OF MONTEBELLO
PUBLIC HEARING NOTICE

NOTICE IS HEREBY GIVEN that the City Council of the City of Montebello will hold a Public Hearing in the **Council Chambers located at Montebello City Hall, 1600 West Beverly Boulevard, Montebello, California, on Wednesday, June 24, 2026, at 6:00 p.m.**, or as soon as possible thereafter as the matter can be heard, to consider the following:

Levy of the proposed annual assessments for the City of Montebello's Natasha Lane Sewer and Storm Water Assessment District No. 2005-2 for Fiscal Year 2026–2027.

Natasha Lane is a twenty-unit residential development located south of Whittier Boulevard and east of Bluff Road. As part of the development, sewer and storm water pump stations were constructed to serve the residences. The City of Montebello is responsible for the operation, maintenance, and future replacement of these facilities. The assessment district was established in 2005 to fund these costs. Due to aging infrastructure and required improvements, it is now necessary to levy annual assessments to cover operations, maintenance, and replacement of the pump stations and associated equipment. The Fiscal Year 2026–2027 assessments are part of a 10-Year Assessment Plan, which spreads the total costs of sewer and storm water pump station replacement, operations, and administrative expenses over ten years. The total cost of Year One (1) of the 10-Year Plan is $675,587.16. Each property's annual assessment reflects its pro-rata share of these costs, calculated based on frontage along Natasha Lane, and ensures a fair and proportional allocation in line with the special benefit each property receives.

For those interested in making public comments address the C[illegible] during the public comment period or public testimony period for Public Hearings by attending the Council Chambers located at Montebello City Hall, 1600 West Beverly Boulevard, Montebello, California on Wednesday, June 24, 2026, at 6:00 p.m. In addition, the City has created an email address ccpubliccomment@cityofmontebello.com where the public can submit written public comments no later than **Wednesday, June 24, 2026, at 3:00 p.m.** These comments will not be read aloud but will be entered into the record and submitted to all members of the City Council. The email address for City Council meetings can be located on the City's webpage under the City Clerk tab, https://www.cityofmontebello.com/department/administration/city-clerk-s-office.html.

If you challenge the subject matter in court, you may be limited to raising only those issues you or someone else raised at the public hearing described in this notice, or in written correspondence delivered to the City Council, at, or prior to, the public hearing.

CITY OF MONTEBELLO
CITY COUNCIL AGENDA STAFF REPORT

TO: Honorable Mayor and City Council Members

FROM: Raul Alvarez, City Manager

BY: Joseph Palombi, Director of Planning & Community Development

SUBJECT: **APPROVAL OF AN EXCLUSIVE NEGOTIATION AGREEMENT BETWEEN THE CITY OF MONTEBELLO AND PRIMESTOR DEVELOPMENT, LLC FOR THE POTENTIAL REDEVELOPMENT OF DOWNTOWN MONTEBELLO PROPERTIES**

DATE: June 24, 2026

RECOMMENDATIONS:

It is recommended that the City Council:

1. Approve the Exclusive Negotiation Agreement ("ENA") between the City of Montebello and Primestor Development, LLC for the evaluation and potential redevelopment of Downtown Montebello properties; and
2. Authorize the City Manager, or designee, to execute the ENA and any non-substantive administrative modifications approved by the City Attorney; and
3. Take such additional, related, action that may be desirable.

FISCAL IMPACT:

Approval of the Exclusive Negotiation Agreement ("ENA") does not obligate the City to expend funds, convey property, approve a development project, or undertake any public improvements. Staff time associated with evaluating the potential redevelopment opportunity will be absorbed within existing departmental budgets.

Any future fiscal impacts associated with property disposition, public infrastructure improvements, structured parking facilities, financing mechanisms, development incentives, or public-private partnership agreements would be evaluated separately and presented to the City Council for consideration at a future date.

BACKGROUND/DISCUSSION:

The Downtown Montebello Specific Plan identifies the City's downtown core as a priority area for economic revitalization, mixed-use development, housing production, and strategic public investment. Consistent with these objectives, the City has explored opportunities to encourage private investment while preserving and enhancing Downtown Montebello as the civic and commercial heart of the community.

Primestor Development, LLC has expressed interest in pursuing a large-scale mixed-use redevelopment project within Downtown Montebello. As part of this effort, Primestor is actively evaluating the acquisition and assemblage of privately owned properties within the project area and has requested that the City enter into an Exclusive Negotiation Agreement to evaluate the potential integration of several City-owned parcels into a coordinated redevelopment strategy.

The proposed redevelopment area includes approximately 2.16 acres of City-owned property comprised of the following Assessor Parcel Numbers: 6346-027-001, 6346-027-002, 6346-027-904, 6346-027-006, 6346-028-912, 6346-027-019, 6346-027-901, 6346-027-903, and 6346-027-902. The ENA is intended to establish a framework for evaluating the feasibility of a potential mixed-use redevelopment project that may include residential, retail, public parking, and related infrastructure improvements. The proposed ENA contains a 180-day exclusive negotiation period with administrative extension authority delegated to the City Manager or designee.

ENVIRONMENTAL:

Approval of the ENA is not a project pursuant to Section 15378 of the California Environmental Quality Act (CEQA) Guidelines because it does not commit the City to a definite course of action regarding any specific physical development. Alternatively, the action is exempt pursuant to CEQA Guidelines Section 15061(b)(3), the common-sense exemption, because it can be seen with certainty that there is no possibility that approval of the ENA itself may result in a significant effect on the environment.

The ENA expressly provides that any future development proposal, property disposition, entitlement application, development agreement, infrastructure improvement, or financing mechanism resulting from the negotiation process will remain subject to all applicable CEQA requirements and any necessary environmental review.

ANALYSIS:

The proposed ENA does not approve a development project, transfer City-owned property, grant development entitlements, commit City funding, or obligate the City to enter into a future development agreement. Rather, the ENA establishes a formal process through which the City and Primestor may engage in exclusive good-faith negotiations and evaluate the feasibility of a coordinated redevelopment effort. The agreement contemplates due diligence investigations, conceptual planning activities, community outreach, infrastructure evaluation, parking planning, and negotiation of a

potential future Disposition and Development Agreement ("DDA"), should the parties determine that such an agreement is in their mutual interest.

The redevelopment concept currently under evaluation contemplates a mixed-use project of up to seven stories that could include residential housing, retail and commercial uses, structured parking facilities, public amenities, and streetscape improvements. The ENA also acknowledges that future development proposals may utilize provisions of State housing law, including the California Density Bonus Law, where applicable.

To ensure meaningful public participation, the ENA requires the developer to coordinate with the City to conduct a minimum of three publicly noticed community workshops, separate and apart from any required public hearings, during the conceptual planning process. These workshops will provide opportunities for residents, businesses, and stakeholders to provide feedback regarding land use, urban design, housing opportunities, mobility, parking, and other community considerations.

The agreement further recognizes the importance of long-term infrastructure planning and acknowledges that future structured parking facilities or other public improvements could potentially be supported through future Enhanced Infrastructure Financing District (EIFD) financing mechanisms. However, the ENA does not obligate the City to establish an EIFD, approve financing, construct infrastructure, or commit public funds. Any such actions would require separate City Council consideration and approval.

SUMMARY:

Staff recommends that the City Council approve the Exclusive Negotiation Agreement between the City of Montebello and Primestor Development, LLC for the evaluation and potential redevelopment of Downtown Montebello properties and authorize the City Manager or designee to execute the Agreement, together with any non-substantive administrative modifications approved by the City Attorney.

CITY OF MONTEBELLO

AGREEMENT NO. 4560 – EXCLUSIVE NEGOTIATION AGREEMENT WITH PRIMESTOR DEVELOPMENT, LLC

EXCLUSIVE NEGOTIATION AGREEMENT

THIS EXCLUSIVE NEGOTIATION AGREEMENT ("Agreement") is entered into this _____ day of June, 2026, by and between the CITY OF MONTEBELLO ("City'') and PRIMESTOR DEVELOPMENT, LLC ("Developer'') (collectively, the "Parties", and each a "Party"), under the terms and provisions set forth below.

RECITALS

WHEREAS, the City of Montebello seeks to advance the revitalization of key properties located in Downtown Montebello, identified as a strategic opportunity for mixed-use redevelopment and public-private investment pursuant to the Downtown Montebello Specific Plan;

WHEREAS, the City intends to evaluate the feasibility of assembling City Lots (as defined in these Recitals below), including public parking lots within the Downtown project area, together with any additional properties acquired or assembled by Primestor Development, Inc. (the "Developer"), for a potential mixed use redevelopment project that may include residential, retail, public parking, and other complementary uses as part of a broader Downtown revitalization effort (the "Project");

WHEREAS, the City owns certain parcels within the proposed project area identified as Los Angeles County Assessor's Parcel Nos. 6346-027-001, 6346-027-002, 6346-027-904, 6346-027-006, 6346-028-912, 6346-027-019, 6346-027-901, 6346-027-903, and 6346-027-902 ("City Lots"), totaling approximately 94,283 square feet (or approximately 2.16 acres), which may be critical to the functionality and viability of a larger mixed-use project serving both public and private interests;

WHEREAS, the City has expressed strong interest in working with the Developer to secure control of the block as part of a larger public-private revitalization strategy;

WHEREAS, the Developer is continuously engaging with property owners in the immediate area to acquire contiguous privately-owned parcels as part of the Project;

WHEREAS, the Developer and the City intend to evaluate how the City Lots may be integrated into a future development plan to enhance the economic and civic vitality of this key corridor with the potential for a proposed scaled seven (7) story mixed use project;

WHEREAS, the Parties acknowledge that this Agreement does not constitute a binding obligation to proceed with a specific project or entitlements but rather reflects a good-faith effort to explore a mutually beneficial redevelopment opportunity.

NOW, THEREFORE, the Parties agree to negotiate exclusively and in good faith upon the following terms and conditions:

1. NEGOTIATIONS.

1.1. Length of Negotiation Period.

Unless extended by mutual agreement, the period for exclusive negotiations between the Parties under this Agreement shall be for one hundred and eighty (180) days, commencing on _____, 2026, and terminating thereafter on _____, 2026 (the "Negotiation Period"); provided, however, that the Negotiation Period may be terminated earlier pursuant to the termination provisions of this Agreement. The City Manager or his or her designee, at his or her sole and absolute discretion, may extend the Negotiation Period in writing for no more than ninety (90) days per extension (the "Extended Negotiation Period"), provided Developer is not then in default under this Agreement and provided that Developer has made acceptable progress as determined by City and has, among other requirements as more particularly described below, provided evidence during the Negotiation Period that the Project is feasible within mutually agreed upon timeframes and terms.

1.2. Good Faith Negotiations.

The Parties shall negotiate diligently and in good faith during the Negotiation Period, and, if applicable, during the Extended Negotiation Period(s), to evaluate the feasibility of a coordinated redevelopment effort involving the City Lots as part of a broader mixed-use revitalization concept.

Developer intends to undertake due diligence and initial predevelopment efforts related to the Project, in parallel, the City will explore the potential integration of its adjacent parcels into the Project. The Parties acknowledge that the execution of a future Exclusive Negotiating Agreement, Disposition and Development Agreement, or similar instrument may be considered at a later date but is not required under this Agreement.

1.2.1. Potential Development Program and Density Bonus Acknowledgement.

The Parties acknowledge that the Project under evaluation may include a vertically integrated mixed-use development of up to seven (7) stories, subject to further design review, environmental review, and applicable entitlement approvals. The Parties further acknowledge that development standards applicable to the Project site may be governed by the Downtown Montebello Specific Plan, applicable provisions of the Montebello Municipal Code, and applicable State housing laws, including but not limited to the California Density Bonus Law set forth in Government Code Sections 65915 through 65918. Nothing in this Agreement shall be construed to limit the Developer's ability to seek incentives, concessions, waivers, reductions in development standards, or additional height, density, or floor area ratio (FAR) authorized under applicable State law.

The City acknowledges that the California Density Bonus Law may require the City to grant qualifying density bonuses, incentives, concessions, waivers, or development standard modifications necessary to physically accommodate qualifying residential or mixed-use development containing affordable housing, student housing, senior housing, or other qualifying units as provided by State law.

1.2.2. Entitlement Framework and CEQA Acknowledgement.

The Parties acknowledge that the Project site is located within the Downtown Montebello Specific Plan area, for which an Environmental Impact Report ("Specific Plan EIR") has previously been certified by the City in accordance with the California Environmental Quality Act ("CEQA"). The Parties further acknowledge that the Project may be eligible to utilize entitlement pathways contemplated under the Downtown Montebello Specific Plan and applicable provisions of the Montebello Municipal Code, including, where applicable, administrative approvals, ministerial actions, design review procedures, density bonus incentives, concessions, waivers, or other streamlined processing mechanisms authorized by State or local law.

Nothing in this Agreement shall be construed as a commitment or obligation by the City to approve any specific entitlement, land use application, development standard modification, site plan, density bonus request, waiver, concession, environmental determination, or other discretionary action. All proposed approvals shall remain subject to applicable provisions of CEQA, including the City's independent review and consideration of whether the Project is adequately covered within the

scope of the certified Specific Plan EIR, whether supplemental or subsequent environmental review may be required, and the City's retained police powers and legislative discretion.

The Parties further acknowledge that this Agreement is intended solely to facilitate good-faith negotiations and preliminary evaluation of a potential redevelopment opportunity and does not constitute a project approval, entitlement, vesting tentative map, development agreement, or other approval for purposes of CEQA or State planning and zoning law.

1.3. Exclusive Negotiations.

City shall not negotiate regarding development of the "The Project" with any other person or entity during the Negotiation Period and, if applicable, during the Extended Negotiation Period. Notwithstanding anything to the contrary herein, nothing in this Agreement shall preclude the City from allowing any temporary uses of the City Lots that the City deems appropriate, at its sole and absolute discretion.

2. SCHEDULE OF PERFORMANCE.

The Parties shall perform the following activities during the Negotiation Period and, if applicable, during the Extended Negotiation Period, and within the time periods set forth below:

2.1. Disposition and Development Agreement.

The Parties shall negotiate and, if mutually agreed, execute a Disposition and Development Agreement (or similar instrument) ("DDA") for the potential disposition of the City Lots within six (6) months of the effective date of this Agreement.

2.2. Document Production

All documents related to Developer's corporate, LLC, or partnership status, and the status of its members or partners, including but not limited to articles of incorporation, by-laws, proof of good legal standing, partnership agreements, operating agreements, joint venture agreements, and lists of members of boards of directors.

2.3. Litigation Disclosure

A written statement concerning any litigation in which Developer or Developer's partners or members is a party that may have an impact on the Project or the City's evaluation thereof, along with copies of relevant pleadings or filings, upon request.

2.4. Community Engagement and Public Outreach

The Parties acknowledge the importance of meaningful community engagement throughout the evaluation and conceptual planning process for the Project. During the Negotiation Period, Developer shall coordinate with the City to conduct a public outreach program intended to solicit community input regarding the proposed redevelopment concept, potential land uses, urban design considerations, mobility and parking considerations, housing opportunities, public amenities, and overall compatibility with the Downtown Montebello Specific Plan.

At a minimum, the public outreach program shall include no fewer than three (3) publicly noticed community workshops conducted at key stages of the conceptual planning process. Such workshops may include, but are not limited to:

1. An initial community visioning workshop intended to introduce the Project concept and solicit preliminary community feedback;
2. A subsequent workshop focused on the presentation of preliminary site planning, land use, design concepts, circulation, parking, and development intensity alternatives; and
3. A final workshop presenting refined conceptual plans and summarizing community feedback received during the outreach process.

The Parties acknowledge that public outreach conducted pursuant to this Section is intended to inform ongoing evaluation and negotiations only and shall not constitute a public hearing or formal entitlement proceeding under State law or the Montebello Municipal Code. Nothing herein shall limit the City's discretion with respect to any future entitlement application, environmental review, or legislative action associated with the Project.

2.5. Enhanced Infrastructure Financing District Coordination

The Parties acknowledge the importance of long-term infrastructure planning and parking availability to support continued revitalization within Downtown Montebello. In the event the City

establishes or participates in an Enhanced Infrastructure Financing District ("EIFD") pursuant to California Government Code Sections 53398.50 et seq., the Parties acknowledge that a structured public parking facility intended to support existing businesses, future mixed-use development, residential uses, and downtown economic activity may be considered a priority public infrastructure project within the Downtown area.

Nothing herein shall obligate the City to form an EIFD, approve any specific infrastructure financing plan, allocate tax increment revenues, construct any parking structure, or approve any public financing mechanism. However, the Parties acknowledge that future structured parking improvements may be necessary to accommodate phased redevelopment within Downtown Montebello and may be evaluated as part of future infrastructure planning efforts, financing plans, capital improvement programs, or public-private partnership opportunities.

The Parties further acknowledge that any future EIFD formation, infrastructure financing plan, bond issuance, public financing commitment, parking structure approval, or related action shall remain subject to all applicable public hearing requirements, CEQA review, and approval by the City Council and any other required participating taxing entities.

2.6. Preliminary Project Timeline and Phased Development Approach.

The Parties acknowledge that the Project is anticipated to proceed in multiple phases subject to market conditions, site assembly, entitlement review, financing availability, environmental review, infrastructure planning, and City approvals. While the timeline may evolve during the Negotiation Period and any subsequent agreements, the Parties currently anticipate pursuing a phased redevelopment strategy generally consistent with the following framework:

1. Phase 1 – Due Diligence and Conceptual Planning (Summer 2026 – Spring 2027)
    - Property acquisition and site assembly efforts;
    - Community outreach and stakeholder engagement;
    - Conceptual land use, circulation, parking, and urban design planning;
    - Preliminary entitlement strategy evaluation;
    - Environmental review and infrastructure assessment; and

- Negotiation of any subsequent Disposition and Development Agreement or related implementation agreements.

2. Phase 2 – Entitlements and Infrastructure Coordination (Spring 2027 – Winter 2027)
    - Submission and processing of applicable entitlement applications;
    - Coordination regarding parking, circulation, utility, and public infrastructure planning;
    - Evaluation of financing mechanisms, including potential EIFD participation or related public infrastructure tools;
    - Completion of CEQA review, as applicable; and
    - Finalization of development and implementation agreements.
3. Phase 3 – Initial Project Commencement (Target: Winter 2027)

Subject to obtaining all required approvals, financing, environmental clearances, and market conditions, the Parties anticipate that initial demolition, site preparation, infrastructure improvements, or vertical construction activities associated with the first phase of the Project could commence as early as Winter 2027.

The Parties acknowledge that the foregoing timeline is conceptual only and intended solely for planning and coordination purposes. Nothing herein shall constitute a binding construction obligation, guaranteed commencement date, development deadline, or commitment by the City to approve any Project entitlement, financing mechanism, or public improvement.

3. CITY APPROVAL OF SUBMISSIONS.

Within ten (10) business days after City receives any information or documents required to be submitted by Developer pursuant to Section 2 of this Agreement, City shall inform Developer of its acceptance or rejection of the submission. City may approve those portions of a submission that are satisfactory and reject those portions that are not, or may approve all or a portion of a submission subject to conditions requiring further submissions for City review and approval. If City rejects all or any part of a submission, City shall provide to Developer written notice of the reasons for such rejection within said ten (10)-day period. Developer shall then have ten (10) business days to correct or supplement its submission to respond to City's rejection. City shall consider in good faith approving Developer's reasonable request for an extension of the ten (10) business-day response

period for a submission based on factors not within Developer's control, provided, however, that any extension shall not otherwise negatively impact the Schedule of Performance in Section 2 of this Agreement or extend the Negotiation Period. Approvals on behalf of City shall be granted by the City Manager, or his or her staff designees.

4. RIGHT OF ENTRY.

Developer and its agents, contractors, and representatives shall have the right to enter upon the City Lots at any time during the Negotiation Period or Extended Negotiation Period(s), if applicable, to conduct investigations, tests, topographical surveys, appraisals, and studies, including geotechnical studies, soils tests and environmental site assessments. Developer shall not alter the City Lots except as needed to conduct the testing and other activities thereon as authorized by this Agreement, and Developer agrees upon completion of any testing or other activity under this Agreement to remove all debris, litter, equipment, and other materials placed on the City Lots by Developer or its agents, contractors, and representatives and to restore the City Lots as much as reasonably possible to its original condition. Developer shall give at least three (3) business days of advanced notice to Developer prior to entering the City Lots; provide City with the names of Developer's agents, contractors and/or representatives; provide the purpose and estimated duration of entry before undertaking any work; and take steps to minimize any disruptions.

Developer shall indemnify, defend and hold City and its elected officials, employees, and agents, harmless from any and all claims, demands, damages, losses, actions, liabilities, causes of action or judgments, including reasonable attorney's fees, which Developer may incur or be required to pay by reason of entry onto the City Lots and activities thereon by Developer or Developer's agents, employees, contractors or consultants, including, without limitation, any damages, injury or death to any person or property suffered by any person, firm or corporation, except to the extent the same are attributable to the sole negligence or willful misconduct of any person or entity acting on City's behalf or under City's authority. Notwithstanding any other provision of this Agreement, Developer shall have no liability to City or any other party by reason of, nor shall Developer have any duty to indemnify, defend or hold any person harmless from or against, any claim, demand, damage, loss, action, liability, cause of action or judgment, including without limitation, any claim for diminution in value of City Lots or for environmental remediation or clean-up costs, arising out of or in connection with the mere fact of having discovered and/or reported any adverse physical

condition, title condition or other condition or defect with respect to the City Lots. For the duration of this Agreement, Developer shall cause City to be named as an additional insured on commercial general liability insurance policies with coverage of at least $1,000,000 per occurrence and $2,000,000 aggregate; and shall cause certificates or such insurance to be delivered to City prior to entry on the City Lots by Developer and its agents, contractors, and representatives.

Notwithstanding any other provision in this Agreement, this right of entry shall not relieve Developer from the necessity of obtaining any applicable governmental approvals or permits that may be necessary to perform such tests or conduct other activities on the City Lots.

5. ADDITIONAL CEQA CONSIDERATIONS.

Developer understands and acknowledges that any DDA resulting from the negotiations arising from this Agreement (i) shall not bind any Party, or commit to any definite course of action, prior to CEQA compliance; (ii) shall not restrict City(as lead agency)from considering any feasible mitigation measures and alternatives, including the "no project" alternative; and (iii) shall not restrict City from denying the Project.

6. EFFECT OF NEGOTIATIONS.

Developer understands and acknowledges that the DDA resulting from the negotiations arising from this Agreement shall become effective only if and after such DDA has been considered and approved by the City Council in its sole and absolute discretion, and only if and after such DDA has been executed by the City Manager or his or her designee. Developer understands that the City Council retains the sole and absolute discretion to approve or not approve the Project or any alternative project proposed by Developer. If the terms of a mutually satisfactory DDA have not been negotiated by Developer and City staff during the Negotiation Period, and, if applicable, during the Extended Negotiation Period(s), or if the City Council declines to approve the DDA for any reason, then, without further action, this Agreement shall automatically terminate and no Party shall have further rights or obligations with respect to the other.

7. TERMINATION AND EXTENSIONS.

7.1. Time of the Essence.

Time is of the essence in this Agreement. Any Party's failure to timely perform according to the terms and conditions of this Agreement shall be considered a material breach of this Agreement.

7.2. Notice to City or Developer of Breach.

In the event that City or Developer fails to materially perform any of City or Developer's obligations pursuant to the terms and conditions of this Agreement within the time herein specified, City or Developer shall promptly give notice of such breach. City or Developer shall have a period of forty five (45) business days from receipt of such written notice within which to cure such breach.

7.3. Remedies Upon Developer Default.

If Developer fails to cure any material default during the cure period described above, this Agreement may be terminated upon written notice of termination from City, and thereafter no Party shall have any further rights or obligations hereunder.

7.4. Developer Discretion to Extend Time for Performance for Option Negotiation.

Notwithstanding the above, if Developer determines that it is in the best interest of Developer, Developer may extend the time for City's performance of any of the terms and conditions of this Agreement.

7.5. Default by City.

If City fails to cure any material default during the cure period described above, Developer's sole and exclusive remedy shall be the right to terminate this Agreement upon written notice of termination from Developer, and thereafter no Party shall have any further rights or obligations hereunder.

8. INDEMNIFICATION.

Developer shall indemnify, defend, and hold harmless City and City's officers, directors, members, employees, agents, contractors, and affiliated entities (collectively, the "City Representatives") from and against any and all claims, demands, liabilities, actions, causes of action, damages, losses, costs, and expenses, including without limitation reasonable attorneys' fees and litigation costs, arising out of or resulting from Developer's acts, omissions, negligence, willful

misconduct, or breach of this Agreement, except to the extent caused by the negligence or willful misconduct of City or any City Representative.

City shall indemnify, defend, and hold harmless Developer and its officers, directors, members, employees, agents, contractors, and affiliated entities (collectively, the "Developer Representatives") from and against any and all claims, demands, liabilities, actions, causes of action, damages, losses, costs, and expenses, including without limitation reasonable attorneys' fees and litigation costs, arising out of or resulting from City's acts, omissions, negligence, willful misconduct, or breach of this Agreement, except to the extent caused by the negligence or willful misconduct of Developer or any Developer Representative.

The obligations of Developer and City under this Section arising prior to the expiration or earlier termination of this Agreement shall survive the expiration or earlier termination of this Agreement.

In the event of any litigation challenging this Agreement, the negotiation or execution of this Agreement, or the negotiation or execution of any subsequent Disposition and Development Agreement for the Project, the parties shall cooperate in good faith to minimize defense costs. Upon the written request of the party providing the defense and indemnification, the other party shall reasonably consider rescinding, modifying, or taking other appropriate action with respect to the challenged approval or agreement; provided, however, that neither party shall be obligated to take any action that it determines, in its sole discretion, is contrary to its legal obligations, public duties, or best interests.

9. LIMITATIONS.

This Agreement does not obligate City to transfer any City Lots to Developer or any other person, nor does it obligate City to approve the Project or any other project.

Developer acknowledges and agrees that no City commitment to move forward with the Project can be made other than by formal action of the City Council by way of resolution or ordinance, whichever the case may be, and subject to the requirements of CEQA, and other applicable laws, and understands that such formal action will be at the City Council's sole and absolute discretion. Any costs incurred by Developer, Developer's members or partners, or other members of the Project

development team to comply with its obligations under this Agreement or to negotiate the DDA shall be the sole responsibility of Developer, and in no event shall City have any responsibility to pay for or reimburse Developer for any of said costs, or any damages whatsoever.

Developer understands and acknowledges that City is subject to the California Public Records Act, and therefore recognizes that City shall make information regarding City's property, the Project, Developer, and this Agreement available to the public upon request as required by said laws.

10. NON-DISCRIMINATION.

Developer agrees that there shall be no discrimination against, or segregation of, any person, or group of persons, on account of sex, race, color, age, marital status, religion, disability, creed, national origin, ancestry, sexual orientation, Acquired Immune Deficiency Syndrome (AIDS) or AIDS-Related Conditions (ARCS) in the sale, lease, sublease, transfer, use, occupancy, tenure or enjoyment of any property, nor shall Developer establish or permit any such practice or practices of discrimination or segregation with reference to the selection, location, number, use or occupancy of tenants, buyers, lessees, subtenants, sub-lessees or vendees of any City Lots.

11. NO ASSIGNMENT.

This Agreement is personal to Developer and is not assignable to any other person or entity without the prior written consent of City, in its sole and absolute discretion except for a newly formed single purpose entity or affiliate controlled by or under common control by Developer. Except for the foregoing, any attempt to assign this Agreement or any part of the Agreement without the prior written consent of City shall constitute a breach of this Agreement and shall be void and of no force and effect.

12. INFORMATION.

The Parties hereto agree to promptly furnish the requesting Party, without any warranty or representation, all material information within its possession or control concerning the applicable properties, including without limitation, copies of all topographical surveys, environmental reports, engineering studies, soil-bearing test data, appraisals and any similar reports and studies.

CITY OF MONTEBELLO
CITY COUNCIL AGENDA STAFF REPORT

TO: Honorable Mayor and City Council Members

FROM: Raul Alvarez, City Manager

BY: Joseph Palombi, Director of Planning & Community Development

SUBJECT: **APPROVE A RESOLUTION DECLARING THE CITY'S INTENTION TO ESTABLISH THE MONTEBELLO ENHANCED INFRASTRUCTURE FINANCING DISTRICT (EIFD) TO SUPPORT PUBLIC INFRASTRUCTURE AND ECONOMIC DEVELOPMENT INVESTMENTS**

DATE: June 24, 2026

RECOMMENDATIONS:

It is recommended that the City Council:

1. Adopt Resolution No. 26-46 declaring the City Council's intention to establish the Montebello Enhanced Infrastructure Financing District (EIFD) pursuant to Government Code Section 53398.50 et seq.; and
2. Establish the proposed boundaries of the Montebello EIFD, as described in the Resolution and accompanying map; and
3. Designate the City Council as the Public Financing Authority (PFA) for purposes of governing the EIFD, consistent with applicable State law; and
4. Direct staff and the City's consultants to prepare an Infrastructure Financing Plan (IFP) identifying eligible public infrastructure improvements, facilities, and financing mechanisms within the EIFD; and
5. Set a public hearing date and direct staff to provide all required notices and undertake all actions necessary to continue the EIFD formation process in accordance with State law; and
6. Authorize the City Manager, or designee, to take such additional actions and execute any documents necessary to implement the City Council's direction regarding the establishment of the Montebello EIFD; and
7. Take such additional and/or related action that may be desirable.

FISCAL IMPACT:

There is no immediate fiscal impact associated with the recommended action. The proposed Enhanced Infrastructure Financing District (EIFD) feasibility and planning effort is intended to evaluate the potential benefits, boundaries, financing capacity, and infrastructure investment opportunities associated with the formation of an EIFD within the City.

Should the City Council elect to proceed with EIFD formation following preparation of the Infrastructure Financing Plan (IFP), required public hearings, and consideration of tax increment participation by affected taxing entities, the earliest potential formation of the EIFD would occur in December 2026 following completion of the required public hearings and protest proceedings conducted by the Public Financing Authority (PFA).

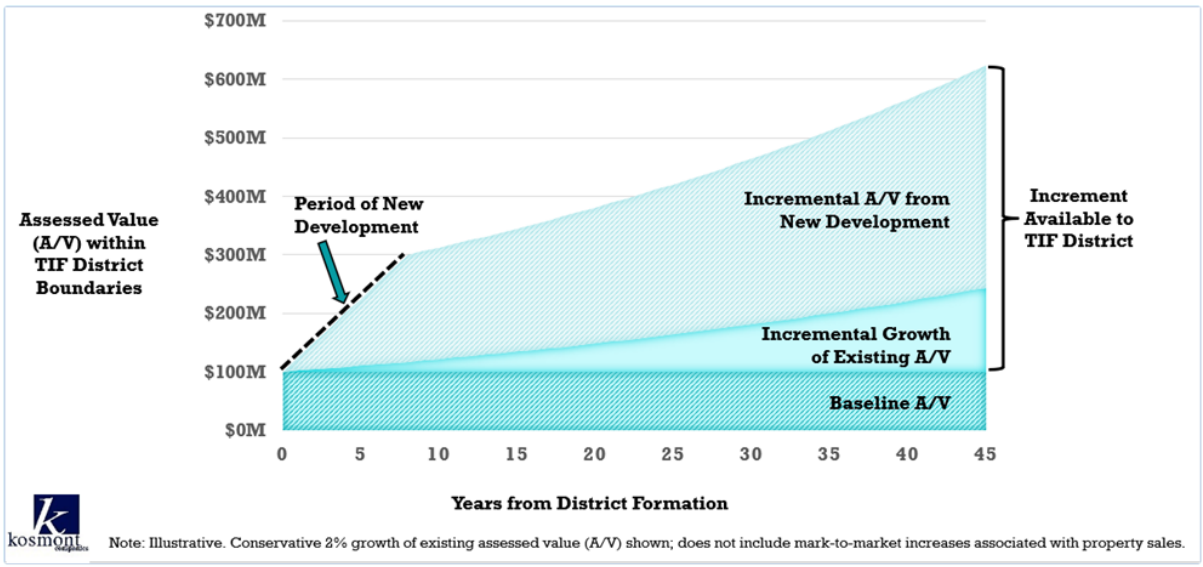
As part of the IFP development and review process, a comprehensive fiscal impact analysis will be prepared and presented to the PFA and City Council for consideration. The analysis will evaluate projected tax increment revenues, participation by affected taxing entities, administrative and implementation costs, financing capacity, infrastructure investment opportunities, anticipated General Fund impacts, and other long-term fiscal implications associated with EIFD formation and implementation.

Accordingly, any future fiscal commitments associated with the EIFD, including the City's proposed allocation of tax increment revenues, would be subject to separate review and approval by the City Council as part of the EIFD formation process. If formed in December 2026, the EIFD would begin receiving tax increment revenues generated from growth in assessed valuation above the established base year beginning in Fiscal Year 2027-28. The property tax revenue projections included in the recently adopted FY 2026-27 budget will not be impacted by the recommended actions.

BACKGROUND/DISCUSSION:

EIFDs aid cities in funding public facilities and other public investments to foster future development and increase property values. By capturing tax increment revenue generated within the district as new development occurs and property values increase over time, a portion of tax increment revenue is redirected from participating taxing entities to the EIFD. Importantly, the establishment of EIFDs does not increase property taxes or any other taxes for landowners within or outside the EIFD boundaries.

The following chart illustrates how tax increment captures new revenue from new development into the EIFD (note these dollars are for illustrative purposes only):



With grant funding support from the Southern California Association of Governments (SCAG), the City has been evaluating the use of an EIFD to facilitate economic development along key commercial corridors within the City (Beverly, Whittier, Washington) via investment in critical infrastructure. To date, staff and consultant Kosmont Companies have prepared detailed analyses and conducted numerous virtual and in-person community meetings. Feedback from stakeholder outreach has been positive thus far.

As part of the EIFD evaluation process, the City has conducted extensive community outreach to inform residents, business owners, property owners, and other stakeholders about the proposed district and to solicit public input. Outreach efforts to date have included an in-person community meeting held on March 26, 2026, a virtual community meeting held on April 28, 2026, and a hybrid community meeting held on June 11, 2026, which provided both in-person and online participation opportunities.

These meetings included presentations regarding the purpose of EIFDs, potential infrastructure investments, district boundaries, financing mechanisms, and opportunities for public feedback. The City will conduct outreach throughout the EIFD formation process to ensure stakeholders remain informed and opportunities to participate before any final action is considered by the City Council.

ENVIRONMENTAL:

The City Council's adoption of the Resolution of Intention and establishment of the Public Financing Authority (PFA) are exempt from the California Environmental Quality Act (CEQA) because they involve the creation of a government funding mechanism and constitute administrative and organizational activities of the City. Accordingly, these actions do not constitute a "project" under CEQA Guidelines Sections 15378(b)(4) and 15378(b)(5).

In addition, these actions will not result in a direct or reasonably foreseeable indirect physical change to the environment because the City has not committed to any specific

infrastructure project or development activity that may be funded through the Enhanced Infrastructure Financing District (EIFD). As a separate and independent basis for exemption, these actions are also exempt pursuant to CEQA Guidelines Section 15061(b)(3), the common-sense exemption, because it can be seen with certainty that there is no possibility that the adoption of the Resolution of Intention or establishment of the PFA may have a significant effect on the environment.

Any future projects, public infrastructure improvements, or facilities proposed to be funded, in whole or in part, through EIFD revenues will be subject to environmental review in accordance with CEQA prior to approval, as required by applicable law.

ANALYSIS:

Adoption of the City Council's Resolution of Intention (Attachment A) provides for the following:

1. **Preliminary boundaries of the EIFD.** The proposed EIFD boundaries are noted in color in Exhibit A of the Resolution of Intention. Though the exact boundaries of the EIFD are subject to further review and refinement as the formation process continues, the current boundary is focused on the Beverly, Whittier, and Washington Corridors. The land included in these boundaries totals approximately 230 acres (approximately 4.7% of the City).

2. **The public facilities and development proposed to be financed by the EIFD.** The activities listed under the Resolution of Intention include all eligible activities under the EIFD legislation and are listed in Exhibit B to the Resolution of Intention (more specific projects will be delineated in the required Infrastructure Financing Plan prior to district formation). Discussions so far at the staff level and during the community meetings have identified the following examples of potential projects to be funded:

    - Parking facilities and parking enhancements
    - Parks and recreation improvements
    - Streetscape
    - Affordable housing.
    - Fire and public safety improvements.

3. **Use of Incremental Tax Revenue.** The Resolution of Intention anticipates that a portion (not all) of the City's future property tax increment revenue generated within the EIFD will be allocated to the EIFD. The exact amounts will be determined in future resolutions adopted by the City Council. It is anticipated that the County will additionally participate in the EIFD, in which case, a portion of the County's property tax increment revenue will also be allocated to the EIFD.

4. **Establishes a Public Financing Authority to serve as the governing board of the EIFD.** Given the anticipated participation of the County in the

EIFD, the Public Finance Authority (PFA) membership is proposed to be comprised of two members of the City Council, one County Supervisor, one member of the public appointed by the City Council (to be appointed at a future date), and one member of the public appointed by the County Board of Supervisors. An alternate PFA board member will also be appointed to represent the City Council in the absence of a regular member.

5. **Sets a time and place for the first public hearing on the EIFD to be conducted by the Public Financing Authority.** The first public hearing is tentatively scheduled for November 10, 2026, at 6:00 p.m., or as soon thereafter as the matter may be heard, in the City Hall Council Chambers, 1600 West Beverly Blvd, Montebello, CA 90640.

Approval of the Resolution of Intention and appointments to the PFA begin a series of activities that will take place over the next several months, primarily by the PFA Board. The following schedule outlines the various key tasks and milestones in the formation process. As the following proposed schedule indicates, the final City Council approvals are expected to follow later in calendar year 2026.

Task	**Target Date**	**Notes**
Initial meeting of the Public Financing Authority (PFA)	August 2026	PFA will review the EIFD, potentially adopt bylaws, direct the preparation of the draft Infrastructure Financing Plan (IFP)
PFA meets to review draft IFP	October 2026	
City Council considers resolution approving the IFP and allocation of property tax increment	November 2026	
County Board of Supervisors considers resolution approving the IFP and allocation of property tax increment	November 2026	
PFA holds Public Hearing #1	November 2026	Additional comments taken; PFA takes action to modify or reject IFP, or otherwise proceed to Public Hearing #2
PFA holds Public Hearing #2 and Protest Proceeding	December 2026	If majority protest exists – PFA takes action to terminate EIFD. If no majority protest, PFA can propose adoption of the IFP and formation of the EIFD

Staff files EIFD with State Board of Equalization (BOE)	December 2026	

The IFP referenced in the timeline above becomes the roadmap for the work to be accomplished by the EIFD. The IFP will analyze the tax increment anticipated to be generated by the properties in the EIFD boundary, consider the cost of various infrastructure options to be considered for investment, evaluate the bonding capacity created by the tax increment generated, estimated general fund fiscal impacts, and provide a plan for how the EIFD will capture tax increment to fund infrastructure investments.

The IFP contents are currently under development and will be provided in draft format to the public, PFA, and City Council in accordance with the schedule above.
Public information is an important part of the EIFD formation process. A web page has been developed that would continue to serve as a resource to interested stakeholders: https://www.montebelloca.gov/departments/planning_community_development/economic_development_division/enhanced_infrastructure_financing_district__eifd_

Landowners and residents within the EIFD boundaries would also receive mailed notifications of public meetings and hearings throughout the formation process, and public hearings would additionally be advertised via local newspaper. In the event of a majority protest by property owners or residents within the boundaries, the formation proceedings would be discontinued.

SUMMARY:

The proposed Montebello EIFD represents a strategic economic development and infrastructure financing tool that would enable the City to leverage future growth in property tax revenues to fund public infrastructure, facilities, affordable housing, and other eligible capital improvements within targeted commercial corridors. Establishment of the EIFD would not increase taxes on residents, businesses, or property owners and would provide the City with a long-term mechanism to support infrastructure investments that enhance economic vitality, improve public amenities, and encourage private investment.

Adoption of the Resolution of Intention is the first formal step in the EIFD formation process and will allow the City to continue evaluating the feasibility of the district through preparation of an Infrastructure Financing Plan (IFP), public outreach, and required public hearings. The proposed EIFD boundaries, financing structure, and eligible projects will be further refined and evaluated throughout the formation process before final approval is considered.

Accordingly, staff recommends that the City Council:

1. Adopt Resolution No. 26-46 declaring its intention to establish the Montebello Enhanced Infrastructure Financing District (EIFD), establishing the Montebello Public Financing Authority (PFA), and initiating proceedings pursuant to Government Code Section 53398.50 et seq.; and
2. Appoint two members of the City Council to serve on the Public Financing Authority Board and appoint one member of the City Council to serve as the alternate Board member; and
3. Authorize staff to proceed with the preparation of the Infrastructure Financing Plan and undertake all actions necessary to continue the EIFD formation process in accordance with State law.

RESOLUTION NO. 26-46

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MONTEBELLO DECLARING ITS INTENTION TO ESTABLISH THE MONTEBELLO ENHANCED INFRASTRUCTURE FINANCING DISTRICT TO FINANCE THE CONSTRUCTION, ACQUISITION, REPAIR, REHABILITATION, REMEDIATION, AND/OR MAINTENANCE OF PUBLIC INFRASTRUCTURE IMPROVEMENTS, CAPITAL IMPROVEMENTS, AND FACILITIES, INCLUDING THE ACQUISITION AND/OR REMEDIATION OF LAND FOR SUCH IMPROVEMENTS AND FACILITIES; ESTABLISHING A PUBLIC FINANCING AUTHORITY; AND AUTHORIZING CERTAIN OTHER ACTIONS RELATED THERETO

WHEREAS, SB 628, effective as of January 1, 2015, allows a city or county to create a separate government entity known as an "Enhanced Infrastructure Financing District" (EIFD) within a defined area to finance certain infrastructure projects with community-wide benefits; and

WHEREAS, pursuant to Chapter 2.99 of Part 1 of Division 2 of Title 5 of the California Government Code (commencing with Section 53398.50) (the "EIFD Law"), the City Council of the City of Montebello ("Council") is authorized to initiate the process to establish an EIFD; and,

WHEREAS, EIFDs are financed through tax increment generated from the growth in property taxes collected from within a designated district boundary. There are no new taxes or impacts to the property owner within an established EIFD; and,

WHEREAS, EIFD tax increment may be used to pay for a variety of public facilities and other projects authorized by the EIFD Law within the established EIFD boundaries or outside of the established EIFD boundaries if there is a tangible connection to the work of the EIFD, including but not limited to infrastructure such as parking structures, parks and public recreation, roads, utilities, streetscapes, or other community facilities. Affordable housing, including affordable senior housing, is also an eligible activity; and,

WHEREAS, the City obtained a grant from the Southern California Association of Governments (SCAG), and coordinated through SCAG to retain Kosmont Companies as a consultant through a competitive procurement process to prepare an evaluation of EIFD implementation feasibility; and,

WHEREAS, the prerequisites set forth in Government Code Section 53398.54 have been complied with prior to the City initiating the creation of or participating in the governance of the EIFD, and the City will provide the required certification to the California Department of Finance ("DOF") in accordance with the EIFD Law; and,

WHEREAS, the proposed boundaries of the Montebello EIFD are identified on Exhibit A entitled "Proposed Montebello EIFD Boundary", a copy which is on file in the office of the City Clerk; and,

WHEREAS, the EIFD will be governed by a Public Financing Authority ("PFA") board which will be responsible for implementing the Infrastructure Financing Plan for the EIFD ("IFP"),

and the PFA is required to be established by the City Council at the same time that the Council adopts its intention to form the proposed EIFD; and,

WHEREAS, this action is exempt from the California Environmental Quality Act ("CEQA") as an action solely related to financing and is not in-and-of itself a "project" (pursuant to CEQA Guidelines Section 15378) since it does not result in a physical change in the environment because the City has not committed itself to fund any specific projects through the EIFD. However, future actions (such as the funding and/or approval of infrastructure improvements using funding from the EIFD) will be subject to environmental review in accordance with CEQA.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF MONTEBELLO HEREBY RESOLVES AS FOLLOWS:

Section 1. The City Council of the City of Montebello proposes and intends to cause the establishment of an EIFD under the provisions of the EIFD Law.

Section 2. The name proposed for the EIFD shall be the "Montebello Enhanced Infrastructure Financing District."

Section 3. The proposed boundaries of the EIFD are as shown on Exhibit A attached hereto, which are preliminarily approved and on file in the office of the City Clerk and incorporated herein by reference.

Section 4. The types of public facilities and development proposed to be financed or assisted by the EIFD pursuant to the EIFD Law are those listed on Exhibit B, attached hereto and incorporated herein by reference.

Section 5. The City Council hereby finds that the EIFD is necessary for the area within the boundaries of the EIFD and the City. The City Council's stated goals for the EIFD are to create a means by which to assist in the provision of public facilities or other specified projects of communitywide significance that provide significant benefits to, promote economic development of, and enhance quality of life within, the boundaries of the EIFD or the surrounding community.

Section 6. The City Council hereby declares that, pursuant to the EIFD Law and if approved by resolution pursuant to Government Code Section 53398.68, incremental property tax revenue from the City of Montebello and some or all other affected taxing entities within the EIFD may be used to finance the activities described in Section 4 and listed on Exhibit B. The incremental property tax financing will be described in an IFP to be prepared for approval by the PFA, the City Council, and the legislative bodies of all participating taxing entities under EIFD Law.

Section 7. The City or County of Los Angeles may allocate tax revenues derived from local sales and use taxes imposed pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law (Part 1.5 (commencing with Section 7200) of Division 2 of the Revenue and Taxation Code) or transactions and use taxes imposed in accordance with the Transactions and Use Tax Law (Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code) to the EIFD pursuant to Government Code Section 53398.75.5, if applicable. The City Council does not

intend to contribute sales and use taxes or transactions and use taxes to the EIFD.

Section 8. The City Council hereby establishes the "Public Financing Authority of the Montebello Enhanced Infrastructure Financing District" to serve as the governing board of the EIFD:

A. The PFA membership shall be comprised initially of three members of the City Council appointed by the City Council and two public members selected by the City Council. Members shall serve at the pleasure of the City Council, as the case may be, and shall serve until their successor assumes office.

B. The City Council further declares that, pursuant to Government Code Section 53398.51.1, should another taxing entity agree to participate as a taxing entity, then the PFA membership shall be modified in accordance with Government Code Section 53398.51.1. For example, if the County of Los Angeles ("County") agrees to participate as a taxing entity and the participating taxing entities consist of the City and the County, then the PFA membership shall be modified to be two members of the City Council, one member of the County Board of Supervisors ("Board of Supervisors"), one member of the public appointed by the City Council, and one member of the public appointed by the Board of Supervisors. Members shall serve at the pleasure of their respective appointing legislative bodies and shall serve until their successor assumes office.

C. The legislative body of each participating taxing entity may appoint one of its members to be an alternate member of the PFA board who may serve and vote in place of a member who is absent or disqualifies themselves from participating in a meeting of the PFA.

D. The members are subject to compliance with the EIFD Law and all applicable ethics laws, including Article 2.4 (commencing with Section 53234) of Chapter 2 of the Government Code.

E. The City Council, and the governing bodies of any other participating entities shall comply with Government Code Section 54974.

Section 8. The City Council hereby sets the time and place for a public hearing of the PFA regarding the proposed EIFD and IFP, to be held on November 10, 2026, at 6:00 p.m., or as soon thereafter as the matter may be heard, at City Hall Council Chambers, 1600 W Beverly Blvd, Montebello, CA 90640.

Section 9. Pursuant to Government Code Section 53398.60, the City Clerk is hereby directed to mail a copy of this Resolution to the PFA and each owner of land (as defined in the EIFD Law), or alternatively with respect to the owners of land may mail a single-page notice of intention identified in Government Code Section 53398.60(b), within the EIFD and to each affected taxing entity (as defined in the EIFD Law). In addition, the City Clerk is hereby directed to cause notice of the public hearing to be published not less than once a week for four successive weeks in a newspaper of general circulation published in the City. The notice shall state

that the EIFD will be used to finance public works, briefly describe the facilities, briefly describe the proposed financial arrangements, including the proposed commitment of incremental tax revenue, describe the boundaries of the proposed EIFD and state the day, hour, and place, when and where any persons having any objections to the proposed IFP, or the regularity of any of the prior proceedings, may appear before the PFA and object to the adoption of the proposed IFP.

Section 10. The Successor Agency to the Redevelopment Agency of the City of Montebello (Successor Agency) has received a finding of completion, as specified in California Health and Safety Code Section 34179.7.

Section 11. In accordance with Government Code Section 53398.54, the City certifies to the DOF and to the PFA that no former Redevelopment Agency of the City of Montebello (Former RDA) assets that are the subject of litigation involving the State of California, where the City or the Successor Agency are a named plaintiff, have been or will be used to benefit any efforts of the EIFD unless the litigation and all possible appeals have been resolved in a court of law. The City Clerk is authorized and directed on behalf of the City to provide or make this certification to the DOF within 10 days after the City Council's action to participate in the EIFD pursuant to Government Code Section 53398.68 or the City Council's action to form the EIFD pursuant to Government Code Section 53398.69, by delivery of a copy of the appropriate Resolution or signing a separate certification, if and as required by the DOF.

Section 12. The State Controller has completed its review as specified in California Health and Safety Code Section 34167.5 of asset transfers between the Former RDA, the City or any other public agency. The Successor Agency and the City have complied with all of the State Controller's findings and orders stemming from such review.

Section 13. This Resolution in no way obligates the PFA to establish any EIFD.

Section 14. lf any section, subsection, phrase or clause of this Resolution is for any reason found to be invalid, such section, subsection, phrase or clause shall be severed from, and shall not affect the validity of, all remaining portions of this Resolution that can be given effect without the severed portion.

Section 15. This Resolution shall take effect immediately upon its adoption.

Section 16. The City Manager, or designee, are hereby authorized and directed to take all actions necessary or advisable to give effect to the transactions contemplated by this Resolution.

Section 17. The City Clerk of the City of Montebello shall certify as to the adoption of this Resolution.

ITEM # 7

CITY OF MONTEBELLO
CITY COUNCIL AGENDA STAFF REPORT

TO: Honorable Mayor and City Council Members

FROM: Raul Alvarez, City Manager

BY: Ramon Figueroa, Director of Human Resources

SUBJECT: **ADOPT RESOLUTION NO. 26-52 APPROVING A MEMORANDUM OF UNDERSTANDING BETWEEN THE CITY OF MONTEBELLO AND THE MONTEBELLO POLICE MANAGEMENT ASSOCIATION**

DATE: June 24, 2026

RECOMMENDATIONS:

It is recommended that the City Council:

1. Adopt Resolution No. 26-52 approving a Memorandum of Understanding (MOU) between the City of Montebello and the Montebello Police Management Association (MPMA); and
2. Take such additional, related action that may be desirable.

FISCAL IMPACT:

The Memorandum of Understanding (MOU) between the City and the Montebello Police Management Association (MPMA) for the period of July 1, 2026 through June 30, 2029 contains base salary increases, increases to education incentive pay, an increase to the uniform allowance, an increase in administrative leave hours and other non-economic changes and MOU language clean-up.

The salary increases over the three-year MOU term are five percent (5.0%) in July 2026, two and one-half percent (2.5%) in January 2027 and two and one-half percent in July 2027. The three-year estimated cost of the total 10.0% pay increase is $430,000 The estimated salary increase expenses also include PERS related costs. Since the employer share of PERS is calculated as a percentage of base pay, any increase to wages leads to an increase in pension expenses.

Members of this association are eligible for Education Incentive pay depending on the

degree or certificate achieved: Associate's Degree, Bachelors Degree/Advanced POST, Master's Degree and Management Certificate (Lieutenants). The monthly incentive amount for the Bachelors, Masters and Management degree/certificate is increasing, ranging from $50/month for a Bachelor's and Master's Degree and $200/month for the Management Certificate. The estimated three-year cost of these increases is $48,600

The total three-year estimated cost of this MOU is $478,100 – base salary increases, additional PERS costs, increases to education incentives and an increase to the uniform allowance (from $950/year to $1,200/year). The Fiscal Year 2026-27 budget was developed to anticipate these increases to salary and related employment expenses. Therefore, no budget amendment is needed as part of the recommended actions.

BACKGROUND/DISCUSSION:

In March 2026, the City began labor negotiations with MPMA ahead of the existing MOU expiring on June 30, 2026. The MPMA represents the classifications of Assistant Police Chief, Police Captain, and Police Lieutenant. The parties held multiple negotiation sessions and reached a tentative agreement on a three (3) year MOU effective July 1, 2026 through June 30, 2029. The tentative agreement has been ratified by the MPMA membership.

The major provisions of the tentative agreement include: base salary increases of five percent (5%) effective July 2026, two and one half percent (2.5%) effective January 2027, and two and a half percent (2.5%) effective July 2027; increasing education incentive pay by $50 per month for possession of a Bachelor's Degree or Advanced POST Certificate, by $50 per month for possession of a Master's Degree, and by $200 per month for possession of a POST Management Certificate.

Other key terms of the agreement include: increasing annual Administrative Leave hours from forty (40) hours to fifty (50) hours; increasing the annual uniform allowance by $250 per year; updating overtime eligibility for Watch Commander coverage from straight time to one and one half overtime rate, and clarifying language on other issues of employment.

As a full-service organization, the City depends on the experience, knowledge, and skills of the MPMA to maintain public safety, prevent and respond to criminal activity, and ensure the well-being of residents and property within the City's jurisdiction. Moreover, the proposed MOU would allow the City to remain competitive in the marketplace.

ENVIRONMENTAL:

None.

Retirement Tier 1: Employees hired prior to January 1, 2013, or who are not "new members" under the California Public Employees' Pension Reform Act of 2013 ("PEPRA"), Gov. Code § § 7533, et seq. **These employees are also referred to as "Classic CalPERS Members."**

The current retirement formula is 3% at 50.

Retirement Tier 2: Employees Hired on or after January 1, 2013, and who are defined by the Public Employees' Pension Reform Act (PEPRA) as "new members."

The current retirement formula is 2.7% at 57.

ARTICLE IV - POST-RETIREMENT BENEFITS

SECTION A RETIREE HEALTH BENEFITS

Full-time active MPMA safety members hired prior to June 26, 2019, or who immediately prior to joining the MPMA served as full-time active MPOA safety members.

The City agrees to continue to provide the Retiree Health Benefit, with qualifying prerequisites, terms and provisions as previously agreed to in the MOU between the City and MPMA for the 2003-2004 negotiations to all full-time MPMA or MPOA members hired prior to June 26, 2019. The terms and eligibility requirements remain and are clarified as follows:

1) The Retiree Health Benefit will be paid to eligible members throughout the employee's lifetime. Currently, continuation of benefits after a member's eligibility for Medicare is paid for the employee only (not to survivors) through a Trust Account to which the City currently contributes one percent (1%) of a member's salary. Should the Trust assets, at any fiscal year end, be less than three (3) times the current annualized benefits due, the City and MPMA shall meet and confer.

2) The Retiree Health Benefit will not apply to the employee's survivors.

3) To be eligible, the member must:

   a) be currently employed as an active full-time safety member of the MPMA.

   b) be at least fifty (50) years of age (no minimum age requirement for disability retirement, both industrial and non-industrial).

   c) retire directly from the City.

   d) have at least fifteen (15) full-time years of active City service at the time of service retirement. The fifteen (15) years does not have to be the result of contiguous employment; however, the employee's last five (5) years of employment immediately prior to retirement must be as an active, full-time safety employee of the City, or at least ten (10) full years of active City service at the time of disability retirement (both industrial and non-industrial). To be eligible for lifetime retiree medical benefits, all fifteen (15) years of service (ten [10] years for disability retirement), both industrial and non-industrial, must be within the City. Prior lateral service does not count toward retiree health benefits.

4) The monthly retiree benefit for MPMA members with less than twenty-five (25) years of full-time active service will be determined by the number of full years of City service multiplied by $25.00. Examples of calculations are as follows: Fifteen (15) years of City service multiplied by $25.00 = $375 per month; Twenty-four (24) years of City service

multiplied by $25.00 = $ 600 per month. The monthly retiree benefit only for MPMA members with twenty five (25) full years or more of active City service shall not be determined by the number of full years of City service multiplied by $25.00; rather all MPMA members who retire with twenty five (25) years or more of active full-time City service shall receive a flat rate equal to the value of the City's medical allowance for current MPMA members that is in effect at the time they retire. The retiree benefit for qualified disability (both industrial and non-industrial) retirement will be calculated in the same manner as for service retirements.

5) The monthly amount payable will be reduced by any amount paid by the City on the retiree's behalf toward medical insurance or any amount required to be paid by the City for any local, state, or deferral government retirement or medical plan or law.

6) The City will issue a warrant to the retired employee monthly for the amount of retiree benefit paid to the employee. These amounts will be considered taxable to the retiree. Retired employees may enroll in any health plan of their choice or may choose not to enroll in a health plan at their discretion.

B. Full- time members hired on or after June 26, 2019:

All full-time members hired on or after June 26, 2019, shall only, commencing the month following one full month of retirement and continuing through the period prescribed by law, receive the minimum employer health premium contribution as prescribed by Government Code section 22892 of the Public Employees' Medical and Hospital Care Act (PEMHCA). CITY OF MONTEBELLO
CITY COUNCIL AGENDA STAFF REPORT

TO: Honorable Mayor and City Council Members

FROM: Raul Alvarez, City Manager

BY: Joseph Palombi, Director of Planning & Community Development

SUBJECT: **ADOPT URGENCY ORDINANCE NO. 2495 ESTABLISHING A TEMPORARY MORATORIUM ON SENATE BILL 79 DEVELOPMENT APPLICATIONS WITHIN THE WASHINGTON BOULEVARD TRANSIT-ORIENTED DEVELOPMENT SPECIFIC PLAN AREA PURSUANT TO GOVERNMENT CODE SECTION 65858**

DATE: June 24, 2026

RECOMMENDATIONS:

It is recommended that the City Council:

1. Find that the proposed Urgency Ordinance is exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Sections 15061(b)(3) and 15308; and
2. Adopt Urgency Ordinance No. 2495 by a four-fifths vote, pursuant to Government Code Section 65858, establishing a temporary moratorium on the acceptance, processing, and approval of certain transit-oriented development applications within the Washington Boulevard Transit-Oriented Development Specific Plan Area; and
3. Take such additional and/or related action that may be desirable.

FISCAL IMPACT:

There is no direct fiscal impact associated with adoption of the proposed Urgency Ordinance. The Ordinance will allow the City to continue its ongoing Washington Boulevard Transit-Oriented Development (TOD) Specific Plan effort without interruption and protect the public interest through a collaborative planning process intended to guide future development. Adoption of the Ordinance will also help safeguard the City's investment in the preparation of the Specific Plan and the associated technical studies currently underway.

BACKGROUND/DISCUSSION:

The City of Montebello is currently preparing the Washington Boulevard Transit-Oriented Development (TOD) Specific Plan, a comprehensive multi-year planning effort intended to guide future growth and development along the Washington Boulevard corridor and areas surrounding the future light rail station at Washington Boulevard and Greenwood Avenue. The proposed Greenwood Avenue/Washington Boulevard Station is planned as a regional transit hub on Metro's E Line, providing direct light rail connectivity between Montebello and major employment, educational, and activity centers throughout Los Angeles County while supporting transit-oriented development opportunities in the surrounding area. The Specific Plan is designed to establish a long-term vision for land use, economic development, housing, mobility, urban design, infrastructure improvements, and implementation strategies that will support investment while maintaining compatibility with surrounding neighborhoods.

The City has committed significant resources toward preparation of the Specific Plan, including the retention of professional planning, engineering, environmental, economic development, and public engagement consultants. The planning process includes evaluation of transportation and circulation systems, utility and infrastructure capacity, parking demand, housing opportunities, public realm improvements, environmental considerations, and economic development strategies. Community outreach efforts are ongoing to ensure meaningful public participation throughout the planning process.

Recent changes in State law, including Senate Bill 79 (SB 79), create new opportunities for increased residential density, building height, floor area ratio, parking reductions, and streamlined approval processes for qualifying projects located near future transit facilities. While the City supports the State's objective of increasing housing production and encouraging transit-oriented development, implementation of these provisions prior to completion of the Washington Boulevard TOD Specific Plan could result in development patterns that are inconsistent with the City's ongoing planning efforts, undermining years of local planning for the Washington Boulevard TOD Specific Plan.

ENVIRONMENTAL:

The proposed Urgency Interim Ordinance is exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15061(b)(3) (Common Sense Exemption) because it can be seen with certainty that the ordinance will not result in a direct or reasonably foreseeable physical change in the environment. The ordinance is also exempt pursuant to CEQA Guidelines Section 15308 (Actions by Regulatory Agencies for Protection of the Environment) because it constitutes a regulatory action intended to preserve the status quo while the City completes comprehensive planning and environmental review activities.

ANALYSIS:

Government Code Section 65858 authorizes cities to adopt interim urgency ordinances when there is a current and immediate threat to the public health, safety, or welfare

resulting from land uses that may conflict with contemplated zoning regulations which are in process. Staff has determined that allowing development applications to proceed under SB 79 prior to completion of the proposed TOD Specific Plan could undermine the City's ability to complete a coordinated planning process and adopt comprehensive development standards for the Washington Boulevard corridor that incorporate and are consistent with SB 79.

Specifically, projects approved during the planning process may:

- Establish development patterns inconsistent with the emerging TOD Specific Plan framework;
- Create vested development rights that could limit the City's future planning authority;
- Result in piecemeal development that impedes corridor-wide planning objectives;
- Consume available transportation, utility, and public service capacity prior to completion of technical analyses;
- Undermine future design standards, development standards, and implementation measures currently under preparation;
- Complicate future public infrastructure investments and mobility improvements;
- Result in environmental impacts currently being evaluated through the Specific Plan environmental review process;
- Impair future affordable housing, economic development, mobility, and public benefit programs being considered through the planning effort; and
- Result in economic waste and inefficiencies by undermining ongoing TOD Specific Plan planning and environmental review.

The proposed urgency ordinance would temporarily prohibit the acceptance, processing, and approval of development applications within the Washington Boulevard TOD Specific Plan Area that seek to utilize development incentives, density allowances, height increases, parking reductions, ministerial approval pathways, or similar benefits authorized under SB 79 or substantially similar transit-oriented development legislation.

The ordinance would not apply to development applications, tenant improvements, maintenance activities, projects subject to previously approved development agreements, which are in accordance with the Montebello Municipal Code, or projects that the City is otherwise required by law to process. The temporary moratorium would preserve the status quo while allowing the City to incorporate SB 79 into the TOD Specific Plan and complete the TOD Specific Plan and associated environmental review process. Government Code Section 65858 limits the initial duration of an interim urgency ordinance to 45 days unless extended by the City Council through subsequent action and findings as allowed thereunder.

SUMMARY:

The City of Montebello is currently preparing the Washington Boulevard Transit-Oriented Development (TOD) Specific Plan, a comprehensive planning effort intended to establish

a long-term vision and regulatory framework for future growth, housing, mobility, economic development, urban design, and infrastructure improvements along the Washington Boulevard corridor. Concurrently, recent State legislation, including SB 79, authorizes increased development intensity and streamlined approval processes for qualifying transit-oriented housing projects near major transit facilities.

Adoption of the proposed Urgency Interim Ordinance would establish a temporary moratorium on the acceptance, processing, and approval of certain development applications seeking to utilize SB 79 development incentives within the Washington Boulevard TOD Specific Plan Area. The temporary moratorium is intended to preserve the status quo while the City completes its ongoing, multi-year planning efforts, ensuring that future development occurs in a coordinated manner consistent with SB 79, community priorities, infrastructure capacity, mobility objectives, and the City's long-term vision for the corridor.

The ordinance is authorized pursuant to Government Code Section 65858 and is necessary to prevent premature development that could compromise the effectiveness of the TOD Specific Plan and create inconsistencies with development standards currently under study.

CITY OF MONTEBELLO
CITY COUNCIL AGENDA STAFF REPORT

TO: Honorable Mayor and City Council Members

FROM: Raul Alvarez, City Manager

BY: Kimberly Guillen, Director of City Clerk Services

SUBJECT: **ADOPT RESOLUTION NO. 26-49, DISRUPTION POLICY AND RESOLUTION NO. 26-50, PUBLIC POSTING BOARD POLICY / MEETING OUTREACH ENACTING BROWN ACT UPDATES PURSUANT TO SENATE BILL 707**

DATE: June 24, 2026

RECOMMENDATIONS:

It is recommended that the City Council:

1. Adopt Resolution No. 26-49, a Resolution of the City Council of the City of Montebello adopting Policy No. 26-01, Disruption of Telephonic or Internet Service During Public Meetings, in compliance with Senate Bill 707; and
2. Adopt Resolution No. 26-50, a Resolution of the City Council of the City of Montebello adopting Policy No. 26-02, Public Agenda Translation Posting Board Policy, in compliance with Senate Bill 707; and
3. Receive and file the City Clerk's update regarding implementation of additional Senate Bill 707 requirements, including agenda translation services through Doc Access, public outreach efforts through the Montebello Newsletter, and the establishment of a public agenda translation posting board; and
4. Take such additional, related action that may be desirable.

FISCAL IMPACT:

There is no significant fiscal impact associated with the adoption of the resolutions and proposed policies. Existing City resources will be used to implement the requirements of SB 707, including public outreach and the administration of the public translation posting board.

BACKGROUND/DISCUSSION:

The Ralph M. Brown Act (Government Code Section 54950 et seq.) establishes requirements for open meetings of local legislative bodies. In 2025, Senate Bill 707 amended the Brown Act related to remote participation, accessibility, language access, and procedures for addressing disruptions to meeting access during City Council meetings.

Among other requirements, SB 707 requires legislative bodies to adopt a technology disruption policy and determine what constitutes reasonable efforts to encourage public participation in City Council meetings, particularly among underrepresented and non-English-speaking communities. These requirements must be adopted and effective by July 1, 2026.

In addition, SB 707 requires cities to translate agendas into specified languages based on census data, provide space for members of the public to post translated agendas, and accommodate interpretation services during public meetings.

ENVIRONMENTAL:

N/A

ANALYSIS:

Technology Disruption Policy

Government Code Section 54953.4 requires the City Council to adopt, by July 1, 2026, a policy addressing disruptions of telephonic or internet service during meetings that provide remote public access. The policy must establish procedures for responding to disruptions and identify the efforts the City will undertake to restore service.

If a disruption occurs that prevents members of the public from observing or participating in a City Council meeting through the City's telephonic or audiovisual platform, the City Council must recess the open session for up to one hour and make good-faith efforts to restore service. During this time, the City Council may meet in closed session as otherwise permitted by law.

The proposed Disruption of Telephonic or Internet Service Policy incorporates the requirements established by SB 707 and provides procedures to ensure transparency, continuity of government operations, and public participation during technology disruptions.

Public Outreach Efforts

Government Code Section 54953.4 requires legislative bodies to determine what constitutes reasonable efforts to encourage public participation in meetings, particularly among underrepresented and non-English-speaking communities.

The City currently posts agendas and meeting notices on the City's website and social

media platforms. To further enhance public participation, the City Clerk's Office plans to include information regarding City Council meetings and opportunities for public participation in the Montebello Newsletter. These efforts are intended to increase public awareness of City Council meetings and encourage greater community engagement.

Agenda Translation Requirements

SB 707 requires cities to translate and post City Council agendas into specified languages based on census data and a statutory formula. Based on current demographic information, the City of Montebello will be required to translate City Council agendas into Spanish.

To comply with this requirement, the City will utilize Doc Access to translate City Council agendas. Staff will review translated agendas prior to posting to help ensure accuracy.

While cities are not required to provide interpretation services during meetings, space must be provided for interpreters accompanying participants, and additional time must be allotted to accommodate interpretation. The Act also requires closed-captioning services to be activated when available through the meeting platform being utilized.

Public Agenda Translation Posting Board Policy

Government Code Section 54953.4(c)(3)-(4) requires legislative bodies to make available a physical location that is freely accessible to the public and in reasonable proximity to the location where the City's official translations are posted for members of the public to post additional agenda translations.

To comply with this requirement, the City has designated and opened its existing public bulletin board for the posting of translated City Council agendas. The proposed Public Agenda Translation Posting Board Policy establishes procedures governing the use of the bulletin board and clarifies that the City is not responsible for the content or accuracy of translations posted by members of the public.

The policy further authorizes staff to remove materials that are unrelated to translated City Council agendas or otherwise inconsistent with the purpose of the posting board.

SUMMARY:

CITY OF MONTEBELLO

POLICY NO. 26-01: DISRUPTION OF TELEPHONIC OR INTERNET SERVICE DURING PUBLIC MEETINGS

SECTION 1. BACKGROUND

Senate Bill 707 (2025) amended the Ralph M. Brown Act to require eligible legislative bodies to adopt, on or before July 1, 2026, a policy addressing how the agency will respond to disruptions in telephonic or internet service that prevent members of the public from attending or observing a meeting remotely. This policy is adopted to comply with Government Code Section 54953.4 and to ensure continuity of public participation during technical disruptions.

SECTION 2. PURPOSE

This policy establishes procedures for responding to disruptions in telephonic or internet services that provide two-way remote public access to meetings of the Montebello City Council, as required by Government Code Section 54953.4. The policy is intended to promote transparency, public participation, and continuity of government operations during technology disruptions.

This policy is not intended to address disruptions caused by members of the public attending a meeting in person or conduct that otherwise interferes with the orderly conduct of a meeting.

SECTION 3. DEFINITIONS

For purposes of this policy:

A. "Disruption" means any failure, outage, interruption, or technical issue that prevents members of the public from attending, observing, or participating in a meeting through the City's remote access services.

B. "Remote Access Services" means the two-way telephonic service and/or two-way audiovisual platform used by the City to provide real-time remote public attendance, observation, and participation in City Council meetings.

SECTION 4: APPLICABILITY

This policy applies to all open and public meetings of the Montebello City Council at which remote public participation is offered or required pursuant to the Ralph M. Brown Act.

SECTION 5. PROCEDURES IN THE EVENT OF SERVICE DISRUPTION

5.1 RESPONSE TO SERVICE DISRUPTION

If the City Clerk determines, or is informed, that a disruption to the City's remote access services has occurred that prevents members of the public from observing or participating in a meeting remotely:

A. The City Clerk shall immediately notify the Mayor or presiding officer of the disruption.
B. The Mayor or presiding officer shall announce the disruption, if practicable, to meeting attendees.
C. The Mayor or presiding officer may call for a recess of the open session or convene the City Council into closed session, as otherwise permitted by law.
D. City staff shall immediately begin efforts to diagnose and restore the disrupted service.
E. The meeting shall remain in recess for at least one hour or until service is restored, whichever occurs first. The recess period may be extended if restoration efforts remain ongoing.

5.2 EFFORTS TO RESTORE SERVICE

The City shall make good-faith efforts to restore remote access services, which may include, but are not limited to:

- Troubleshooting teleconferencing or meeting platform software;
- Resetting, replacing, or reconfiguring audiovisual equipment;
- Attempting alternative internet or connection methods;
- Contacting information technology staff, service providers, or technical support personnel;
- Switching to backup equipment or alternative meeting platforms, if available.

The City Clerk, or designee, shall document the restoration efforts undertaken.

SECTION 6. RECONVENING THE OPEN SESSION

6.1 TIMING

The City Council may reconvene the open session after at least one hour has elapsed from the time of the disruption or as soon as service has been restored, whichever occurs first.

6.2 SERVICE RESTORED

If remote access services are restored before or at the time the meeting reconvenes, the meeting shall continue as normal.

A. Adjourn the meeting to a future date and time; or
B. Continue the meeting in open session by adopting, through a roll-call vote, the following finding or a substantially similar finding:
"The Montebello City Council has made good-faith efforts to restore telephonic or internet service in accordance with its adopted policy, and the public interest in continuing the meeting outweighs the public interest in remote public access."

Upon adoption of the finding, the City Council may continue the meeting despite the fact that remote access services have not been restored.

SECTION 7. RECORDKEEPING

The City Clerk shall enter a statement into the meeting minutes documenting:

A. The nature and time of the disruption;
B. The restoration efforts undertaken;
C. The time the meeting was reconvened, if applicable; and
D. Any findings adopted pursuant to Section 6.3.

SECTION 8. REVIEW AND AMENDMENTS

This policy may be amended by the City Council at a duly noticed public meeting conducted in accordance with the Ralph M. Brown Act.

APPROVED AND ADOPTED THIS 24TH DAY OF JUNE 2026.

MONTEBELLO POLICE DEPARTMENT

CORPORAL GUIDELINES AND ROTATION PLAN

Law Enforcement Experience

In order to test for the Corporal position Officers shall have at least three (3) consecutive years of experience as full-time sworn Police Officers in the State of California. Lateral entry Officers shall have at least two (2) years of experience with the Montebello Police Department and at least three (3) years of experience working field services or investigations (Custody, Court, Transit, Airport PD, Port PD or School PD services do not apply towards the 3-year minimum sworn officer experience). All candidates must meet requirements set forth by the Montebello Civil Service Rules and Regulations and the City Human Resources Department. Requirements must be met at the time of application deadline.

Testing Process

The Employee Human Resources Department from the City of Montebello shall administer the testing process. The Corporal test shall be administered on an as needed basis. The process shall be divided into two parts, a written and oral examination.

The Written Test

The written promotional examination shall be selected and administered by the Human Resources Department. The content shall be relative to the Corporal position.

The Oral Examination

Only those Officers who pass the written test will be allowed to proceed to the oral examination phase. The oral interview shall be conducted and scored by raters from law enforcement agencies other than Montebello.

Selection Process

The Corporal selection shall utilize the same civil services rules that apply to the ranks of Sergeant, Lieutenant and Captain. The eligibility list shall be established based on an average of the applicant's scores in both examinations. A certified eligibility list shall be provided to the Chief of Police.

Promotion

Officer's promoting to the rank of Corporal shall return to patrol and complete their Corporal probationary period before being eligible for transfer to a specialized unit. At the Chief's discretion and at the needs of the department, an Officer promoting to the rank of Corporal may remain in their current specialized assignment for up to one (1) shift deployment prior to returning to patrol.

Corporal Supervision

The Corporal Program shall be supervised and managed by the Sergeant or Lieutenant assigned that collateral duty by the Chief of Police. Direct supervision of [and] performance evaluations for each Corporal shall be the responsibility of the Corporal's immediate supervisor.

Corporal Expectations

Regardless of assignment, Corporals will be required to take on a leadership role. They will be expected to lead by example, to develop, train and motivate the other Officers they work with. Corporals will learn to be innovative problem solvers and excellent communicators. They shall understand, practice and support the organizational mission and values of the Montebello Police Department. They shall accept responsibility for a wide range of duties and strive to be advocates for both the department and the community.

Corporal Duties and Responsibilities

In addition to all general law enforcement duties and responsibilities required of a Police Officer, all Corporals shall also be required to perform the following duties delegated to them by a supervisor:

1. Field Training Officer (FTO)
2. Acting Sergeant
3. Direct and/or supervise the work of other police personnel
4. Conduct use of force investigations
5. Crime scene preservation and processing
6. Direct or facilitate in-service training for their unit or team
7. In the absence of a supervisor, take charge of incidents that require supervision
8. Organize and participate in neighborhood watch and community problem solving meetings
9. Develop, implement and direct problem solving strategies geared towards addressing crime problems and quality of life issues.

The senior Corporal on each patrol shift may assume the role of the Field Supervisor in the absence of a shift Sergeant. The senior Corporal in specialized units, General Detectives, Special Problems Unit, Traffic Bureau or any other specialized unit created by the Chief of Police should assume the role of unit supervisor in the absence of a regular supervisor.

Corporal Rating

Corporals assigned to this program shall maintain a performance rating of at least "Average." Any Corporal who receives a "Below Average" performance rating will be subject to a follow-up evaluation six months after the rating is issued. The purpose of this evaluation will be to determine whether the Corporal should retain their assignment and/or rank.

Eligibility for Selection to a Specialized Unit

Corporals requesting transfers to a specialized unit shall have successfully passed his/her probation period of six (6) months applicable, as a Corporal. Corporals/Officers shall be eligible and considered for transfer to other Bureaus or specialized units within the Department. The general commitment period for a Corporal in a specialized unit is five (5) years and Officers one (1) year. The Chief of Police may, at his/her discretion, extend the commitment one additional year depending on the needs of the Department. The Chief of Police may transfer a Corporal/Officer prior to the end of their term. The Chief of Police, on a case-by-case basis, shall examine the commitment by Corporals committed to outside agencies and task forces if the assignment extends past the Corporal's 5-year assignment.

A Corporal/Officer that is currently in a specialized unit may transfer to another specialized unit within his or her rotation period. Upon transferring to another specialized unit, the Corporal's/Officer's original rotation time continues, until the end of his or her rotation period.

Corporals holding a "Non-Rotational" position in a specialized unit who wish to transfer to another specialized unit should return to a patrol assignment for six (6) months before being eligible for another specialized unit, **"Unless the needs of the department and operation efficiency dictate otherwise as determined by command staff and the Chief of Police."**

Selection Process for Specialized Units

Corporals/Officers interested in transferring to a specialized unit shall submit an interest memorandum when the position is offered by Police Administration. Following the receipt of interest memorandums, Police Administration shall schedule oral interviews with those Corporals/Officers that qualify. The panel assigned to conduct oral interviews will consist of at least 2 specialized unit supervisors, preferably 3, to include any

Sergeant/Lieutenant within the specialized unit that is being offered. In the event a unit supervisor is unavailable for an interview, a senior Corporal may assume their role on an interview panel. The interview will be scored on a pass-or-fail rating scale, and all interview questions will be approved by Police Administration.

The supervisors of specialized units for which positions are offered should be notified of the eligibility list of Corporals/Officers who passed the oral interview panel. Police Administration should consult with the supervisors of a unit, and any direct supervisors, prior to any selection or assignment of a Corporal/Officer to a specialized unit. Police Administration shall have the final determination for personnel assigned to a specialized unit.

Transfer Positions

1. Narcotics Unit
2. General Detectives
3. Traffic Unit
4. Special Problems Unit
5. Mental Health Evaluation Team
6. K-9 Unit
7. Community Relations Unit
8. Parks Services Bureau
9. Other specialized positions as determined by the Chief of Police
10. Any other specialized position added to the table of organization

On/Off-Duty Injuries

While in a specialized unit and a Corporal/Officer is injured while on or off duty or suffers a work-related illness his/her rotation time pauses. Once the Corporal/Officer returns to full or light duty his/her rotation time resumes, however one (1) year shall be maximum extension period for the combined injury/illness (6-year maximum time in the assignment regardless of the number of injuries/illness).

The same standard shall apply to Corporals/Officers on FLSA Leave as Corporals/Officers who suffer work related injury/illness.

All extensions will be calculated on a day for day basis.

Officers/Corporals who are assigned to specialized units who are off on Military leave will return to their assignment. The rotation time within the assignment shall pause when on military leave. During that Military leave period, the Chief of Police may designate an Officer/Corporal to fill the vacant position on a temporary basis. This rule will apply for any of the listed leaves.

Interrupted Time in Assignment

If an Officer or Corporal is placed on administrative leave, the time spent away from the specialized unit or acting assignment may be tolled by the Chief of Police. The outcome of such an investigation will be the determining factor as to whether a Corporal/Officer receives an extension for time missed/away from the unit (i.e. an internal investigation yielding an outcome such as founded, unfounded, unsubstantiated, etc.).

Temporary Re-assignment

While in a specialized unit, the five (5) year rotation time will pause if any Corporal/Officer is removed from his/her position and placed in a temporary assignment outside the above listed transfer positions, such as acting Sergeant, patrol, or in a position that is necessary to fill as determined by the Office of the Chief of Police. Once the Corporal/Officer returns to their assigned position their rotation period resumes regardless of the time that they were reassigned. There would be no adjustment for the time if the assignment was merely a lateral move from one specialized unit to another specialized unit.

The Rotation Plan

The Rotation Plan will consist of Non-rotational Position(s) and Rotational Position(s).

Non-Rotational Position(s)

There will be no time limit for Non-Rotational positions. These positions will be of the rank of Corporal.

The Police Administration Staff and unit supervisors will make recommendations to the Chief of Police as to who is eligible to hold the Non-Rotational Position(s). The Chief of Police will make the selection as to who will hold the Non-Rotational Position(s).

As described in Civil Service Rule (XIII. Section 230) the Chief of Police may transfer a[n] Corporal/Officer at any time at his/her discretion.

Each team will be staffed according to the staffing levels outlined in this agreement. In the absence of a Corporal, two Officers may be assigned to the team when a Corporal position is not filled. In the event that department staffing levels or positional eligibility are not met, Police Administration Staff will make recommendations to the Chief of Police as to who will continue to hold Corporal/Officer positions in specialized units. The Chief of Police will make the selection as to who will remain in the Specialized Position(s).

Specialized Units When No Corporal Applies

If a specialized assignment cannot be staffed by a Corporal, then the Officer position may be a two (2) year position with a possible one (1) year extension, to be determined by the unit supervisor, Command staff and the Chief of Police.

Corporal Insignia

Standard Corporal stripes (2 stripes).

This Rotation Agreement will be entered into the Montebello Police Officer's Association Memoranda of Understanding.

This agreed upon Rotation Plan will supersede any previous Corporal Programs that have been used by this department. This agreement will not start the time over again for Corporals/Officers currently in specialized units. The time starts from when the Corporal/Officer was initially transferred from patrol to a specialized unit. For the purpose of rotation changes given the change to rotation years to units, this agreement gives the Chief of Police one additional deployment extension to enact this agreement. This Corporal Guidelines/Rotation Plan will be agreed upon by the Chief of Police and the Montebello Police Officers Association.

BACKGROUND/DISCUSSION:

The Montebello Police Department currently has a contract set to expire June 30, 2026, to administer and operate the City's Red Light Photo Enforcement Program at eight (8) strategically identified intersections and corresponding approaches throughout the City. The selected contractor shall furnish all labor, supervision, equipment, materials, traffic control, and safety measures necessary to successfully perform the required services. The resulting agreement will consist of an initial three (3) year term, with the option for the City to extend the agreement for up to two (2) additional one-year terms, for a maximum total contract duration of five (5) years.

Request for Proposals No. 26-16 (Attachment A) outlines the scope of work, which includes, but is not limited to, the installation, maintenance, repair, and replacement of red-light camera systems; coordination with City personnel; implementation of traffic control measures; site restoration and disposal of materials; and preparation of all required project documentation. The contractor selected through the competitive RFP process will be required to provide high-quality equipment and services and comply with all applicable prevailing wage laws and regulations.

The proposed schedule for the RFP process is as follows:

ITEM # 12

CITY OF MONTEBELLO
CITY COUNCIL AGENDA STAFF REPORT

TO: Honorable Mayor and City Council Members

FROM: Raul Alvarez, City Manager

BY: Luis Lopez, Police Chief

SUBJECT: **AUTHORIZE ISSUING REQUEST FOR PROPOSALS (RFP) NO. 26-08 FOR CROSSING GUARD SERVICES**

DATE: June 24, 2026

RECOMMENDATIONS:

It is recommended that the City Council:

1. Authorize issuing Request for Proposals (RFP) No. 26-08 for crossing guard services: and
2. Take such additional, related action that may be desirable.

FISCAL IMPACT:

The agreement resulting from this Request for Proposals (RFP) will be funded through the Police Department's Traffic Contract Services, Account No. 100-80-810-6040.10 (General Fund, Police, Traffic, Other Contract Services) for Fiscal Year 2026–2027. The adopted FY 2026-27 budget includes appropriations for crossing guard services. Therefore, a budget amendment is not needed as part of the recommended actions. It should be noted that Montebello Unified School District (MUSD) reimburses the City for ten percent (10%) of the actual expenses related to the services provided.

BACKGROUND/DISCUSSION:

The Montebello Police Department currently has an agreement to provide crossing guard services that will expire on June 30, 2026, to administer and operate crossing guard services at five (5) locations for three (3) hours a day, for one hundred and eighty days a year (180). The purpose of the program is to enhance pedestrian safety, assist students and residents in safely crossing designated intersections, and support the orderly flow of vehicular and pedestrian traffic during peak school travel hours.

The selected contractor will be responsible for furnishing all necessary labor, supervision, training, uniforms, safety equipment, and administrative support required to provide reliable and effective crossing guard services. Duties will include directing pedestrian crossings, promoting safe traffic practices, maintaining a visible and professional presence at assigned locations, and coordinating with City staff and school officials as necessary to address operational or safety concerns.

Request for Proposals No. 26-08 (Attachment A) outlines the full scope of work and contractor responsibilities, including personnel scheduling and supervision, compliance with applicable traffic safety standards, background screening and training requirements for crossing guards, incident reporting procedures, and ongoing coordination with the City. The contractor selected through the competitive RFP process will be expected to provide highly qualified personnel, maintain consistent service levels, and comply with all applicable federal, state, and local laws and regulations.

The proposed schedule for the RFP process is as follows:

ITEM # 13

CITY OF MONTEBELLO
CITY COUNCIL AGENDA STAFF REPORT

TO: Honorable Mayor and City Council Members

FROM: Raul Alvarez, City Manager

BY: Cesar Roldan, Director of Public Works

SUBJECT: **APPROVE PURCHASE OF ONE (1) ELECTRIC VEHICLE AND ONE (1) HYBRID VEHICLE FOR THE PUBLIC WORKS DEPARTMENT UTILIZING ENERGY EFFICIENCY AND CONSERVATION BLOCK GRANT (EECBG) AND SOUTH COAST AIR QUALITY MANAGEMENT DISTRICT (AQMD) FUNDING**

DATE: June 24, 2026

RECOMMENDATIONS:

It is recommended that the City Council:

1. Approve the purchase of one (1) Ford E-Transit Cargo Van and one (1) Ford F-150 Hybrid for the Public Works Department utilizing Energy Efficiency and Conservation Block Grant (EECBG) and South Coast Air Quality Management District (AQMD) funds; and
2. Approve the purchase of one (1) Ford E-Transit Cargo Van through State of California Statewide Contract #1-22-23-20 with National Auto Fleet Group as allowed by Montebello Municipal Code Chapter 3.20.050(F) – Cooperative Purchases; and
3. Approve the purchase of one (1) Ford F-150 Hybrid through Sourcewell Contract #081325-NAF with National Auto Fleet Group as allowed by Montebello Municipal Code Chapter 3.20.050(F) – Cooperative Purchases; and
4. Authorize the City Manager to execute all necessary documents related to the purchase of the vehicles; and
5. Take such additional, related action that may be desirable.

FISCAL IMPACT:

The total cost for the purchase of one (1) Ford E-Transit Cargo Van and one (1) Ford F-150 Hybrid is $130,247. The expense for these vehicle purchases will be funded through two funding sources: Energy Efficiency and Conservation Block Grant (EECBG) funds

(265-30-332-6082 – Grants - Public Works - EECBG - Vehicle Purchase) in the amount of $121,520 and South Coast Air Quality Management District (AQMD) funds (245-99-6082 – AQMD - Non Departmental - Vehicle Purchase) in the amount of $8,727. Funds have been appropriated in each of these accounts as part of the Fiscal Year 2026-27 adopted budget. Therefore, no budget amendment is required.

The EECBG Program, administered by the U.S. Department of Energy, provides funding to local governments for projects that reduce energy consumption, improve energy efficiency, and decrease fossil fuel emissions. Eligible activities include the acquisition of alternative fuel and energy-efficient vehicles that support municipal operations while advancing sustainability goals. The proposed purchase of the Ford E-Transit Cargo Van and Ford F-150 Hybrid directly aligns with the EECBG Program objectives by replacing conventional fleet vehicles with more energy-efficient and lower-emission alternatives.

Additionally, AQMD AB2766 Subvention Funds may be utilized to support projects that reduce motor vehicle emissions and improve regional air quality. AQMD funding will supplement the EECBG grant funding to fully cover the cost of the vehicle acquisitions.

In accordance with the City's Municipal Code Section 3.20.050(F), the procurement of these vehicles will remade under the Cooperative Purchase exception. The Ford E-Transit Cargo Van will be purchased through State of California Statewide Contract #1-22-23-20 with National Auto Fleet Group, while the Ford F-150 Hybrid will be purchased through Sourcewell Contract #081325-NAF with National Auto Fleet Group. Both contracts were competitively solicited and awarded through cooperative purchasing programs that provide pricing and terms available to participating public agencies. The Montebello Municipal Code Section 3.20.050(F) reads:

> *"Cooperative Purchase – Purchases for goods and/or services that are identical or nearly identical in scope to the goods and/or services listed in any valid, current and competitively bid cooperative governmental purchase program. Pricing shall be the same or better than the pricing contained in the cooperative purchase agreement. For the purpose of this Section, the term 'cooperative governmental purchase program' means any combination between the city and any other public agency or public agencies for the joint purchase of goods and/or services."*

Utilizing these cooperative purchasing agreements allows the City to obtain competitively priced vehicles while expediting the procurement process and ensuring compliance with applicable purchasing requirements.

BACKGROUND/DISCUSSION:

The Public Works Department is responsible for maintaining City-owned facilities, infrastructure, streets, and related public assets. To effectively carry out these responsibilities, staff require reliable vehicles equipped to safely transport tools, equipment, and materials to various work locations throughout the City.

The Ford E-Transit Cargo Van will be assigned to the Building Maintenance Division's

Plumber. The division regularly utilizes specialized tools and equipment that must be securely stored while staff perform work at City facilities. Existing vehicle limitations have created concerns regarding tool security and vulnerability to theft. The E-Transit Cargo Van will provide improved storage capacity and enhanced security features that will help safeguard City-owned tools and equipment, reduce the likelihood of theft, and improve operational efficiency. Additionally, the use of a fully electric vehicle supports the City's efforts to reduce fleet emissions and transition toward cleaner transportation technologies.

The Ford F-150 Hybrid will be assigned to the Public Works Streets Division. The division is currently experiencing a significant disparity between the number of field staff and the number of available vehicle units. As a result, employees are often required to share vehicles in order to complete daily assignments, limiting the department's ability to efficiently respond to service requests, maintenance needs, and street improvement projects throughout the City.

The acquisition of the Ford F-150 Hybrid represents an important first step toward addressing this vehicle shortage. By increasing vehicle availability, staff will be able to perform work assignments more independently and efficiently, allowing the division to address a greater number of street-related issues and maintenance activities. The hybrid vehicle will also provide the utility and hauling capabilities necessary to support a variety of street maintenance operations while contributing to reduced fuel consumption and lower emissions.

Staff have reviewed the eligibility requirements of both the EECBG Program and AQMD funding sources and confirmed that the proposed vehicle purchases are consistent with the objectives and allowable uses of each program. The acquisition of these vehicles will improve operational effectiveness, enhance employee productivity, support asset protection, and further the City's commitment to sustainability and responsible fleet management.

SUMMARY:

Due to the availability of EECBG and AQMD grant funding, staff are seeking City Council approval to purchase one (1) Ford E-Transit Cargo Van and one (1) Ford F-150 Hybrid for the Public Works Department. The E-Transit Cargo Van will provide the Building Maintenance Division with a secure and reliable vehicle for transporting and safeguarding tools and equipment, while the Ford F-150 Hybrid will help address vehicle shortages within the Streets Division and improve the department's ability to respond to maintenance and street improvement needs.

The proposed purchases will be completed through competitively awarded cooperative purchasing agreements with National Auto Fleet Group, allowing the City to efficiently procure the vehicles while obtaining favorable pricing and maintaining compliance with the City's purchasing requirements utilizing Municipal Code Section 3.20.050(F). The FY 2026-27 adopted budget includes appropriations in both the EECBG and AQMD accounts; Therefore, no budget amendment is needed as part of the recommended actions.

The proposed purchases support the City's operational requirements and align with federal and regional funding objectives aimed at improving energy efficiency, reducing greenhouse gas emissions, and modernizing municipal fleets through the use of cleaner vehicle technologies.

11	Provide a brief history of your company, including your company's core values, business philosophy, and industry longevity related to the requested Solutions.	National Auto Fleet Group was founded in 2010 as a new division of 72 Hour LLC, born from a single dealership in Southern California with a bold vision for streamlined fleet solutions. Since then, we've expanded our reach to include a growing network of dealerships both within and beyond California, allowing us to serve public agencies and government entities with greater efficiency and scale. From day one, our company has embraced a people-first mindset by hiring from within, investing in long-term careers, and building a culture rooted in loyalty and growth. Many of our original Fleet Managers are still with us today, a reflection of our commitment to strong internal leadership and lasting relationships. As the automotive landscape has evolved, so have we by adapting to emerging technologies, sustainability trends, and industry innovations. And yet, our core values remain unchanged: integrity, service, and a deep responsibility to the members we serve. We live by our promise to deliver the RIGHT vehicle, at the RIGHT time, to the RIGHT place, at the RIGHT price. Proudly family-owned and operated, National Auto Fleet Group carries forward generations of automotive experience with a forward-looking approach. With future generations already preparing to carry the torch, we remain focused on delivering unmatched value and service for decades to come.	*
12	What are your company's expectations in the event of an award?	If awarded, this would mark our sixth Sourcewell contract, which is an achievement we're incredibly proud of. We're fully prepared to execute with the same precision, care, and commitment that has defined our previous partnerships with Sourcewell. Our expectations are simple: to continue delivering exceptional customer service, to raise the bar on satisfaction, and to deepen our value to your members. We plan to leverage this award to launch new growth strategies and expand the reach of our offerings to even more agencies across the country. As part of that growth, we're excited to introduce our Partner Program, detailed in the "Marketing Plan for NAFG 081325" attachment. This next-generation tool empowers members to choose preferred upfitters, creating a seamless quoting and service experience through National Auto Fleet Group. We believe there's immense value in building these flexible, member-driven partnerships and we're committed to providing turnkey solutions that are not just efficient, but genuinely satisfying from start to finish.	*

This line can be extended as needed to meet the evolving demands of Sourcewell members. In addition, we've provided letters of commitment from several of our nationally recognized upfitting partners, including The Knapheide Manufacturing Company, as well as regional leaders such as Phenix Truck Body in Southern California. These suppliers serve as trusted partners, offering localized support to help us fulfill orders efficiently and with precision. Lastly, we've attached supporting documentation to show the consistent growth we've achieved since receiving our first Sourcewell contract in 2012. We hope these materials clearly demonstrate our long-term commitment to financial integrity, operational excellence, and building trusted relationships with both our partner upfitters and the members we serve.	*

Our direct sales force includes both in-house employees and partner dealership staff, totaling over 300 full-time and part-time individuals. These professionals are strategically located across the U.S., enabling us to support members nationwide. We also leverage strong relationships with larger-class dealerships to fulfill lower-class vehicle needs creating a versatile, cross-functional sales team that serves both our dealership network and the NAFG Fleet Division. Our indirect sales force includes more than 100 personnel from our upfitter and supplier partner network, and that number continues to grow each year. This collaborative network supports quoting, fulfillment, and customer service, ensuring our members receive turnkey solutions that are seamless from start to finish. Together, our direct and indirect teams have enabled NAFG to successfully grow, scale, and serve the evolving needs of Sourcewell members. As membership expands, we are fully committed to continuing that growth by bringing on additional staff to meet rising demand and, more importantly, exceed expectations.	*

27	Describe the network of Authorized Sellers who will deliver Solutions, including dealers, distributors, resellers, and other distribution methods.	Our network of Authorized Sellers spans both the United States, supported by a strong franchise system built through our 17 proposed OEMs. Each of these manufacturers has established extensive dealer networks across North America, with factory-authorized stores strategically located to ensure all members have access to local service, support, and warranty coverage. This built-in infrastructure enables us to deliver Solutions efficiently and reliably no matter where a member is located within the US. With certified dealerships in all 50 U.S. states, we are equipped to provide responsive delivery, servicing, and warranty fulfillment with consistency and scale. NAFG feel's the North American automotive supply chain, particularly for the OEMs we represent, is one of the strongest and most reliable in the world. 28	Service force.	The 17 OEMs we represent offer access to thousands of authorized service centers and warranty repair facilities across the United States. This expansive service network ensures that Sourcewell members have convenient, reliable support no matter where they are located with service centers in every state. All OEM service locations are fully equipped to handle maintenance and warranty needs for their respective brands, providing timely and expert service that supports the full lifecycle of the vehicles we deliver. While service accessibility is generally comprehensive across the continental U.S., members in Alaska and Hawaii may experience greater distances between franchise locations, which could impact travel time to the nearest authorized service center. Even in those cases, we work closely with our OEM partners to coordinate support and minimize disruption.	*

Depending on the needs of the member, vehicles are either routed to an upfitting partner or shipped directly to the desired end-user location. Throughout the process, our team remains the primary point of contact—managing communication, timelines, and logistics between the member, the manufacturer, and any third-party service providers. This ensures a streamlined, transparent, and responsive ordering experience from start to finish.	*

Members can generate quotes online through a secure dashboard, customize builds, request upfitting, and view transparent pricing including MSRP, contract discounts, and total savings all within a few clicks. After submitting an order, members receive a Courtesy Confirmation to double-check specifications, colors, quantities, upfits, and title information. We also provide members with a “Track Your Order” feature, allowing real-time status updates using their PO number, Quote ID, VIN, or Upfit Quote ID similar to tracking a UPS package. This visibility helps members feel in control and supported every step of the way. Everything we do is focused on making the buying process easier, more transparent, and more member-driven.	*

Members also benefit from real-time tracking through our website, and our Customer Service Team is available to assist with logistics, titling, and documentation whether delivery is local	*
33	Describe your ability and willingness to provide your products and services to Sourcewell participating entities.	We are fully committed to serving all Sourcewell participating entities. In fact, Sourcewell members are the core of our business making up over 90% of our government sales activity over the past three years. We provide a full scale Solution designed specifically with Sourcewell members in mind. From simplified online quoting to customized upfitting and transparent pricing. Whether it’s a school district ordering a fleet of vans or a public works department in need of a specialty upfit, we treat every request with urgency, accuracy, and care. Our willingness to support members isn’t just operational, it’s cultural. Our entire team are all aligned around one mission: to make it as easy as possible for Sourcewell members to get what they need, when they need it.	*
34	Describe your ability and willingness to provide your products and services to Sourcewell participating entities in Canada.	NAFG are both willing and eager to extend our products and services to Sourcewell members in Canada. Expanding into the Canadian market is a natural next step for our organization, and we believe strongly in building success through partnerships with established, local Canadian dealer groups. Our proven business model, competitive pricing, and seamless digital tools provide a strong foundation for growth. Additionally, our straightforward approach to U.S. Dollar to Canadian Dollar conversion ensures transparency and simplicity for Sourcewell members across borders. We’re excited about the opportunity to support Canadian members with the same commitment to service, reliability, and value that we’ve delivered in the U.S. for over a decade.	*
35	Identify any geographic areas of the United States or Canada that you will NOT be fully serving through the proposed agreement.	National Auto Fleet Group will fully support 100% of geographic areas within the United States under the proposed agreement. We will continue to serve all Sourcewell members through our 24/7 online portal, offering around-the-clock access to quotes, order tracking, and support. While we anticipate some logistical challanges in Canada, we are committed to expanding our infrastructure and dealer partnerships to offer equally robust service and customer care to Canadian members. One important note: while we do serve nonprofit organizations, these entities may not qualify for the same discounted pricing available to government agencies. Nonprofits are subject to a separate pricing program, and each request will be reviewed on a case-by-case basis to determine eligibility and ensure fair, appropriate solutions.	*

36	Define any specific requirements or restrictions that would apply to our participating entities in Hawaii and Alaska and in US Territories.	The only potential contract requirements or restrictions for participating entities in Hawaii, Alaska, and U.S. Territories are related to logistics and shipping constraints. Due to geographic distance and limited access to certain shipping ports, there may be additional freight, handling, and port fees associated with vehicle delivery to these regions. For example, vehicles destined for Alaska or Hawaii, particularly those that include upfits, are often coordinated through mainland processing before being shipped to the final destination. In these cases, members are informed in advance and may elect to include the additional shipping and port costs directly into their quote, ensuring full transparency and cost accuracy from the start. Despite these logistical considerations, National Auto Fleet Group is fully equipped and experienced in fulfilling orders for members in these areas, and we will continue to do so with the same level of attention, care, and service as we provide in the continental U.S.	*
37	Describe in detail your history and experience selling vehicles to state and local government agencies, public and private K-12 and higher education, and non-profits.	National Auto Fleet Group (NAFG) has over two generations of expertise in selling vehicles to state and local government agencies, public and private K-12 and higher education institutions, and non-profit organizations across the United States. As a minority family-owned business, we have built a strong reputation for our ability to navigate the complexities involved in government fleet vehicle purchasing. We specialize in offering hassle-free, reliable, and cost-effective solutions through our Sourcewell contracs since Sourcewell has done the bidding already on behalf of the members. Sourcewell contracts empower public agencies to bypass the tedious and time-consuming bidding process, allowing them to focus their efforts on other projects while we handle the procurement. NAFG holds two highly awarded Sourcewell contracts, which streamline vehicle purchases by providing a range of options—from light-duty vehicles like cars, vans, and SUVs to heavy-duty trucks, buses, and specialized vehicles for public entities. Through our partnerships with manufacturers and upfitters, we cater to the specific needs of government entities, school districts, and non-profits, ensuring the vehicles are ready for immediate in-service needs along with all necessary upfitting if needed. Our experience spans from working with small rural schools requiring a single van, to large cities replacing fleets of hunderds of utility trucks. No matter the scale or complexity, we are committed to offering the highest level of customer service and delivering vehicles that meet our clients' needs, budgets, and timelines. By leveraging the efficiency of Sourcewell's competitive contracts, we help our customers save both time and money, making vehicle purchasing seamless and efficient.	*
38	Will Proposer extend terms of any awarded master agreement to nonprofit entities?	Yes, National Auto Fleet Group (NAFG) will extend the terms of any awarded master agreement to nonprofit entities, provided the vehicles and the entities meet the applicable qualifications. We understand the importance of supporting nonprofit organizations, and we are committed to offering the same competitive pricing, efficient service, and high-quality vehicles that we provide to our government and educational agency customers.	*

Table 4: Marketing Plan (100 Points)

Line Item	Question	Response *	
39	Describe your marketing strategy for promoting this opportunity. Upload representative samples of your marketing materials (if applicable) in the document upload section of your response.	National Auto Fleet Group (NAFG) uses a comprehensive, multi-tiered marketing strategy to promote the Sourcewell contract and streamline the vehicle purchasing process for government and education entities. Our marketing strategy combines digital, in-person, and relationship-based outreach to maximize exposure, drive engagement, and support long-term growth. Website and Inbound Marketing: Our professional, customer-focused website serves as a key marketing gateway. Members can browse in-stock vehicles, explore pricing, register for access, build vehicles, and request quotes. We create inbound opportunities through tailored content such as how-to videos, member success stories, and social media posts, directing potential members to our website and empowering them to make informed purchasing decisions. Email Marketing: Email remains one of our most effective outreach tools, given its high usage among public agency staff. We use visually rich, mobile-friendly email campaigns that include flyers with Sourcewell contract details, manufacturer incentives, seasonal promotions, first-time buyer offers, and factory cutoff reminders. These emails feature embedded videos, images, and direct links to the Sourcewell homepage and NAFG quoting tools. Our platform also allows us to track performance metrics such as open rates, click-throughs, and unsubscribes to continuously refine our messaging.	

In-Person Marketing and Trade Shows:
We attend major industry trade shows, including GFX, IAPPO, NIGP, ACT, CAPPO, and CASBO to establish direct connections with members and vendors. These face-to-face meetings foster trust and long-term relationships. We also deliver in-person presentations to local cities, counties, school districts, water districts, and port authorities to explain how the NAFG–Sourcewell process works, how to buy without bidding, and the vehicle options available.

Customer Advocacy (Word-of-Mouth Marketing):
NAFG's reputation for exceptional service drives organic growth through member referrals. Our commitment to white-glove support from quote to post-delivery often results in repeat customers and unsolicited endorsements. We've built our brand through consistent follow-through, fast solutions, and personalized care—even years after a vehicle has been delivered.

Cross-Promotion Marketing with Sourcewell Vendors:
We actively collaborate with fellow Sourcewell vendors such as NCL Government Capital to offer joint marketing materials and turnkey financing options. For example, we've co-developed videos, infographics, and flyers showcasing how to lease or purchase vehicles through multiple Sourcewell contracts. We also cross-market with Hoglund Bus Company, highlighting how members can pair NAFG chassis with various Hoglund bus bodies. *

Preferred Vendor Program – NAFG Partner Page:
To increase our national network and visibility, we launched www.nafgpartner.com, a dedicated site encouraging body upfitters to join as preferred vendors. Partners receive benefits such as website and social media endorsements, referral opportunities, and PR support. To qualify, vendors agree to co-promote NAFG and refer their clients in need of chassis. This helps members easily locate qualified body upfitters in their area, while deepening vendor collaboration and contract awareness.

Customer Relationship Marketing:
Our sales team takes a relationship-first approach by focusing on solution-based selling and long-term support, not just transactions. We pride ourselves on building trust and delivering value, which translates to loyal clients and strong word-of-mouth.

Examples of Impactful Relationship Marketing:

A member used three Sourcewell contracts (NAFG, NCL Gov Capital, GovDeals) to finance, purchase, and dispose of a vehicle in a single seamless transaction.

A member urgently needed a vehicle due to an accident. We redirected them to our in-stock inventory and fulfilled the order within three weeks versus the standard 18-week factory lead time.

A liftgate malfunction two years after delivery was resolved at no cost thanks to our relationship with the original upfitter, ensuring continued satisfaction.

For a member uncertain about budget, we provided multi-OEM pricing through Ram, Chevrolet, and Ford—allowing them to choose without needing to shop around.

We expedited upfitting for a vehicle held up at a local body company by personally coordinating with the vendor, leading to early delivery.

This multi-pronged strategy ensures that National Auto Fleet Group not only promotes the Sourcewell contract widely but delivers measurable value to members across every stage of the vehicle procurement lifecycle.

40	Describe your use of technology and digital data (e.g., social media, metadata usage) to enhance marketing effectiveness.	National Auto Fleet Group (NAFG) utilizes a robust mix of technology, social media, and digital tools to drive marketing performance, boost engagement, and increase sales conversions. Social Media Marketing – LinkedIn Focus: LinkedIn serves as our primary digital channel to connect with public agencies and build our professional network. We use LinkedIn to: Share engaging content such as contract flyers, vehicle promotions, and program updates. Monitor member activity and job changes to identify opportunities to re-engage or offer tailored solutions. Send personalized messages to new members thanking them for registering, with direct links to our website and social platforms. This strategic outreach not only strengthens our relationships with current members but also helps us reach new decision-makers who can benefit from our vehicle procurement solutions. Video Marketing Strategy: To further enhance digital reach and content quality, our in-house marketing team creates and distributes professional-grade videos through both email and social media. These include: Welcome Video: A 90-second animated introduction to NAFG and our Sourcewell contract, featured in every weekly campaign. Walkthrough Videos: Guided, step-by-step explainers on how to purchase both Light-Duty and Heavy-Duty vehicles through the contract. In-Stock Vehicles Video: A visual showcase of available inventory with a call-to-action on how to request a quote. ETA Tracking Video: A video tutorial that empowers customers to track their own vehicle's status. Holiday-Themed Videos: Lighthearted, festive content that humanizes our brand and drives seasonal engagement. Social Media Shorts: Bite-sized videos tailored for LinkedIn and other platforms to promote new vehicles, highlight factory cutoff dates, and announce pricing changes. Include details, such as whether training is standard or optional, who provides training, and any costs that apply.	National Auto Fleet Group extends all product, equipment, maintenance, and operator training programs made available by the OEMs directly to Sourcewell members during the quoting process. When such training is offered, NAFG can include it in the member's quote and handles it similarly to an upfit by ensuring it is documented, transparent, and customized to the member's needs. These training programs may cover areas such as vehicle operation, safety, and maintenance procedures. Any associated costs are clearly outlined and passed through without markup, so members can make fully informed decisions.	*

44	Describe any technological advances that your proposed Solutions offer. This ensures that our customers receive peace of mind with comprehensive coverage for their fleet, minimizing potential repair costs over the long term.	*

61	Describe any standard transaction documents that you propose to use in connection with an awarded agreement (order forms, terms and conditions, service level agreements, etc.). These documents reflect our commitment to clear communication and consistent standards, while also allowing room for customization based on the specific needs of each participating entity	*
62	Do you accept the P-card procurement and payment process? If so, is there any additional cost to Sourcewell participating entities for using this process?	Yes, National Auto Fleet Group accepts P-card payments from Sourcewell membes. We accept P-card transactions up to $2,500 per vehicle with no additional fee. For transactions exceeding $2,500, a credit card processing fee will apply, which will be transparently itemized and passed on to the member. This policy allows us to support convenient procurement while maintaining cost transparency and flexibility for all participating entities.	*
63	Describe your pricing model (e.g., line-item discounts or product-category discounts). Provide detailed pricing data (including standard or list pricing and the Sourcewell discounted price) on all of the items that you want Sourcewell to consider as part of your RFP response. If applicable, provide a SKU for each item in your proposal. Upload your pricing materials (if applicable) in the document upload section of your response.	National Auto Fleet Group utilizes a line-item discount model based on Manufacturer Suggested Retail Pricing (MSRP). We are offering Sourcewell participating entities competitive discounts across 17 OEM brands, as detailed in the Price File. In addition to vehicle pricing, NAFG provides the option to customize vehicles with upfits based on the member’s needs. All upfit-related pricing is also included and clearly itemized in the Price Summary Page within the Price File. Each line includes the standard MSRP, the Sourcewell discounted price, and all applicable OEM available options. Where available, SKUs and product identifiers are listed to support clarity and consistency.	*

64	Quantify the pricing discount represented by the pricing proposal in this response. For example, if the pricing in your response represents a percentage discount from MSRP or list, state the percentage or percentage range.	National Auto Fleet Group's pricing proposal includes line-item discounts off MSRP across 17 OEM brands. Including all factory options. The percentage discounts vary by manufacturer and vehicle model, and are fully detailed in the uploaded "Price File" ZIP under each respective tab. Below is a summary of the estimated discount ranges offered by brand: Ford Motor Company from -0.42% to 3.63% Chevrolet from 0.24% to 10.02% Ram Stellantis Company from 3.44% to 9.99% Dodge Stellantis Company from 4.05% to 6.93% Jeep Stellantis Company from -.073% to 6.82% Chrysler Stellantis Company from .49% to 1.81% Buick from 0.91% to 0.97% Honda from -1.48 to 3.4% Toyota from 0.07% to 5.22% Nissan from 0.73% to 17% Kia from -1.25% to 2.48% GMC from 1.28% to 5.19% Volkswagen from 1.74% to 3.08% Lincoln from .077% to 3.12% BMW from 0.32% to 2.9% Cadillac from 2.11% to 2.2% Mullen/Bollinger at 2% While a few models reflect slight negative variances due to MSRP or market fluctuations, the majority of offerings show meaningful cost savings. Full details, including price summary, models and discount breakdowns are included in the "Price File" for Sourcewell's review. Upfits can be added at dealer invoice up to 20% detailed in the price file	*
65	Describe any quantity or volume discounts or rebate programs that you offer.	National Auto Fleet Group encourages members considering large-volume purchases (typically 50 units or more) to reach out directly for customized pricing and additional volume-based discounts. While standard discounts are reflected in our price file, we recognize that high-volume opportunities often warrant special consideration. In such cases, we work closely with both OEMs and upfit partners to secure the most competitive pricing available, ensuring maximum value for Sourcewell members. Depending on the uniqueness of the large order and model, some extra costs not associated with a single purchase may be added, these are provided in the Price File. Each high-volume order is evaluated individually to provide tailored, transparent, and advantageous pricing.	*
66	Propose a method of facilitating "sourced" products or related services, which may be referred to as "open market" items or "non-contracted items". For example, you may supply such items "at cost" or "at cost plus a percentage," or you may supply a quote for each such request.	"Open market" items or "sourced goods" that fall outside of standard configurations will be facilitated and treated as upfit components within the quoting process. National Auto Fleet Group will obtain quotes for these items on a case-by-case basis and include them as part of the final vehicle quote. In most cases, such items will be provided at cost, though a markup of up to 20% may apply depending on the complexity of the item or service and any associated handling or integration requirements. This approach ensures transparency while maintaining flexibility for Sourcewell members who require specialized, nonstandard solutions.	*

67	Identify any element of the total cost of acquisition that is NOT included in the pricing submitted with your response. This includes all additional charges associated with a purchase that are not directly identified as freight or shipping charges. For example, list costs for items like pre-delivery inspection, installation, set up, mandatory training, or initial inspection. Identify any parties that impose such costs and their relationship to the Proposer.	All standard costs associated with the total acquisition for a standard vehicle purchase including factory options, upfits, and administrative fees which have been accounted are within the Price Summary Page and Price table included in the submitted price file. If a Sourcewell member requests a specialized or nonstandard solution that involves additional services such as installation, training, or setup, those costs will be clearly quoted as part of the upfit and incorporated into the final vehicle quote. These services may be fulfilled either by OEM-authorized providers or trusted third-party upfitters in our partner network, depending on the nature of the request.	*
68	If freight, delivery, or shipping is an additional cost to the Sourcewell participating entity, describe in detail the complete freight, shipping, and delivery program.	All manufacturers include a standard Factory Destination Charge as part of the vehicle's MSRP. In addition to this, members may incur separate freight or delivery costs if a vehicle requires additional transport. For example, to or from an upfitter or final delivery location. These secondary freight charges vary depending on distance, delivery type, and location, and will be clearly itemized in the member's quote for full visibility and approval before purchase. National Auto Fleet Group ensures that all such charges are communicated upfront and incorporated seamlessly into the overall pricing.	*
69	Specifically describe freight, shipping, and delivery terms or programs available for Alaska, Hawaii, Canada, or any offshore delivery.	Shipping to Alaska, Hawaii, Canada, and U.S. Territories may involve additional logistical expenses, including but not limited to ferry charges, port handling fees, and extended driver delivery costs. These region-specific costs are carefully calculated based on the delivery route and vehicle type. All such charges will be disclosed on the member's quote for review and approval prior to finalizing the purchase. National Auto Fleet Group is experienced in managing deliveries to these regions and ensures all logistics are handled efficiently, transparently, and in compliance with regional requirements.	*
70	Describe any unique distribution and/or delivery methods or options offered in your proposal.	National Auto Fleet Group operates within a highly developed, nationwide franchise dealer distribution network, supported by relationships with 17 major OEMs. This network enables us to deliver vehicles quickly and efficiently to members and their end users across the country. In addition, for vehicles requiring upfits or multi-stage delivery, NAFG coordinates logistics directly with upfitters and transport providers, ensuring a turnkey experience from quote to delivery. Our digital order tracking system also allows members to monitor each step in the delivery process, enhancing communication and transparency throughout.	*
71	Specifically describe any self-audit process or program that you plan to employ to verify compliance with your proposed agreement with Sourcewell. This process includes ensuring that Sourcewell participating entities obtain the proper pricing.	National Auto Fleet Group employs a robust self-audit process to ensure full compliance with our Sourcewell agreement, including verification that participating entities receive accurate, contract-based pricing. Sourcewell members can generate quotes directly through our user-friendly online platform, which is updated daily to reflect the most current manufacturer MSRP data. This ensures that pricing remains accurate and aligned with the most recent OEM updates. Our system is designed to deliver 99.99% pricing accuracy, and every quote reflects both the Sourcewell contract discount and any applicable administrative fees. In addition to this front-end visibility, our internal processes include regular pricing audits, cross-checks, and validation against contract terms. We also maintain a streamlined reporting system that allows us to deliver accurate quarterly sales and administrative reports to Sourcewell within a 15-30 day turnaround window, helping ensure transparency and ongoing contract compliance.	*

72	If you are awarded an agreement, provide a few examples of internal metrics that will be tracked to measure whether you are having success with the agreement.	One of the key internal metrics National Auto Fleet Group uses to track and measure success under the Sourcewell contract is maintained through our online platform, which logs all member-generated quotes in real time. We carefully monitor how many quotes are created, which are converted into purchase orders, and how frequently members engage with the system. This gives us immediate insight into usage trends, quote-to-order conversion rates, and which vehicle types or configurations are seeing the most interest. Each month, we evaluate these indicators and closely monitor sales volume, frequency, and geographic distribution. We also track whether orders come from new or returning members, allowing us to measure how well we're growing the Sourcewell member base and maintaining long-term relationships. In addition to these core metrics, we review: 1. Average order size and upfit complexity 2. Delivery timelines and fulfillment rates 3. Quote accuracy and pricing consistency 4. Regional sales performance and market penetration This data informs both our strategic decision-making and our day-to-day service operations. Ultimately, we use these metrics to ensure we're not only meeting contractual obligations, but exceeding expectations by delivering consistent value, responsive service, and a positive experience for every Sourcewell member.	*
73	Provide a proposed Administration Fee payable to Sourcewell. The Fee is in consideration for the support and services provided by Sourcewell. The propose an Administrative Fee will be payable to Sourcewell on all completed transactions to Participating Entities utilizing this Agreement. The Administrative Fee will be calculated as a stated percentage, or flat fee as may be applicable, of all completed transactions utilizing this Master Agreement within the preceding Reporting Period defined in the agreement.	National Auto Fleet Group proposes the following Administrative Fee structure payable to Sourcewell for all completed transactions under this Master Agreement: $300 per vehicle purchased directly through NAFG $200 per vehicle purchased through our approved partner dealer, Alan Jay Automotive At this time, no other partner dealer groups are included in the scope of this agreement for administrative fee purposes. This fee will be submitted on all completed transactions during each applicable reporting period, in accordance with the terms outlined in the Master Agreement.	*

ITEM # 14

CITY OF MONTEBELLO
CITY COUNCIL AGENDA STAFF REPORT

TO: Honorable Mayor and City Council Members

FROM: Raul Alvarez, City Manager

BY: Cesar Roldan, Director of Public Works

SUBJECT: **ADOPT SAFE, CLEAN WATER PROGRAM REPORTING POLICY AND PROCEDURES AS A CONDITION TO RECEIVE MEASURE W FUNDING**

DATE: June 24, 2026

RECOMMENDATIONS:

It is recommended that the City Council:

1. Adopt the Safe, Clean Water Program reporting policy and procedures as a condition to receive Measure W funding; and
2. Take such additional, related action that may be desirable.

FISCAL IMPACT:

This policy (Attachment A) is being established in response to the audit findings identified in the County's April 2, 2026, notice regarding late reporting submissions and reporting discrepancies associated with Fiscal Years 2021-22 and 2022-23 (Attachment B). As part of the corrective actions identified through the audit process, the City is required to implement formal Policies and Procedures to ensure timely and accurate reporting in order to maintain compliance and continued eligibility for Measure W funding.

Measure W is a countywide measure approved by a majority of voters in the November 2018 election. Measure W is funded by a parcel tax of 2.5 cents per square foot of impermeable areas (like concrete driveways and sidewalks) within the County. The funds from the parcel tax are used to support an integrated and holistic approach to stormwater management. The City has received an average of $891,000 annually over the last four fiscal years in Measure W funding. The revenue is used for a variety of stormwater management projects.

There is no fiscal impact associated with the adoption of the Safe, Clean Water Program Measure W Reporting Policies and Procedures (Attachment A). Adoption of the policy will meet the corrective action plan requirements from Los Angeles County (Attachment

B) and will ensure the City continues receiving this revenue.

BACKGROUND/DISCUSSION:

On August 28, 2024, the City Council authorized the City Manager to execute the Los Angeles County Safe, Clean Water Program (Measure W) Transfer Agreement with the County of Los Angeles. The Municipal Program is intended to provide local jurisdictions with funding to address stormwater management, urban runoff reduction, water quality improvements, and related environmental initiatives that benefit the community.

As part of the Transfer Agreement requirements and continued eligibility to receive Measure W funding, the City is required to submit an Annual Plan by April 1st and an Annual Report by December 31st. Following recent audit findings associated with reporting timelines and reporting accuracy for Fiscal Years 2021-22 and 2022-23, the County identified the implementation of formal Policies and Procedures as a corrective action measure to strengthen internal controls and ensure timely and accurate reporting compliance moving forward.

The Measure W program is audited by the City's external auditors (The Pun Group, "TPG"). Public Works has collaborated with the Finance Department and TPG to develop the attached reporting policy (Number XI-B-2) (Attachment A). TPG has reviewed the policy and has indicated that it should address the audit findings and satisfy the corrective action plan requirements of Los Angeles County. The policy outlines the Department/Staff responsible for various tasks, as well as internal deadlines that will help ensure the required Measure W plans and reports are completed and filed timely.

SUMMARY:

Staff recommend City Council adopt the Safe, Clean Water Program Reporting Policy (Number XI-B-2) (Attachment A) to maintain compliance with Measure W Program requirements and ensure the City’s continued eligibility to receive Measure W funding.

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and the Members of City Council
of the City of Montebello
Montebello, California

Report on the Audit of the Financial Statements

Opinion

We have audited the Statements of the Revenues, Expenditures, and Changes in Fund Balances of the Measure W Special Revenue Fund (the "Fund") of the City of Montebello, California (the "City") for the years ended June 30, 2023, 2022 and 2021, and the related notes to the financial statements (the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the changes in the Fund's financial position for the years ended June 30, 2023, 2022, and 2021, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS") and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*"Government Auditing Standards"*). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Emphasis of Matter

As discussed in Note 1, the financial statements present only the Fund and do not purport to, and do not, present fairly the financial position of the City as of June 30, 2023, 2022 and 2021, the changes in its financial position, or, where applicable, its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that is free from material misstatement, whether due to fraud or error.

Auditors' Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated April 30, 2024, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scop of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Independent Auditors' Report

To the Honorable Mayor and the Members of the City Council
of the City of Montebello
Montebello, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*"Government Auditing Standards"*), the Statements of Revenues, Expenditures, and Changes in Fund Balances of the Measure W Special Revenue Fund (the "Fund") of the City of Montebello, California (the "City") for the years ended June 30, 2023, 2022 and 2021, and the related notes (the "financial statements"), and have issued our report thereon dated April 30, 2024.

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over the Measure W Special Revenue Fund's financial reporting ("internal control") as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statement, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatement on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified certain deficiencies in internal control, described in the accompanying Schedule of Findings and Responses as item 2023-001 that we consider to be significant deficiencies.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Fund's financial statements is free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying Schedule of Finding and Response as item 2023-001.

The City's Response to the Findings

Government Auditing Standards requires the auditor to perform limited procedures on the City's response to the findings identified in our audit and described in the accompanying Schedule of Finding and Response. The City's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Measure W Special Revenue Fund
of the City of Montebello
Notes to the Statement of Revenues, Expenditures, and Change in Fund Balance
For the Years Ended June 30, 2023, 2022 and 2021

Note 1 – Summary of Significant Accounting Policies

Reporting Entity

Measure W Special Revenue Fund (the "Fund") of the City of Montebello, California (the "City") is used to account for the special parcel tax of 2.5 cents per square foot of impermeable surface area on private property in the Los Angeles County Flood Control District (the "District") that Los Angeles County (the "County") voters approved in November 2018 to pay for projects, infrastructure, and program to capture, treat, and recycle rainwater.

The Fund's financial statements and related accounting policies conform with generally accepted accounting principles applicable to governments in the United States of America. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The financial statements present only the Fund and do not purport to, and do not present, the City's financial position and changes in financial position. The City's basic financial statements are available from the Finance Department at City's address and website.

Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Fund is a governmental fund type. Governmental funds are accounted for using a "*current financial resources*" measurement focus. The application of this measurement focus provides that the operating statements of these funds present revenues, expenditures, and change in fund balances.

The modified accrual basis of accounting is used for the Fund. Under the modified accrual basis of accounting, revenues are recognized when they become susceptible to accrual (i.e., both measurable and available). Measurable means that the amount of the transaction can be determined. Available means the funds are collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures of governmental funds are generally recognized when the related fund liability is incurred.

Note 2 – Measure W Safe Clean Water's Municipal Program

Under the Measure W Safe Clean Water's Municipal Program (the "Municipal Program"), 40% of the tax revenue is allocated to cities as local return with maximum flexibility. The Municipal Program is designed to maximize the ability of local governments to address local Stormwater and Urban Runoff challenges and opportunities. The City used the East LA Sustainable Median Stormwater Capture Project, Citywide Catch Basin Connector Pipe Screen Installation Project, National Pollutant Discharge Elimination System Permit Services, LA County Flood Control District for the Installation and Maintenance of Catch Basin Trash Inserts, and overhead to administer the program. The City incurred expenditures in the amounts of $700,000, $869,375 and $817,172 during the years ended June 30, 2023, 2022 and 2021, respectively.

In addition, the Municipal Program allows municipality to use Municipal Program funds to pay for cost and expenses incurred on or after November 6, 2018, related to the continuation of programs implemented or the maintenance of projects implemented prior to November 6, 2018. The City reported no expenditures as of July 1, 2020 meeting this requirement.

Subsequent Annual Spending Plan	Annual	June 30, 2023	April 1, 2022	July 3, 2023
Annual Progress/Expenditure Report	Annual	June 30, 2022	December 31, 2022	July 3, 2023

We also noted the City reported $0 expenditures in the Annual Progress/Expenditure Report the year ended June 30, 2023 while the expenditures incurred was in the amount of $817,172.

Cause:

There are inadequate monitoring controls to ensure the reports are filed timely and correctly. Furthermore, the City has experienced staff turnover during the fiscal year 2022 causing the delay of the submission of the 2022 and 2023 subsequent annual spending plan and 2022 annual progress/expenditure report.

Effect or Potential Effect:

Without timely and correctly submitting the required annual reports, the City is not in compliance with the SCW Program requirements and the LA County could withhold funding from the City.

Recommendation:

We recommend the City develop policies and procedures to ensure timely submission of the annual spending plans and the reports and the accuracy of the reports.

Finding 2023-001 Measure W Reporting (Continued)

View of Responsible Officials:

Management agrees with the recommendation that internal policies and procedures should be developed to ensure timely and accurate reporting related to Measure W. The City has hired a permanent Public Works Director, and the Sr. Management Analyst in Public Works has assumed responsibility for ensuring timely submittal of the spending plans. In addition, communication between Public Works and Finance related to Measure W reporting has improved. Management anticipates future timely and accurate report submission with the improvements in place.

ITEM # 15

CITY OF MONTEBELLO
CITY COUNCIL AGENDA STAFF REPORT

TO: Honorable Mayor and City Council Members

FROM: Raul Alvarez, City Manager

BY: Cesar Roldan, Director of Public Works

SUBJECT: **APPROVE AGREEMENT NOS. 4530, 4531 AND 4532 WITH AVANT GARDE CORPORATION, DCCM INFRASTRUCTURE INC., AND CUMMING CONSTRUCTION MANAGEMENT, INC. FOR LABOR COMPLIANCE AND PROGRAM ADMINISTRATION SUPPORT SERVICES**

DATE: June 24, 2026

RECOMMENDATIONS:

It is recommended that the City Council:

1. Authorize the City Manager to execute Professional Service Agreement No. 4530 (Attachment A) with Avant Garde Corp. for labor compliance and program administration support services for the not-to-exceed annual amount of one hundred and fifty thousand ($150,000); and
2. Authorize the City Manager to execute Professional Service Agreement No. 4531 (Attachment B) with DCCM Infrastructure, Inc. for labor compliance and program administration support services for the not-to-exceed annual amount of one hundred thousand ($100,000); and
3. Authorize the City Manager to execute Professional Service Agreement No. 4532 (Attachment C) with Cumming Construction Management Inc. for labor compliance and program administration support services for the not-to-exceed annual amount of seventy-five thousand ($75,000); and
4. Take such additional, related action that may be desirable.

FISCAL IMPACT:

City Council authorized staff to solicit proposals for on-call Labor Compliance and Program Administration Support services (Request for Qualifications No. 26-03) in compliance with Federal, State and County regulations at the regularly scheduled April

8, 2026, City Council meeting. The services performed by the three (3) firms listed in the recommended actions will be paid for from a combination of project specific funds, typically funded through approved Capital Improvement Program (CIP) budgets. Staff will minimize and mitigate the use of General Fund appropriations and other special interest funds reserved and designated for other operational purposes.

The Fiscal Year 2026-27 proposed budget includes funding in the CIP for various projects and for various services required to complete each infrastructure project. Therefore, the recommended actions do not require a budget amendment.

Execution of a professional services agreement (PSA) is not an indication that the firms will receive compensation. It is the intent of the staff to spread the work amongst the firms and award specific projects to firms that are most suited to completing the specific type of project, while providing the City with the most flexible options to move forward with a project.

The PSAs (Attachments A, B and C) are for a period of three years (ending on June 30, 2029) and will include two optional one-year terms. The PSAs allow the City flexibility by augmenting or reducing contract staff as required without interrupting services to residents, businesses, or developers while continuing to meet service goals.

BACKGROUND/DISCUSSION:

The City manages numerous capital projects (CPs), maintenance programs, and grant-funded initiatives that require strict compliance with state and federal regulations. Recent project delivery trends and funding sources (including SB 1, Metro Local Return funding, federal infrastructure grants, and local bond programs) have significantly increased administrative and reporting obligations. Labor compliance and program administration requirements—such as prevailing wage monitoring, certified payroll verification, grant reporting, project tracking, and audit preparation—are increasingly specialized functions.

State and federal laws require the City to ensure contractors and subcontractors comply with labor standards, including:

- Prevailing wage requirements (California Labor Code and Department of Industrial Regulations)
- Certified payroll submission and verification
- Apprenticeship compliance
- Contractor and subcontractor license verification
- Field interviews and labor compliance audits
- Enforcement of non-compliance and documentation for potential penalties

On-call labor compliance firms provide specialized expertise, tools, and resources that enable ongoing compliance across multiple concurrent projects without increasing permanent staffing levels.

On April 8, 2026, the City Council authorized staff to advertise a Request for Qualifications (RFQual No. 26-03). On-call professional services agreements for specific disciplines will maximize expertise and experience and allow staff to mobilize the firms based on pre-negotiated, competitive procurement terms and conditions. This philosophy allows the congruence of City staff and consultants to find solutions in an effective and efficient manner.

The Public Works Department utilizes municipal engineering contracts to provide public works and engineering support on an as-needed basis. The City needs technical expertise in several disciplines to advance the objectives and policies of the City Council.
.
RFQual No. 26-03 was published on April 9, 2026, in a newspaper of general circulation. Professional firms accessed the documents via PlanetBids. Proposals were electronically submitted via PlanetBids on May 6, 2026. The following table includes the eleven professional companies that submitted their respective qualifications proposals:

	Labor Compliance and Program Administration Support Services
1	Advanced Avant Garde Corporation
2	Construction Service Workers LLC
3	Cumming Construction Management Inc.
4	DCCM Infrastructure, Inc.
5	GCAP Services, Inc.
6	Labor Compliance Pros, LLC
7	MVN & Associates, LLC
8	Own Ur Time LLC.
9	Renew Urban
10	TSG Enterprises, Inc.
11	Witt O'Brien's

City staff reviewed the companies' qualifications based on their expertise and experience of the firm, its key personnel and the ability and competence of the firm to perform the work; familiarity with required Federal, State, and local standards and procedures; and capacity and quality of staff to provide resources necessary to develop and manage multiple work assignments. Based on the analysis, staff's recommendation is to award professional services agreements (Attachments A, B and C) to Avant Garde Corporation, DCCM Infrastructure Inc., and Cumming Construction Management, Inc. The remaining proposals are available in the City Clerk's Office for review.

Approval of an on-call professional services agreement for labor compliance and program administration support services involves no physical construction and does not authorize any activity that could result in a direct or reasonably foreseeable physical change in the environment. Therefore, the action is not a project under CEQA (PRC § 21065; CEQA Guidelines § 15378(b)(2), (5)).

The evidence of insurance shall be U.S. mail or email to:

City of Montebello
Attn: Principal Risk Officer
1600 West Beverly Boulevard
Montebello, CA 90640
Email: COI@montebelloca.gov

g. Coverage shall not be suspended, voided, cancelled, reduced in coverage or in limits, non-renewed, or materially changed for any reason, without thirty (30) days prior written notice thereof given by the insurer to the CITY by U.S. mail, or by personal delivery, except for nonpayment of premiums, in which case ten (10) days

m. Any deductibles or self-insured retentions must be declared to and approved by the CITY. At the option of the CITY, the CONSULTANT shall either reduce or eliminate the deductibles or self-insured retentions with respect to the CITY, or the CONSULTANT shall procure a bond guaranteeing payment of losses and expenses.

n. Procurement of insurance by the CONSULTANT shall not be construed as a limitation of the CONSULTANT'S liability or as full performance of CONSULTANT's duties to indemnify, hold harmless and defend under the indemnity covenants of this Agreement.

SECTION 16. SUBCONTRACT, ASSIGNMENT OR DELEGATION.

The CONSULTANT shall not subcontract, delegate, or assign its duties or rights hereunder, either in whole or in part, without the prior written consent of the CITY. Any proposed subcontract, delegation, or assignment shall provide a description of the services to be covered, identification of the proposed sub-consultant, delegee, or assignee, and an explanation of why and how the same was selected, including the degree of competition involved.

No such subcontract, delegation or assignment shall result in any increase in the amount of total compensation payable to the CONSULTANT under the Agreement.

SECTION 17. NO WAIVER.

Waiver by any party hereto of any term, condition or covenant of this Agreement shall not constitute the waiver of any other term, condition, or covenant hereof.

SECTION 18. DISPUTE RESOLUTION; GOVERNING LAW.

Disputes regarding the interpretation or application of any provision(s) of this Agreement shall, to the extent reasonably feasible, be resolved through good faith negotiations between the Parties. In executing this Agreement, it has carefully read this Agreement, knows the contents thereof, and has relied solely on the statements expressly set forth herein and has placed no reliance whatsoever on any statement, representation, or promise of any other party, or any other person or entity, not expressly set forth herein, nor upon the failure of any other party or any other person or entity to make any statement, representation or disclosure of any matter whatsoever; and

c. It is agreed that each party has the full right and authority to enter into this Agreement, and that the person executing this Agreement on behalf of either party has the full right and authority to fully commit and bind such party to the provisions of this Agreement.

e. This Agreement may be signed in any one or more counterparts all of which taken together shall be but one and the same Agreement. Any signed copy of this Agreement or of any other document or agreement referred to herein, or copy or counterpart thereof, delivered by facsimile transmission, shall for all purposes be treated as if it were delivered containing an original manual signature of the party whose signature appears in the facsimile and shall be binding upon such party in the same manner as though an originally signed copy had been delivered.

f. Each of the parties acknowledges that it has been represented by independent counsel of its own choosing, or if it has not been so represented, it has been admonished to obtain independent counsel and has freely and voluntarily waived and relinquished the right to counsel. Each party who has not obtained independent counsel acknowledges that the failure to have independent legal counsel will not excuse such party's failure to perform under this Agreement or any agreement referred to in this Agreement.

SECTION 22. NOTICE.

1. Introduction

The City of Montebello (hereinafter referred to as the "City") is pleased to present this Request for Qualifications ("RFQual") soliciting Statement(s) of Qualifications ("SOQ") from general vendors/consultant/contractors (hereinafter referred to as "Consultant"), seeking to submit proposals for Labor Compliance & Program Administration Support Services ("Services"). Based on the SOQ responses, the City will compile a short-list of qualified Consultants ("Short-List of Respondents"). The City intends to issue on-call bench list contracts to the consultants selected based on the quality of the proposals received.

SOQs are due on Wednesday, May 6, 2026 at 11:00 am PST through the City's PlanetBids portal ("Portal"). Before submitting SOQs, Consultants must register as a "vendor" in the Portal. Consultants are encouraged to register well ahead of the deadline to avoid any technical difficulties that may arise. All responses to this opportunity must conform to the requirements of this RFQual. Failure to do so may result in the response being considered non-responsive.

The Public Works Department is seeking RFQual to solicit SOQs and Hourly Rates (Billing Rates) from qualified consulting firms to provide labor compliance support and program administration support services on various projects and programs. Qualified proposers will provide labor compliance services to monitor both Federal and State prevailing wage rates and other labor compliance related services on projects funded, though not limited to: Federal Highway Administration, State of California Department of Transportation, Southern California Council of Governments, Los Angeles County Metropolitan Transportation Authority and other applicable governmental funding agencies. The City of Montebello has adopted Agreement No. 4202 - Los Angeles, Orange Counties Building and Construction Trades Council. All projects over $500,000 require the awarded contractor to comply with the Project Labor Agreement. Proposers shall also aid the City in the implementation, oversight, coordination, and reporting of Federal and State funded projects. The selected consultant(s) will work in collaboration with City staff to provide administrative, technical, and programmatic support to ensure effective program implementation, requirement compliance, and timely reporting. The City intends to establish a bench of up to three (3) consultants to provide Labor Compliance & Program Administration Support Services on an on-call, as-needed basis. As projects are issued, the City may issue task orders, requests for service/proposal, or assign projects to one or more of the selected consultants based on the scope and requirements of the specific assignment.

The process for selecting the on-call bench list is described in **Appendix B –** (**Evaluation Criteria)**, attached hereto and incorporated herein by this reference.

The City reserves the right to refrain from issuing on-call bench list contract based on SOQ received. The City also reserves the right to re-issue the RFQual seeking additional SOQ based on its sole and independent judgment.

All qualifications submitted to the City shall become the exclusive property of the City. Once City staff has identified the on-call bench list of consultants, all qualifications shall become a matter of public record subject to disclosure, except for those elements of each qualification that are identified by the Consultant as business or trade secrets and marked as "Trade Secret", "Confidential", or "Proprietary" and determined by the City to be exempt from disclosure under the Public Records Act (Cal. Gov. Code § 6250 *et seq*.) .

Each element of qualifications submittal that the Consultant desires not to be considered a public record must be marked as set forth above. If disclosure is required under the California Public Records Act or other applicable law, the City will make an independent determination and retain the confidentiality to the extent permitted.

Upon termination, LOCAL AGENCY shall be entitled to all work, including but not limited to, reports, investigations, appraisals, inventories, studies, analyses, drawings and data estimates performed to that date, whether completed or not.

B. The CONSULTANT also agrees to comply with Federal procedures in accordance with 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

C. Any costs for which payment has been made to the CONSULTANT that are determined by subsequent audit to be unallowable under 48 CFR 31 or 2 CFR 200 are subject to repayment by the CONSULTANT to LOCAL AGENCY.

D. When a CONSULTANT or Subconsultant is a Non-Profit Organization or an Institution of Higher Education, the Cost Principles for Title 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards shall apply.

ARTICLE VIII RETENTION OF RECORD/AUDITS

For the purpose of determining compliance with Gov. Code § 8546.7, the CONSULTANT, Subconsultants, and LOCAL AGENCY shall maintain all books, documents, papers, accounting records, Independent CPA Audited Indirect Cost Rate workpapers, and other evidence pertaining to the performance of the AGREEMENT including, but not limited to, the costs of administering the AGREEMENT. All parties, including the CONSULTANT's Independent CPA, shall make such workpapers and materials available at their respective offices at all reasonable times during the AGREEMENT period and for three (3) years from the date of final payment under the AGREEMENT and records for real property and equipment acquired with federal funds must be retained for three (3) years after final disposition. LOCAL AGENCY, Caltrans Auditor, FHWA, or any duly authorized representative of the Federal government having jurisdiction under Federal laws or regulations (including the basis of Federal funding in whole or in part) shall have access to any books, records, and documents of the CONSULTANT, Subconsultants, and the CONSULTANT's Independent CPA, that are pertinent to the AGREEMENT for audits, examinations, workpaper review, excerpts, and transactions, and copies thereof shall be furnished if requested without limitation.

ARTICLE IX AUDIT REVIEW PROCEDURES

A. Any dispute concerning a question of fact arising under an interim or post audit of this AGREEMENT that is not disposed of by AGREEMENT, shall be reviewed by LOCAL AGENCY'S Chief Financial Officer.

B. Not later than thirty (30) calendar days after issuance of the final audit report, CONSULTANT may request a review by LOCAL AGENCY'S Chief Financial Officer of unresolved audit issues. The request for review will be submitted in writing.

C. Neither the pendency of a dispute nor its consideration by LOCAL AGENCY will excuse CONSULTANT from full and timely performance, in accordance with the terms of this AGREEMENT.

D. CONSULTANT and subconsultant AGREEMENTs, including cost proposals and Indirect Cost Rates (ICR), may be subject to audits or reviews such as, but not limited to, an AGREEMENT audit, an incurred cost audit, an ICR Audit, or a CPA ICR audit work paper review. If selected for audit or review, the AGREEMENT, cost proposal and ICR and related work papers, if applicable, will be reviewed to verify compliance with 48 CFR 31 and other related laws and regulations. In the instances of a CPA ICR audit work paper review it is CONSULTANT's responsibility to ensure federal, LOCAL AGENCY, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. The AGREEMENT, cost proposal, and ICR shall be adjusted by CONSULTANT and approved by LOCAL AGENCY Contract Administrator to conform to the audit or review recommendations. CONSULTANT agrees that individual terms of costs identified in the audit report shall be incorporated into the AGREEMENT by this reference if directed by LOCAL AGENCY at its sole discretion. Refusal by CONSULTANT to incorporate audit or review recommendations, or to ensure that the federal, LOCAL AGENCY or local governments have access to CPA work papers, will be considered a breach of AGREEMENT terms and cause for termination of the AGREEMENT and disallowance of prior reimbursed costs.

E. CONSULTANT's Cost Proposal may be subject to a CPA ICR Audit Work Paper Review and/or audit by the Independent Office of Audits and Investigations (IOAI). IOAI, at its sole discretion, may review and/or audit and approve the CPA ICR documentation. The Cost Proposal shall be adjusted by the CONSULTANT and approved by the LOCAL AGENCY Contract Administrator to conform to the Work Paper Review recommendations included in the management letter or audit recommendations included in the audit report. Refusal by the CONSULTANT to incorporate the Work Paper Review recommendations included in the management letter or audit recommendations included in the audit report will be considered a breach of the AGREEMENT terms and cause for termination of the AGREEMENT and disallowance of prior reimbursed costs.

   1. During IOAI's review of the ICR audit work papers created by the CONSULTANT's independent CPA, IOAI will work with the CPA and/or CONSULTANT toward a resolution of issues that arise during the review. Each party agrees to use its best efforts to resolve any audit disputes in a timely manner. If IOAI identifies significant issues during the review and is unable to issue a cognizant approval letter, LOCAL AGENCY will reimburse the CONSULTANT at an accepted ICR until a FAR (Federal Acquisition Regulation) compliant ICR (e.g. 48 CFR Part 31; GAGAS (Generally Accepted Auditing Standards); CAS (Cost Accounting Standards), if applicable; in accordance with procedures and guidelines of the American Association of State Highways and Transportation Officials (AASHTO) Audit Guide; and other applicable procedures and guidelines) is received and approved by IOAI.

Accepted rates will be as follows:

a. If the proposed rate is less than one hundred fifty percent (150%) - the accepted rate reimbursed will be ninety percent (90%) of the proposed rate.

b. If the proposed rate is between one hundred fifty percent (150%) and two hundred percent (200%) - the accepted rate will be eighty-five percent (85%) of the proposed rate.

c. If the proposed rate is greater than two hundred percent (200%) - the accepted rate will be seventy-five percent (75%) of the proposed rate.

2. If IOAI is unable to issue a cognizant letter per paragraph E.1. above, IOAI may require CONSULTANT to submit a revised independent CPA-audited ICR and audit report within three (3) months of the effective date of the management letter. IOAI will then have up to six (6) months to review the CONSULTANT's and/or the independent CPA's revisions.

3. If the CONSULTANT fails to comply with the provisions of this paragraph E, or if IOAI is still unable to issue a cognizant approval letter after the revised independent CPA audited ICR is submitted, overhead cost reimbursement will be limited to the accepted ICR that was established upon initial rejection of the ICR and set forth in paragraph E.1. above for all rendered services. In this event, this accepted ICR will become the actual and final ICR for reimbursement purposes under this AGREEMENT.

4. CONSULTANT may submit to LOCAL AGENCY final invoice only when all of the following items have occurred: (1) IOAI accepts or adjusts the original or revised independent CPA audited ICR; (2) all work under this AGREEMENT has been completed to the satisfaction of LOCAL AGENCY; and, (3) IOAI has issued its final ICR review letter. The CONSULTANT MUST SUBMIT ITS FINAL INVOICE TO LOCAL AGENCY no later than sixty (60) calendar days after occurrence of the last of these items. The accepted ICR will apply to this AGREEMENT and all other agreements executed between LOCAL AGENCY and the CONSULTANT, either as a prime or subconsultant, with the same fiscal period ICR.

ARTICLE X SUBCONTRACTING

A. Nothing contained in this AGREEMENT or otherwise, shall create any contractual relation between the LOCAL AGENCY and any Subconsultants, and no subagreement shall relieve the CONSULTANT of its responsibilities and obligations hereunder. The CONSULTANT agrees to be as fully responsible to the LOCAL AGENCY for the acts and omissions of its Subconsultants and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the CONSULTANT. The CONSULTANT's obligation to pay its Subconsultants is an independent obligation from the LOCAL AGENCY's obligation to make payments to the CONSULTANT.

B. The CONSULTANT shall perform the work contemplated with resources available within its own organization and no portion of the work shall be subcontracted without written authorization by the LOCAL AGENCY Contract Administrator, except that which is expressly identified in the CONSULTANT's approved Cost Proposal.

In the event that there is a good faith dispute over all or any portion of the amount due on a progress payment from CONSULTANT or subconsultant to a subconsultant, CONSULTANT or subconsultant may withhold no more than 150 percent of the disputed amount. Any violation of this requirement shall constitute a cause for disciplinary action and shall subject the licensee to a penalty, payable to the subconsultant, of 2 percent of the amount due per month for every month that payment is not made.

In any action for the collection of funds wrongfully withheld, the prevailing party shall be entitled to his or her attorney's fees and costs. The sanctions authorized under this requirement shall be separate from, and in addition to, all other remedies, either civil, administrative, or criminal. ~~This clause applies to both DBE and non-DBE subconsultants.~~

CONSULTANT must submit Exhibit 9-P to the LOCAL AGENCY administering the contract by the 15th of the month following the month of any payment(s). If the CONSULTANT does not make any payments to subconsultants, supplier(s), and/or manufacturers they must report "no payments were made to subs this month" and write this visibly and legibly on Exhibit 9-P.

The LOCAL AGENCY must verify all Exhibit 9-P information, monitor compliance with prompt payment requirements for DBE and non-DBE firms, and address any shortfalls to the DBE commitment and prompt payment issues until the end of the project. The LOCAL AGENCY must email a copy of Exhibit 9-P to DBE.Forms@dot.ca.gov before the end of the month after receiving the Exhibit 9-P from the CONSULTANT.

F. Prompt Payment of Withheld Funds to Subconsultants

Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions, and other remedies specified in Section 3321 of the California Civil Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies, otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT, deficient subconsultant performance and/or noncompliance by a subconsultant. This clause applies to both DBE and non-DBE subconsultants.

Method 2: No retainage will be held by the LOCAL AGENCY from progress payments due to CONSULTANT. Any retainage kept by CONSULTANT or by a subconsultant must be paid in full to the earning subconsultant within 15 days after the subconsultant's work is satisfactorily completed. This clause applies to both DBE and non-DBE subconsultants.

Method 3: The LOCAL AGENCY shall hold retainage from CONSULTANT and shall make prompt and regular incremental acceptances of portions, as determined by the LOCAL AGENCY of the contract work and pay retainage to CONSULTANT based on these acceptances. CONSULTANT or subconsultant shall return all monies withheld in retention from all subconsultants within 15 days after receiving payment for work satisfactorily completed and accepted including incremental acceptances of portions of the contract work by the LOCAL AGENCY. Any delay or postponement of payment may take place only for good cause and with the LOCAL AGENCY's prior written approval. Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions, and other remedies specified in Section 3321 of the California Civil Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT; deficient subconsultant performance and/or noncompliance by a subconsultant. This clause applies to both DBE and non-DBE subconsultants.

Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions and other remedies specified therein. These requirements shall not be construed to limit or impair any contractual, administrative, or judicial remedies otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT, deficient subcontract performance, or noncompliance by a subconsultant.

equipment and credit LOCAL AGENCY in an amount equal to its fair market value, or sell such equipment at the best price obtainable at a public or private sale, in accordance with established LOCAL AGENCY procedures; and credit LOCAL AGENCY in an amount equal to the sales price. If CONSULTANT elects to keep the equipment, fair market value shall be determined at CONSULTANT's expense, on the basis of a competent independent appraisal of such equipment. Appraisals shall be obtained from an appraiser mutually agreeable to by LOCAL AGENCY and CONSULTANT, if it is determined to sell the equipment, the terms and conditions of such sale must be approved in advance by LOCAL AGENCY.

2. Regulation 2 CFR 200 requires a credit to Federal funds when participating equipment with a fair market value greater than five thousand dollars ($5,000) is credited to the project.

violation of the requirements of the Labor Code and in particular, Labor Code §§1770 to 1780, inclusive.

2. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of mistake, inadvertence, or neglect of the CONSULTANT or Subconsultant in failing to pay the correct rate of prevailing wages, or the previous record of the CONSULTANT or Subconsultant in meeting their respective prevailing wage obligations, or the willful failure by the CONSULTANT or Subconsultant to pay the correct rates of prevailing wages. A mistake, inadvertence, or neglect in failing to pay the correct rates of prevailing wages is not excusable if the CONSULTANT or Subconsultant had knowledge of the obligations under the Labor Code. The CONSULTANT is responsible for paying the appropriate rate, including any escalations that take place during the term of the AGREEMENT.

In addition to the penalty and pursuant to Labor Code §1775, the difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the CONSULTANT or Subconsultant.

4. If a worker employed by a Subconsultant on a public works project is not paid the general prevailing per diem wages by the Subconsultant, the CONSULTANT of the project is not liable for the penalties described above unless the CONSULTANT had knowledge of that failure of the Subconsultant to pay the specified prevailing rate of wages to those workers or unless the CONSULTANT fails to comply with all of the following requirements:

    a. The AGREEMENT executed between the CONSULTANT and the Subconsultant for the performance of work on public works projects shall include a copy of the requirements in Labor Code §§ 1771, 1775, 1776, 1777.5, 1813, and 1815.

    c. Upon becoming aware of the Subconsultant's failure to pay the specified prevailing rate of wages to the Subconsultant's workers, the CONSULTANT shall diligently take corrective action to halt or rectify the failure, including but not limited to, retaining sufficient funds due the Subconsultant for work performed on the public works project.

    d. 5. Pursuant to Labor Code §1775, LOCAL AGENCY shall notify the CONSULTANT on a public works project within fifteen (15) calendar days of receipt of a complaint that a Subconsultant has failed to pay workers the general prevailing rate of per diem wages.

6. If LOCAL AGENCY determines that employees of a Subconsultant were not paid the general prevailing rate of per diem wages and if LOCAL AGENCY did not retain sufficient money under the AGREEMENT to pay those employees the balance of wages owed under the general prevailing rate of per diem wages, the CONSULTANT shall withhold an amount of moneys due the Subconsultant sufficient to pay those employees the general prevailing rate of per diem wages if requested by LOCAL AGENCY.

G. Hours of Labor

The CONSULTANT shall forfeit, as a penalty to the LOCAL AGENCY, twenty-five dollars ($25) for each worker employed in the execution of the AGREEMENT by the CONSULTANT or any of its Subconsultants for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one calendar day and forty (40) hours in any one calendar week in violation of the provisions of the Labor Code, and in particular §§1810 to 1815 thereof, inclusive, except that work performed by employees in excess of eight (8) hours per day, and forty (40) hours during any one week, shall be permitted upon compensation for all hours worked in excess of eight (8) hours per day and forty (40) hours in any week, at not less than one and one-half (1.5) times the basic rate of pay, as provided in §1815.

ARTICLE XIV REBATES, KICKBACKS OR OTHER UNLAWFUL CONSIDERATION

The CONSULTANT warrants that this AGREEMENT was not obtained or secured through rebates, kickbacks or other unlawful consideration either promised or paid to any LOCAL AGENCY employee. For breach or violation of this warranty, LOCAL AGENCY shall have the right, in its discretion, to terminate this AGREEMENT without liability, to pay only for the value of the work actually performed, or to deduct from this AGREEMENT price or otherwise recover the full amount of such rebate, kickback or other unlawful consideration.

ARTICLE XV PROHIBITION OF EXPENDING LOCAL AGENCY, STATE, OR FEDERAL FUNDS FOR LOBBYING

[*Include this article in all AGREEMENTs where federal funding will exceed ~~$150,000~~ $100,000. If less than ~~$150,000~~ $100,000 in federal funds will be expended on the AGREEMENT, delete this article and re-number the subsequent articles.*]

A. The CONSULTANT certifies, to the best of his or her knowledge and belief, that:

   1. No State, Federal, or LOCAL AGENCY appropriated funds have been paid or will be paid, by or on behalf of the CONSULTANT, to any person for influencing or attempting to influence an officer or employee of any local, State, or Federal agency, a Member of the State Legislature or United States Congress, an officer or employee of the Legislature or Congress, or any employee of a Member of the Legislature or Congress in connection with the awarding or making of this AGREEMENT, or with the extension, continuation, renewal, amendment, or modification of this AGREEMENT.

Any person who fails to file the required certification shall be subject to a civil penalty of not less than ten thousand dollars ($10,000) and not more than one hundred thousand dollars ($100,000) for each such failure.

C. The CONSULTANT also agrees by signing this document that he or she shall require that the language of this certification be included in all lower tier subagreements, which exceed one hundred thousand dollars ($100,000), and that all such subrecipients shall certify and disclose accordingly.

ARTICLE XVI NON-DISCRIMINATION CLAUSE AND STATEMENT OF COMPLIANCE

A. The CONSULTANT's signature affixed herein and dated shall constitute a certification under penalty of perjury under the laws of the State of California that the CONSULTANT has, unless exempt, complied with the nondiscrimination program requirements of Gov. Code §12990 and 2 CCR §11102.

CONSULTANT, subrecipient or subconsultant will never exclude any person from participation in, deny any person the benefits of, or otherwise discriminate against anyone in connection with the award and performance of any contract covered by 49 CFR 26 on the basis of race, color, sex, or national origin. ~~In administering the LOCAL AGENCY components of the DBE Program Plan, CONSULTANT, subrecipient or subconsultant will not, directly, or through contractual or other arrangements, use criteria or methods of administration that have the effect of defeating or substantially impairing accomplishment of the objectives of the DBE Program Plan with respect to individuals of a particular race, color, sex, or national origin.~~

ARTICLE XVII DEBARMENT AND SUSPENSION CERTIFICATION

A. The CONSULTANT's signature affixed herein shall constitute a certification under penalty of perjury under the laws of the State of California, that the CONSULTANT or any person associated therewith in the capacity of owner, partner, director, officer or manager:

Disclosures must indicate the party to whom the exceptions apply, the initiating agency, and the dates of agency action.

C. Exceptions to the Federal Government excluded parties (https://sam.gov/content/home) maintained by the U.S. General Services Administration are to be determined by FHWA.

ARTICLE XVIII DISADVANTAGED BUSINESS ENTERPRISES (DBE) ~~PARTICIPATION~~

A. CONSULTANT, ~~subrecipient (LOCAL AGENCY),~~ or subconsultant, shall take necessary and reasonable steps to ensure that DBEs have opportunities to participate in the contract (49 CFR 26). ~~To ensure equal participation of DBEs provided in 49 CFR 26.5, the LOCAL AGENCY shows a contract goal for DBEs. CONSULTANT shall make work available to DBEs and select work parts consistent with available DBE subconsultants and suppliers.~~

~~CONSULTANT shall meet the DBE goal shown elsewhere in these special provisions or demonstrate that they made adequate Good Faith Efforts (GFE) to meet this goal. It is CONSULTANT's responsibility to verify at date of proposal opening that the DBE firm is certified as a DBE by using the California Unified Certification Program (CUCP) database and possesses the most specific available North American Industry Classification System (NAICS) codes and work code applicable to the type of work the firm will perform on the contract. Additionally, the CONSULTANT is responsible to document the verification record by printing out the CUCP data for each DBE firm. A list of DBEs certified by the CUCP can be found at: https://caltrans.dbesystem.com/.~~

~~All DBE participation will count toward the California Department of Transportation's federally mandated statewide overall DBE goal. Credit for materials or supplies CONSULTANT purchases from DBEs counts towards the goal in the following manner:~~

- ~~100 percent counts if the materials or supplies are obtained from a DBE manufacturer.~~
- ~~60 percent counts if the materials or supplies are purchased from a DBE regular dealer.~~
- ~~Only fees, commissions, and charges for assistance in the procurement and delivery of materials or supplies count if obtained from a DBE that is neither a manufacturer nor regular dealer. 49 CFR 26.55 defines "manufacturer" and "regular dealer."~~

~~This AGREEMENT is subject to 49 CFR 26 entitled "Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs". CONSULTANTs who enter into a federally-funded agreement will assist the LOCAL AGENCY in a good faith effort to achieve California's statewide overall DBE goal.~~

~~B. The goal for DBE participation for this AGREEMENT is _____%. Participation by DBE CONSULTANT or subconsultants shall be in accordance with information contained in Exhibit 10-O2: Consultant Contract DBE Commitment attached hereto and incorporated as part of the AGREEMENT. If a DBE subconsultant is unable to perform, CONSULTANT must make a good faith effort to replace him/her with another DBE subconsultant, if the goal is not otherwise met.~~

~~C. CONSULTANT can meet the DBE participation goal by either documenting commitments to DBEs to meet the AGREEMENT goal, or by documenting adequate good faith efforts to meet the AGREEMENT goal. An adequate good faith effort means that the CONSULTANT must show that it took all necessary and reasonable steps to achieve a DBE goal that, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to meet the DBE goal. If CONSULTANT has not met the DBE goal, complete and submit Exhibit 15-H: Proposer/Contractor Good Faith Efforts to document efforts to meet the goal. Refer to 49 CFR 26 for guidance regarding evaluation of good faith efforts to meet the DBE goal.~~

~~D. Contract Assurance~~

In accordance with 49 CFR 26.13(b):

CONSULTANT, ~~subrecipient~~ or subconsultant, shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. CONSULTANT shall carry out applicable requirements of 49 CFR 26 in the award and administration of federal-aid contracts.

Failure by the CONSULTANT to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the LOCAL AGENCY deems appropriate, which may include, but is not limited to:

(1) Withholding monthly progress payments;

(2) Assessing sanctions; and/or

(3) Disqualifying CONSULTANT from future proposing as non-responsible

~~E. Termination and Replacement of DBE Subconsultants~~

~~CONSULTANT shall utilize the specific DBEs listed to perform the work and supply the materials for which each is listed unless CONSULTANT or DBE subconsultant obtains the LOCAL AGENCY's written consent. CONSULTANT shall not terminate or replace a listed DBE for convenience and perform the work with their own forces or obtain materials from other sources without authorization from the LOCAL AGENCY. Unless the LOCAL AGENCY's consent is provided, the CONSULTANT shall not be entitled to any payment for work or material unless it is performed or supplied by the listed DBE on the Exhibit 10-02: Consultant Contract DBE Commitment form.~~

~~Termination of DBE Subconsultants~~

~~After execution of the AGREEMENT, termination of a DBE may be allowed for the following, but not limited to, justifiable reasons with prior written authorization from the LOCAL AGENCY:~~

~~1. Listed DBE fails or refuses to execute a written contract based on plans and specifications for the project.~~

2. The LOCAL AGENCY stipulated that a bond is a condition of executing the subcontract and the listed DBE fails to meet the LOCAL AGENCY's bond requirements.
3. Work requires a consultant's license and listed DBE does not have a valid license under Contractors License Law.
4. Listed DBE fails or refuses to perform the work or furnish the listed materials (failing or refusing to perform is not an allowable reason to remove a DBE if the failure or refusal is a result of bad faith or discrimination).
5. Listed DBE's work is unsatisfactory and not in compliance with the contract.
6. Listed DBE is ineligible to work on the project because of suspension or debarment.
7. Listed DBE becomes bankrupt or insolvent or exhibits credit unworthiness.
8. Listed DBE voluntarily withdraws with written notice from the Contract.
9. Listed DBE is ineligible to receive credit for the type of work required.
10. Listed DBE owner dies or becomes disabled resulting in the inability to perform the work on the Contract.
11. The LOCAL AGENCY determines other documented good cause.

CONSULTANT must use the following procedures to request the termination of a DBE or portion of a DBE's work:

1. Send a written notice to the DBE of the CONSULTANT's intent to use other forces or material sources and include one or more justifiable reasons listed above. Simultaneously send a copy of this written notice to the LOCAL AGENCY. The written notice to the DBE must request they provide any response within five (5) business days to both the CONSULTANT and the LOCAL AGENCY by either acknowledging their agreement or documenting their reasoning as to why the use of other forces or sources of materials should not occur.
2. If the DBE does not respond within five (5) business days, CONSULTANT may move forward with the request as if the DBE had agreed to CONSULTANT's written notice.
3. Submit CONSULTANT's DBE termination request by written letter to the LOCAL AGENCY and include:
    - One or more above listed justifiable reasons along with supporting documentation.
    - CONSULTANT's written notice to the DBE regarding the request, including proof of transmission and tracking documentation of CONSULTANT's written notice
    - The DBE's response to CONSULTANT's written notice, if received. If a written response was not provided, provide a statement to that effect.

The LOCAL AGENCY shall respond in writing to CONSULTANT's DBE termination request within five (5) business days.

Replacement of DBE Subconsultants

After receiving the LOCAL AGENCY's written authorization of DBE termination request, CONSULTANT must obtain the LOCAL AGENCY's written agreement for DBE replacement. CONSULTANT must find or demonstrate GFEs to find qualified DBE replacement firms to perform the work to the extent needed to meet the DBE commitment.

~~The following procedures shall be followed to request authorization to replace a DBE firm:~~

~~1. Submit a request to replace a DBE with other forces or material sources in writing to the LOCAL AGENCY which must include:~~

~~a. Description of remaining uncommitted work item made available for replacement DBE solicitation and participation.~~

~~b. The proposed DBE replacement firm's business information, the work they have agreed to perform, and the following:~~

- ~~Description of scope of work and cost proposal~~
- ~~Proposed subcontract agreement and written confirmation of agreement to perform on the Contract~~
- ~~Revised Exhibit 10-O2: Consultant Contract DBE Commitment~~

~~2. If CONSULTANT has not identified a DBE replacement firm, submits documentation of CONSULTANT's GFEs to use DBE replacement firms within seven (7) days of LOCAL AGENCY's authorization to terminate the DBE. CONSULTANT may request the LOCAL AGENCY's approval to extend this submittal period to a total of 14 days. Submit documentation of actions taken to find a DBE replacement firm, such as:~~

- ~~Search results of certified DBEs available to perform the original DBE work identified and or other work CONSULTANT had intended to self-perform, to the extent needed to meet DBE commitment~~
- ~~Solicitations of DBEs for performance of work identified~~
- ~~Correspondence with interested DBEs that may have included contract details and requirements~~
- ~~Negotiation efforts with DBEs that reflect why an agreement was not reached~~
- ~~If a DBE's quote was rejected, provide reasoning for the rejection, such as why the DBE was unqualified for the work, or why the price quote was unreasonable or excessive~~
- ~~Copies of each DBE's and non-DBE's price quotes for work identified, as the LOCAL AGENCY may contact the firms to verify solicitation efforts and determine if the DBE quotes are substantially higher~~
- ~~Additional documentation that supports CONSULTANT's GFE~~

~~The LOCAL AGENCY shall respond in writing to CONSULTANT's DBE replacement request within five (5) business days.~~

~~F. Commitment and Utilization~~

~~The LOCAL AGENCY's DBE program must include a monitoring and enforcement mechanism to ensure that DBE commitments reconcile to DBE utilization.~~

~~The LOCAL AGENCY shall request CONSULTANT to:~~

~~1. Notify the LOCAL AGENCY's contract administrator or designated representative of any changes to its anticipated DBE participation~~

~~2. Provide this notification before starting the affected work~~

3. Maintain records including:
   - Name and business address of each 1st -tier subconsultant
   - Name and business address of each DBE subconsultant, DBE vendor, and DBE trucking company, regardless of tier
   - Date of payment and total amount paid to each business (see Exhibit 9-F: Monthly Disadvantaged Business Enterprise Payment)

If CONSULTANT is a DBE CONSULTANT, they shall include the date of work performed by their own forces and the corresponding value of the work.
If a DBE is decertified before completing its work, the DBE must notify CONSULTANT in writing of the decertification date. If a business becomes a certified DBE before completing its work, the business must notify CONSULTANT in writing of the certification date. CONSULTANT shall submit the notifications to the LOCAL AGENCY. On work completion, CONSULTANT shall complete Exhibit 17-O: Disadvantaged Business Enterprises (DBE) Certification Status Change and submit the form to the LOCAL AGENCY within 30 days of contract acceptance.

Upon work completion, CONSULTANT shall complete Exhibit 17-F: Final Report – Utilization of Disadvantaged Business Enterprises (DBE), First-Tier Subcontractors and submit it to the LOCAL AGENCY within 90 days of contract acceptance. The LOCAL AGENCY will withhold $10,000 until the form is submitted. The LOCAL AGENCY will release the withhold upon submission of the completed form.

In the LOCAL AGENCY's reports of DBE participation to Caltrans, the LOCAL AGENCY must display both commitments and attainments.

G. Commercially Useful Function

DBEs must perform a commercially useful function (CUF) under 49 CFR 26.55 when performing work or supplying materials listed on the DBE Commitment form. The DBE value of work will only count toward the DBE commitment if the DBE performs a CUF. A DBE performs a CUF when it is responsible for execution of the work of the AGREEMENT and is carrying out its responsibilities by actually performing, managing, and supervising the work involved. To perform a CUF, the DBE must also be responsible, with respect to materials and supplies used on the AGREEMENT, for negotiating price, determining quality and quantity, ordering the material and installing (where applicable), and paying for the material itself.

CONSULTANT must perform CUF evaluation for each DBE working on a federal-aid contract, with or without a DBE goal. Perform a CUF evaluation at the beginning of the DBE's work and continue to monitor the performance of CUF for the duration of the project.

CONSULTANT must provide written notification to the LOCAL AGENCY at least 15 days in advance of each DBE's initial performance of work or supplying materials for the Contract. The notification must include the DBE's name, work the DBE will perform on the contract, and the location, date, and time of where their work will take place.

Within 10 days of a DBE initially performing work or supplying materials on the Contract, CONSULTANT shall submit to the LPA the initial evaluation and validation of DBE performance of a CUF using the LAPM 9-J: Disadvantaged Business Enterprise Commercially Useful Function Evaluation. Include the following information with the submittal:

- Subcontract agreement with the DBE
- Purchase orders

- ~~Bills of lading~~
- ~~Invoices~~
- ~~Proof of payment~~

~~CONSULTANT must monitor all DBE's performance of CUF by conducting quarterly evaluations and validations throughout their duration of work on the Contract using the LAPM 9-J: DBE Commercially Useful Function Evaluation. CONSULTANT must submit to the LOCAL AGENCY these quarterly evaluations and validations by the 5th of the month for the previous three months of work.~~

~~CONSULTANT must notify the LOCAL AGENCY immediately if they believe the DBE may not be performing a CUF.~~

~~The LOCAL AGENCY will verify DBEs performance of CUF by reviewing the initial and quarterly submissions of LAPM 9-J: DBE Commercially Useful Function Evaluation, submitted supporting information, field observations, and through any additional LOCAL AGENCY evaluations. The LOCAL AGENCY must evaluate DBEs and their CUF performance throughout the duration of a Contract. The LOCAL AGENCY will provide written notice to the CONSULTANT and the DBE at least two (2) business days prior to any evaluation. The CONSULTANT and the DBE must participate in the evaluation. Upon completing the evaluation, the LOCAL AGENCY must share the evaluation results with the CONSULTANT and the DBE. An evaluation could include items that must be remedied upon receipt. If the LOCAL AGENCY determines the DBE is not performing a CUF, the CONSULTANT must suspend performance of the noncompliant work.~~

~~CONSULTANT and DBEs must submit any additional CUF related records and documents within five (5) business days of LOCAL AGENCY's request such as:~~

- ~~Proof of ownership or lease and rental agreements for equipment~~
- ~~Tax records~~
- ~~Employee rosters~~
- ~~Certified payroll records~~
- ~~Inventory rosters~~

~~Failure to submit required DBE Commercially Useful Function Evaluation forms or requested records and documents can result in withholding of payment for the value of work completed by the DBE.~~

~~If CONSULTANT and/or the LOCAL AGENCY determine that a listed DBE is not performing a CUF in performance of their DBE committed work, CONSULTANT must immediately suspend performance of the noncompliant portion of the work. LOCAL AGENCY may deny payment for the noncompliant portion of the work. LOCAL AGENCY will ask the CONSULTANT to submit a corrective action plan (CAP) to the LOCAL AGENCY within five (5) days of the noncompliant CUF determination. The CAP must identify how the CONSULTANT will correct the noncompliance findings for the remaining portion of the DBE's work. LOCAL AGENCY has five (5) days to review the CAP in conjunction with the CONSULTANT's review. The CONSULTANT must implement the CAP within five (5) days of the LOCAL AGENCY's approval. The LOCAL AGENCY will then authorize the prior noncompliant portion of work for the DBE's committed work.~~

~~If corrective actions cannot be accomplished to ensure the DBE performs a commercially useful function on the Contract, CONSULTANT may have good cause to request termination of the DBE.~~

~~H. A DBE does not perform a CUF if its role is limited to that of an extra participant in a transaction, AGREEMENT, or project through which funds are passed in order to obtain the appearance of DBE participation. In determining whether a DBE is such an extra participant, examine similar transactions, particularly those in which DBEs do not participate.~~

~~I. If a DBE does not perform or exercise responsibility for at least thirty percent (30%) of the total cost of its AGREEMENT with its own work force, or the DBE subcontracts a greater portion of the work of the AGREEMENT than would be expected on the basis of normal industry practice for the type of work involved, it will be presumed that it is not performing a CUF.~~

~~J. CONSULTANT shall maintain records of materials purchased or supplied from all subcontracts entered into with certified DBEs. The records shall show the name and business address of each DBE or vendor and the total dollar amount actually paid each DBE or vendor, regardless of tier. The records shall show the date of payment and the total dollar figure paid to all firms. DBE CONSULTANT's shall also show the date of work performed by their own forces along with the corresponding dollar value of the work.~~

~~K. If a DBE subconsultant is decertified during the life of the AGREEMENT, the decertified subconsultant shall notify CONSULTANT in writing with the date of decertification. If a subconsultant becomes a certified DBE during the life of the AGREEMENT, the subconsultant shall notify CONSULTANT in writing with the date of certification. Any changes should be reported to LOCAL AGENCY's Contract Administrator within thirty (30) calendar days.~~

~~L. For projects awarded on or after March 1, 2020, but before September 1, 2023: after submitting an invoice for reimbursement that includes a payment to a DBE, but no later than the 10th of the following month, the prime contractor/consultant must complete and email Exhibit 9-F: Disadvantaged Business Enterprise Running Tally of Payments to business.support.unit@dot.ca.gov with a copy to local administering agencies.~~

~~For projects awarded on or after September 1, 2023: Exhibit 9-F is no longer required. Instead, by the 15th of the month following the month of any payment(s), the CONSULTANT must now submit Exhibit 9-P to the LOCAL AGENCY administering the contract. If the CONSULTANT does not make any payments to subconsultants, supplier(s), and/or manufacturers they must report "no payments were made to subs this month" and write this visibly and legibly on Exhibit 9-P.~~

~~M. Any subcontract entered into as a result of this AGREEMENT shall contain all of the provisions of this section.~~

SECTION 11. INDEPENDENT CONSULTANT.

a. The CONSULTANT is and shall, at all times, remain as to the CITY a wholly independent consultant. Neither the CITY nor any of its elected officials, officers, employees, or agents shall have control over the conduct of the CONSULTANT except as expressly set forth in this Agreement. The CONSULTANT shall not at any time or in any manner represent that he or she is in any manner an elected official, officer, employee, or agent of the CITY. No employee benefits shall be available to the CONSULTANT in connection with the performance of this Agreement. Except as provided in this Agreement, the CITY shall not pay salary, wages, or other compensation to the CONSULTANT for performance hereunder for the CITY, the CITY shall not be liable for compensation to the CONSULTANT, the CONSULTANT's employees or the CONSULTANT's subconsultants for injury or sickness arising out of performing services hereunder.

b. The parties further acknowledge and agree that nothing in this Agreement shall create or be construed to create a partnership, joint venture, employment relationship or any other relationship except as set forth in this Agreement.

c. The CITY shall not deduct from the Compensation paid to the CONSULTANT any sums required for Social Security, withholding taxes, FICA, state disability insurance or any other federal, state or local tax or charge which may or may not be in effect or hereinafter enacted or required as a charge or withholding on the compensation paid to the CONSULTANT. The CITY shall have no responsibility to provide the CONSULTANT, its employees or subconsultants with workers' compensation insurance or any other insurance.

SECTION 12. CalPERS ANNUITANTS AND ELIGIBILITY INDEMNITY.

a. If the CONSULTANT is a California Public Employees' Retirement System ("CalPERS") annuitant, the CONSULTANT must provide the City with written notification of such fact a minimum of 14 calendar days prior to commencement of services under this Agreement. Failure to provide such notification may result in termination of the Agreement, and any penalties or other costs relating thereto shall be borne by the CONSULTANT. If this Agreement remains in place, the CONSULTANT shall execute any amendment(s) to this Agreement requested by the City in order to comply with all laws and regulations applicable to CalPERS

annuitants.

b. In the event that the CONSULTANT or any employee, agent, or subconsultant of the CONSULTANT providing services under this Agreement claims or is determined by a court of competent jurisdiction or CalPERS to be eligible for enrollment in CalPERS as an employee of the CITY, the CONSULTANT shall indemnify, defend, and hold harmless the CITY for the payment of any employee and/or employer contributions for CalPERS benefits on behalf of the CONSULTANT or its employees, agents, or subconsultants, as well as for the payment of any penalties and interest on such contributions, which would otherwise be the responsibility of the CITY.

c. Notwithstanding any other agency, state or federal policy, rule, regulation, law or ordinance to the contrary, the CONSULTANT and any of its employees, agents, and subconsultants providing service under this Agreement shall not qualify for or become entitled to, and hereby agree to waive any claims to, any compensation, benefit, or any incident of employment by the CITY, including but not limited to eligibility to enroll in PERS as an employee of the CITY and entitlement to any contribution to be paid by the CITY for employer contribution and/or employee contributions for PERS benefits.

SECTION 13. LEGAL RESPONSIBILITIES.

The CONSULTANT shall at all times observe and comply with all applicable laws, ordinances, codes, and regulations of the federal, state, and local governments including, but not limited to the Montebello Municipal Code. The CITY, and its appointed or elected officers, employees, or agents, shall not be liable at law or in equity occasioned by failure of the CONSULTANT to comply with this section.

SECTION 14. INDEMNIFICATION.

The CONSULTANT agrees to, and shall defend, indemnify, protect and hold harmless, the CITY, its elected and appointed boards, officers, officials, employees, agents and volunteers from and against any and all claims, demands, lawsuits, defense costs, civil, penalties, expenses, causes of action, and judgments at law or in equity, or liability of any kind or nature which the CITY, its elected and appointed boards, officers, officials, employees, agents and volunteers may sustain or incur or which may be imposed upon them for injuries or deaths of persons, or damage to property arising out of the CONSULTANT's negligent or wrongful act, or omission under the terms of this Agreement, except only liability arising out of the sole negligence of the CITY.

SECTION 15. INSURANCE COVERAGE.

a. During the term of this Agreement, the CONSULTANT shall carry, maintain, and keep in full force and effect insurance against claims for death or injuries to persons or damages to property that may arise from or in connection with CONSULTANT's performance of this Agreement. Such insurance shall be of the types and in the amounts as set forth below:

- **Commercial General Liability (CGL)**: Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis for bodily injury and property damage, including products-completed operations, personal injury, and advertising

injury, with limits no less than $2,000,000 per occurrence. If a general aggregate limit applies, the limit shall be twice the required occurrence limit.

- **Business Automobile Liability Insurance:** If applicable, Insurance Services Office Form Number CA 0001 covering, Code 1 (any auto), or if the CONSULTANT has no owned autos, Code 8 (hired) and 9 (non-owned), with limit no less than $1,000,000 per accident for bodily injury and property damage.

- **Professional Liability** insurance appropriate to the CONSULTANT'S profession, with limit no less than $1,000,000 per occurrence or claim, $2,000,000 aggregate.

b. If the CONSULTANT maintains higher limits than the minimums shown above, the CITY requires and shall be entitled to coverage for the higher limits maintained by the CONSULTANT.

c. The CONTACTOR shall require each of its subconsultants, if any, to maintain insurance coverage that meets all of the requirements of this Agreement.

d. The policy or policies required by this Agreement shall be issued by an insurer admitted in the State of California and with a current rating of at least A:VII in the latest edition of Best's Insurance Guide.

e. Each insurance policy required above shall state that coverage shall not be canceled, except after thirty (30) days' prior written notice (ten [10] days for non-payment) has been given to the CITY. The CONSULTANT agrees that if it does not keep the aforesaid insurance in full force and effect the CITY may either (i) immediately terminate this Agreement for Cause; or (ii) take out the necessary insurance and pay, at the CONSULTANT's expense, the premium thereon.

f. **Evidence of Insurance prior to commencement**. The Consultant shall provide to the CITY Certificate(s) of Insurance evidencing such coverage together with copies of the required policy endorsements no later than five (5) business days prior to commencement of service and at least fifteen (15) business days prior to the expiration of any policy. Unreasonable failure to provide such evidence may be cause for termination of the Agreement as provided herein or delay the services' commencement date. The evidence of insurance shall be U.S. mail or email to:

City of Montebello
Attn: Principal Risk Officer
1600 West Beverly Boulevard
Montebello, CA 90640
Email: COI@montebelloca.gov

g. Coverage shall not be suspended, voided, cancelled, reduced in coverage or in limits, non-renewed, or materially changed for any reason, without thirty (30) days prior written notice thereof given by the insurer to the CITY by U.S. mail, or by personal delivery, except for nonpayment of premiums, in which case ten (10) days

prior notice shall be provided.

h. **Evidence of Insurance during the entire term of the Agreement**. At all times during the term of this Agreement, the CONSULTANT shall maintain on file with the CITY's Risk Manager a certificate or certificates of insurance showing that the aforesaid policies are in effect in the required amounts and naming the CITY as an additional insured. The CONSULTANT shall, prior to commencement of work under this Agreement, file with the CITY's Risk Manager such certificate(s).

i. The CONSULTANT shall provide proof that policies of insurance required herein expiring during the term of this Agreement have been renewed or replaced with other policies providing at least the same coverage. Such proof will be furnished at least two (2) weeks prior to the expiration of the coverages.

j. The general liability and automobile insurance policies required by this Agreement shall contain an endorsement naming the CITY, its officers, employees, agents and volunteers as additional insureds. All of the policies required under this Agreement shall contain an endorsement providing that the policies cannot be canceled or reduced except on thirty days' prior written notice to the CITY. The CONSULTANT agrees to require its insurer to modify the certificates of insurance to delete any exculpatory wording stating that failure of the insurer to mail written notice of cancellation imposes no obligation, and to delete the word "endeavor" with regard to any notice provisions.

k. The insurance provided by the CONSULTANT shall be primary to any coverage available to the CITY. Any insurance or self-insurance maintained by the CITY, its officers, employees, agents, or volunteers, shall be in excess of CONSULTANT's insurance and shall not contribute with it.

l. All insurance coverage provided pursuant to this Agreement shall not prohibit the CONSULTANT, and CONSULTANT's employees, agents or subconsultants, from waiving the right of subrogation prior to a loss. The CONSULTANT hereby waives all rights of subrogation against the CITY.

m. Any deductibles or self-insured retentions must be declared to and approved by the CITY. At the option of the CITY, the CONSULTANT shall either reduce or eliminate the deductibles or self-insured retentions with respect to the CITY, or the CONSULTANT shall procure a bond guaranteeing payment of losses and expenses.

n. Procurement of insurance by the CONSULTANT shall not be construed as a limitation of the CONSULTANT'S liability or as full performance of CONSULTANT's duties to indemnify, hold harmless and defend under the indemnity covenants of this Agreement.

SECTION 16. SUBCONTRACT, ASSIGNMENT OR DELEGATION.

The CONSULTANT shall not subcontract, delegate, or assign its duties or rights hereunder, either in whole or in part, without the prior written consent of the CITY. Any proposed subcontract, delegation, or assignment shall provide a description of the services to be covered, identification of the proposed sub-consultant, delegee, or assignee, and an explanation of why and how the same was selected, including the degree of competition involved.

Any subcontract, delegation or assignment shall be made in the name of the CONSULTANT and shall not bind or purport to bind the CITY and shall not release the CONSULTANT from any obligations under this Agreement including, but not limited to, the duty to properly supervise and coordinate the work of employees, assignees, delegees or sub-consultants. No such subcontract, delegation or assignment shall result in any increase in the amount of total compensation payable to the CONSULTANT under the Agreement.

SECTION 17. NO WAIVER.

Waiver by any party hereto of any term, condition or covenant of this Agreement shall not constitute the waiver of any other term, condition, or covenant hereof.

SECTION 18. DISPUTE RESOLUTION; GOVERNING LAW.

Disputes regarding the interpretation or application of any provision(s) of this Agreement shall, to the extent reasonably feasible, be resolved through good faith negotiations between the Parties. If any action at law or in equity is brought to enforce this Agreement or because of alleged dispute, breach, default or misrepresentation in connection with the provisions of this Agreement, the prevailing party in such action shall be entitled to reasonable attorney's fees, expert fees, costs and necessary disbursements incurred in that action or proceeding, in addition to such other relief as may be sought and awarded. The venue for any litigation shall be County of Los Angeles, California. The Parties agree that the covenants contained in this Section shall survive the expiration or termination of this Agreement.

SECTION 19. ATTORNEY'S FEES AND COSTS.

If litigation is reasonably required to enforce or interpret the provisions of this Agreement, the prevailing party in such litigation shall be entitled to an award of reasonable attorney's fees and costs in addition to any other relief to which it may be entitled.

b. In executing this Agreement, it has carefully read this Agreement, knows the contents thereof, and has relied solely on the statements expressly set forth herein and has placed no reliance whatsoever on any statement, representation, or promise of any other party, or any other person or entity, not expressly set forth herein, nor upon the failure of any other party or any other person or entity to make any statement, representation or disclosure of any matter whatsoever; and

d. The representations and warranties made by the parties to this Agreement shall survive the consummation of the transaction herein described.

e. This Agreement may be signed in any one or more counterparts all of which taken together shall be but one and the same Agreement. Any signed copy of this Agreement or of any other document or agreement referred to herein, or copy or counterpart thereof, delivered by facsimile transmission, shall for all purposes be treated as if it were delivered containing an original manual signature of the party whose signature appears in the facsimile and shall be binding upon such party in the same manner as though an originally signed copy had been delivered.

f. Each of the parties acknowledges that it has been represented by independent counsel of its own choosing, or if it has not been so represented, it has been admonished to obtain independent counsel and has freely and voluntarily waived and relinquished the right to counsel. 1. Introduction

The City of Montebello (hereinafter referred to as the "City") is pleased to present this Request for Qualifications ("RFQual") soliciting Statement(s) of Qualifications ("SOQ") from general vendors/consultant/contractors (hereinafter referred to as "Consultant"), seeking to submit proposals for Labor Compliance & Program Administration Support Services ("Services"). Based on the SOQ responses, the City will compile a short-list of qualified Consultants ("Short-List of Respondents"). The City intends to issue on-call bench list contracts to the consultants selected based on the quality of the proposals received.

SOQs are due on Wednesday, May 6, 2026 at 11:00 am PST through the City's PlanetBids portal ("Portal"). Before submitting SOQs, Consultants must register as a "vendor" in the Portal. Consultants are encouraged to register well ahead of the deadline to avoid any technical difficulties that may arise. All responses to this opportunity must conform to the requirements of this RFQual. Failure to do so may result in the response being considered non-responsive.

The Public Works Department is seeking RFQual to solicit SOQs and Hourly Rates (Billing Rates) from qualified consulting firms to provide labor compliance support and program administration support services on various projects and programs. Qualified proposers will provide labor compliance services to monitor both Federal and State prevailing wage rates and other labor compliance related services on projects funded, though not limited to: Federal Highway Administration, State of California Department of Transportation, Southern California Council of Governments, Los Angeles County Metropolitan Transportation Authority and other applicable governmental funding agencies. The City of Montebello has adopted Agreement No. 4202 - Los Angeles, Orange Counties Building and Construction Trades Council. All projects over $500,000 require the awarded contractor to comply with the Project Labor Agreement. Proposers shall also aid the City in the implementation, oversight, coordination, and reporting of Federal and State funded projects. The selected consultant(s) will work in collaboration with City staff to provide administrative, technical, and programmatic support to ensure effective program implementation, requirement compliance, and timely reporting. The City intends to establish a bench of up to three (3) consultants to provide Labor Compliance & Program Administration Support Services on an on-call, as-needed basis. As projects are issued, the City may issue task orders, requests for service/proposal, or assign projects to one or more of the selected consultants based on the scope and requirements of the specific assignment.

The process for selecting the on-call bench list is described in **Appendix B –** (**Evaluation Criteria)**, attached hereto and incorporated herein by this reference.

The City reserves the right to refrain from issuing on-call bench list contract based on SOQ received. The City also reserves the right to re-issue the RFQual seeking additional SOQ based on its sole and independent judgment.

All qualifications submitted to the City shall become the exclusive property of the City. Once City staff has identified the on-call bench list of consultants, all qualifications shall become a matter of public record subject to disclosure, except for those elements of each qualification that are identified by the Consultant as business or trade secrets and marked as "Trade Secret", "Confidential", or "Proprietary" and determined by the City to be exempt from disclosure under the Public Records Act (Cal. Gov. Code § 6250 *et seq*.) .

Each element of qualifications submittal that the Consultant desires not to be considered a public record must be marked as set forth above. If disclosure is required under the California Public Records Act or other applicable law, the City will make an independent determination and retain the confidentiality to the extent permitted.

RELEVANT LABOR COMPLIANCE PROJECT EXPERIENCE

DCCM brings nearly 20 years of expertise in project management and labor compliance for public works projects across California. LABOR COMPLIANCE TEAM

PROPOSED SCOPE OF SERVICES

LABOR COMPLIANCE SERVICES

DCCM has experience managing a wide range of small, medium, and large-scale infrastructure projects, which include labor compliance services such as, Labor Code enforcement, Davis-bacon, Skilled and Trained Workforce and Disadvantage Business Enterprise tracking and monitoring.

They will also communicate and incorporate field operational needs; administer all contracts associated with assigned projects including managing budgets and schedules; assist with the development of future project budgets.

QUALITY CONTROL.

The Labor Compliance Officers key to getting things done is staying organized. Every project has its own unique set of challenges. That is why creating an effective Labor Compliance team can be extremely helpful in managing all the different tasks of the project.

These tasks include, but are not limited to:

- Defining the scopes objectives
- Establishing a plan for success
- Managing risks
- Motivating and consistently communicating with the stakeholders
- Coordinating with contractors and awarding body
- Review payrolls and wages
- Interview employees monthly
- Ensuring compliance performed to the highest standard
- Dealing with wage determination changes
- Provide monthly and closeout reports
- Maintaining cheerful outlook
- Monitoring progress, changes, and issues related to prevailing wage
- Auditing services when deficiencies are found and reaching project milestones

IN-HOUSE LABOR COMPLIANCE PHILOSOPHY

In general, a good Labor Compliance Officer should identify any findings before they become an issue. Educate all on expectations throughout the project to reduce and or eliminate any confusion about how contractors are expected to comply with Labor Code requirements.

The Labor Compliance Officer will make sure that they are always available for their stakeholders for questions, training, advice, support, etc. Having monthly status meetings is also particularly important. These are necessary to discuss compliance and findings, etc. The Labor Compliance Officer will always be available for his team members during these meetings as well.

Making sure that everyone understands the expectations, goals and how they plan to achieve them is a key component of developing DCCM's Labor Compliance philosophy. This communication not only helps get all necessary tasks done on time but also allows us to collect feedback from all stakeholders.

Even with a project plan that is both detailed and thorough, there can still be unexpected changes or problems. Once an issue arises, the Labor Compliance Officer will re-evaluate the expectations to successfully overcome the problem.

DAVIS-BACON

We understand the importance of accurate cost estimating for the planning and budgeting purposes of any agency.

All our proposed Labor Compliance team have decades of experience in the enforcement of Labor Code and Davis-Bacon projects. They have performed countless successful projects and have negotiated hundreds of deficiencies for the benefit of many construction workers. Due to their current involvement in active construction projects, our Labor Compliance team have up to date and extensive information of Labor Code and Davis Bacon requirements. Our staff are ready and available to support the City in any type of project.

TOOLS AND PROCESSES

Our Team is well versed in Labor Code and Davis-Bacon requirements and processes, as well as experts in the Caltrans LAPM. We can understand and recommend solutions for any of the issues that may affect the City's scope requirements, budget, and/or schedule and efficiently implement the approved solution.

DEMONSTRATED COMMITMENT

Our past performance on our successfully completed projects is an indicator of our Team's ability to respond to the City's needs at a moment's notice and to provide continuous and stable staff support.

IDENTIFYING KEY AND/OR CRITICAL ISSUES BASED ON EXPERIENCE

In response to the City's request for identifying key or critical issues based on our firm's prior experiences, we have outlined five crucial areas that we believe may be encountered during the project management process. Drawing from our 20 years of experience in managing transportation and infrastructure projects large and small.

We have learned valuable lessons that the City can take advantage of by hiring DCCM. **To ensure the successful delivery of services, we propose the following steps to address and mitigate the risk posed by these potential issues:**

Stakeholder Communication: Effective communication with all stakeholders is critical to ensure everyone is aligned and informed. We have learned that regular, transparent, and structured communication channels help in preempting misunderstandings and conflicts. To ensure this, we will implement a comprehensive communication plan, including regular meetings, updates, and a clear escalation process for issues.

Quality Control: Maintaining high-quality standards is essential for the successful delivery of any project. We have established rigorous quality control procedures, including regular inspections, audits, and corrective action plans, to ensure that all project deliverables meet the required standards. We will continue to enforce these practices to ensure the project's success.

The key determining factors of performing labor compliance on a project is not if it has 5 employees vs 30 employees. The key factors are 1 trade vs. 30 different trades because you have to track: wages, increases, minor footnotes to each wage for each trade. It is also important to determine if laborers are Journeyman or an apprentice and if they are meeting the ratios. During projects of any size it is critical to ensure if the contractor familiar with the local rates vs. from another city and not familiar with wages. Other factors that impact compliance are the existence of a subsistence area and special program participation, tracking and substitution possibilities.

FAA GPS ENABLED SITE DRONE PHOTOGRAMMETRY

Using our new drone equipped with a 48MP camera, DCCM's FAA Section 107-certified pilot will conduct monthly flights over designated project areas, capturing high-resolution imagery to create an interactive 3D model of the workspace. From this model, a 2D orthophoto can be generated to scale, suitable for printing or use as a scaled background image in MicroStation. This advanced imaging technology enhances communication, mitigates risks, and minimizes potential schedule delays and cost overruns.

Additionally, **these images are valuable for public outreach, allowing the team to label ongoing construction tasks and post updates to the project website.** The pilot has extensive experience with Bentley ContextCapture software, leveraging a robust server infrastructure. With decades of design expertise, thousands of hours in Photoshop, and FAA certification, our pilot combines skill and technology to deliver precise models and maps for our clients.

No additional compensation will be paid to CONSULTANT, unless there is a change in the scope of the work or the scope of the project. In the instance of a change in the scope of work or scope of the project, adjustment to the total lump sum compensation will be negotiated between CONSULTANT and LOCAL AGENCY. Adjustment in the total lump sum compensation will not be effective until authorized by AGREEMENT amendment and approved by LOCAL AGENCY.

B. Progress payments may be made monthly in arrears based on the percentage of work completed by CONSULTANT. LOCAL AGENCY may temporarily suspend this AGREEMENT, at no additional cost to LOCAL AGENCY, provided that CONSULTANT is given written notice (delivered by certified mail, return receipt requested) of temporary suspension. If LOCAL AGENCY gives such notice of temporary suspension, CONSULTANT shall immediately suspend its activities under this AGREEMENT. A temporary suspension may be issued concurrent with the notice of termination.

C. Notwithstanding any provisions of this AGREEMENT, CONSULTANT shall not be relieved of liability to LOCAL AGENCY for damages sustained by LOCAL AGENCY by virtue of any breach of this AGREEMENT by CONSULTANT, and LOCAL AGENCY may withhold any payments due to CONSULTANT until such time as the exact amount of damages, if any, due LOCAL AGENCY from CONSULTANT is determined.

D. In the event of termination, CONSULTANT shall be compensated as provided for in this AGREEMENT. Upon termination, LOCAL AGENCY shall be entitled to all work, including but not limited to, reports, investigations, appraisals, inventories, studies, analyses, drawings and data estimates performed to that date, whether completed or not.

ARTICLE VII COST PRINCIPLES AND ADMINISTRATIVE REQUIREMENTS

A. The CONSULTANT agrees that 48 CFR 31, Contract Cost Principles and Procedures, shall be used to determine the allowability of individual terms of cost.

B. The CONSULTANT also agrees to comply with Federal procedures in accordance with 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

C. Any costs for which payment has been made to the CONSULTANT that are determined by subsequent audit to be unallowable under 48 CFR 31 or 2 CFR 200 are subject to repayment by the CONSULTANT to LOCAL AGENCY.

D. When a CONSULTANT or Subconsultant is a Non-Profit Organization or an Institution of Higher Education, the Cost Principles for Title 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards shall apply.

ARTICLE VIII RETENTION OF RECORD/AUDITS

For the purpose of determining compliance with Gov. Code § 8546.7, the CONSULTANT, Subconsultants, and LOCAL AGENCY shall maintain all books, documents, papers, accounting records, Independent CPA Audited Indirect Cost Rate workpapers, and other evidence pertaining to the performance of the AGREEMENT including, but not limited to, the costs of administering the AGREEMENT. All parties, including the CONSULTANT's Independent CPA, shall make such workpapers and materials available at their respective offices at all reasonable times during the AGREEMENT period and for three (3) years from the date of final payment under the AGREEMENT and records for real property and equipment acquired with federal funds must be retained for three (3) years after final disposition. LOCAL AGENCY, Caltrans Auditor, FHWA, or any duly authorized representative of the Federal government having jurisdiction under Federal laws or regulations (including the basis of Federal funding in whole or in part) shall have access to any books, records, and documents of the CONSULTANT, Subconsultants, and the CONSULTANT's Independent CPA, that are pertinent to the AGREEMENT for audits, examinations, workpaper review, excerpts, and transactions, and copies thereof shall be furnished if requested without limitation.

ARTICLE IX AUDIT REVIEW PROCEDURES

A. Any dispute concerning a question of fact arising under an interim or post audit of this AGREEMENT that is not disposed of by AGREEMENT, shall be reviewed by LOCAL AGENCY'S Chief Financial Officer.

B. Not later than thirty (30) calendar days after issuance of the final audit report, CONSULTANT may request a review by LOCAL AGENCY'S Chief Financial Officer of unresolved audit issues. The request for review will be submitted in writing.

C. Neither the pendency of a dispute nor its consideration by LOCAL AGENCY will excuse CONSULTANT from full and timely performance, in accordance with the terms of this AGREEMENT.

D. CONSULTANT and subconsultant AGREEMENTs, including cost proposals and Indirect Cost Rates (ICR), may be subject to audits or reviews such as, but not limited to, an AGREEMENT audit, an incurred cost audit, an ICR Audit, or a CPA ICR audit work paper review. If selected for audit or review, the AGREEMENT, cost proposal and ICR and related work papers, if applicable, will be reviewed to verify compliance with 48 CFR 31 and other related laws and regulations. In the instances of a CPA ICR audit work paper review it is CONSULTANT's responsibility to ensure federal, LOCAL AGENCY, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. The AGREEMENT, cost proposal, and ICR shall be adjusted by CONSULTANT and approved by LOCAL AGENCY Contract Administrator to conform to the audit or review recommendations. CONSULTANT agrees that individual terms of costs identified in the audit report shall be incorporated into the AGREEMENT by this reference if directed by LOCAL AGENCY at its sole discretion. Refusal by CONSULTANT to incorporate audit or review recommendations, or to ensure that the federal, LOCAL AGENCY or local governments have access to CPA work papers, will be considered a breach of AGREEMENT terms and cause for termination of the AGREEMENT and disallowance of prior reimbursed costs.

E. CONSULTANT's Cost Proposal may be subject to a CPA ICR Audit Work Paper Review and/or audit by the Independent Office of Audits and Investigations (IOAI). IOAI, at its sole discretion, may review and/or audit and approve the CPA ICR documentation. The Cost Proposal shall be adjusted by the CONSULTANT and approved by the LOCAL AGENCY Contract Administrator to conform to the Work Paper Review recommendations included in the management letter or audit recommendations included in the audit report. Refusal by the CONSULTANT to incorporate the Work Paper Review recommendations included in the management letter or audit recommendations included in the audit report will be considered a breach of the AGREEMENT terms and cause for termination of the AGREEMENT and disallowance of prior reimbursed costs.

   1. During IOAI's review of the ICR audit work papers created by the CONSULTANT's independent CPA, IOAI will work with the CPA and/or CONSULTANT toward a resolution of issues that arise during the review. Each party agrees to use its best efforts to resolve any audit disputes in a timely manner. If IOAI identifies significant issues during the review and is unable to issue a cognizant approval letter, LOCAL AGENCY will reimburse the CONSULTANT at an accepted ICR until a FAR (Federal Acquisition Regulation) compliant ICR (e.g. 48 CFR Part 31; GAGAS (Generally Accepted Auditing Standards); CAS (Cost Accounting Standards), if applicable; in accordance with procedures and guidelines of the American Association of State Highways and Transportation Officials (AASHTO) Audit Guide; and other applicable procedures and guidelines) is received and approved by IOAI.

Accepted rates will be as follows:

a. If the proposed rate is less than one hundred fifty percent (150%) - the accepted rate reimbursed will be ninety percent (90%) of the proposed rate.

b. If the proposed rate is between one hundred fifty percent (150%) and two hundred percent (200%) - the accepted rate will be eighty-five percent (85%) of the proposed rate.

c. If the proposed rate is greater than two hundred percent (200%) - the accepted rate will be seventy-five percent (75%) of the proposed rate.

2. If IOAI is unable to issue a cognizant letter per paragraph E.1. above, IOAI may require CONSULTANT to submit a revised independent CPA-audited ICR and audit report within three (3) months of the effective date of the management letter. IOAI will then have up to six (6) months to review the CONSULTANT's and/or the independent CPA's revisions.

3. If the CONSULTANT fails to comply with the provisions of this paragraph E, or if IOAI is still unable to issue a cognizant approval letter after the revised independent CPA audited ICR is submitted, overhead cost reimbursement will be limited to the accepted ICR that was established upon initial rejection of the ICR and set forth in paragraph E.1. above for all rendered services. In this event, this accepted ICR will become the actual and final ICR for reimbursement purposes under this AGREEMENT.

4. CONSULTANT may submit to LOCAL AGENCY final invoice only when all of the following items have occurred: (1) IOAI accepts or adjusts the original or revised independent CPA audited ICR; (2) all work under this AGREEMENT has been completed to the satisfaction of LOCAL AGENCY; and, (3) IOAI has issued its final ICR review letter. The CONSULTANT MUST SUBMIT ITS FINAL INVOICE TO LOCAL AGENCY no later than sixty (60) calendar days after occurrence of the last of these items. The accepted ICR will apply to this AGREEMENT and all other agreements executed between LOCAL AGENCY and the CONSULTANT, either as a prime or subconsultant, with the same fiscal period ICR.

ARTICLE X SUBCONTRACTING

A. Nothing contained in this AGREEMENT or otherwise, shall create any contractual relation between the LOCAL AGENCY and any Subconsultants, and no subagreement shall relieve the CONSULTANT of its responsibilities and obligations hereunder. The CONSULTANT agrees to be as fully responsible to the LOCAL AGENCY for the acts and omissions of its Subconsultants and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the CONSULTANT. The CONSULTANT's obligation to pay its Subconsultants is an independent obligation from the LOCAL AGENCY's obligation to make payments to the CONSULTANT.

B. The CONSULTANT shall perform the work contemplated with resources available within its own organization and no portion of the work shall be subcontracted without written authorization by the LOCAL AGENCY Contract Administrator, except that which is expressly identified in the CONSULTANT's approved Cost Proposal.

In the event that there is a good faith dispute over all or any portion of the amount due on a progress payment from CONSULTANT or subconsultant to a subconsultant, CONSULTANT or subconsultant may withhold no more than 150 percent of the disputed amount. Any violation of this requirement shall constitute a cause for disciplinary action and shall subject the licensee to a penalty, payable to the subconsultant, of 2 percent of the amount due per month for every month that payment is not made.

In any action for the collection of funds wrongfully withheld, the prevailing party shall be entitled to his or her attorney's fees and costs. The sanctions authorized under this requirement shall be separate from, and in addition to, all other remedies, either civil, administrative, or criminal. ~~This clause applies to both DBE and non-DBE subconsultants.~~

This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies, otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT, deficient subconsultant performance and/or noncompliance by a subconsultant. This clause applies to both DBE and non-DBE subconsultants.

Method 2: No retainage will be held by the LOCAL AGENCY from progress payments due to CONSULTANT. Any retainage kept by CONSULTANT or by a subconsultant must be paid in full to the earning subconsultant within 15 days after the subconsultant's work is satisfactorily completed. This clause applies to both DBE and non-DBE subconsultants.

Method 3: The LOCAL AGENCY shall hold retainage from CONSULTANT and shall make prompt and regular incremental acceptances of portions, as determined by the LOCAL AGENCY of the contract work and pay retainage to CONSULTANT based on these acceptances. CONSULTANT or subconsultant shall return all monies withheld in retention from all subconsultants within 15 days after receiving payment for work satisfactorily completed and accepted including incremental acceptances of portions of the contract work by the LOCAL AGENCY. Any delay or postponement of payment may take place only for good cause and with the LOCAL AGENCY's prior written approval. Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions, and other remedies specified in Section 3321 of the California Civil Code. equipment and credit LOCAL AGENCY in an amount equal to its fair market value, or sell such equipment at the best price obtainable at a public or private sale, in accordance with established LOCAL AGENCY procedures; and credit LOCAL AGENCY in an amount equal to the sales price. 4. violation of the requirements of the Labor Code and in particular, Labor Code §§1770 to 1780, inclusive.

2. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of mistake, inadvertence, or neglect of the CONSULTANT or Subconsultant in failing to pay the correct rate of prevailing wages, or the previous record of the CONSULTANT or Subconsultant in meeting their respective prevailing wage obligations, or the willful failure by the CONSULTANT or Subconsultant to pay the correct rates of prevailing wages. A mistake, inadvertence, or neglect in failing to pay the correct rates of prevailing wages is not excusable if the CONSULTANT or Subconsultant had knowledge of the obligations under the Labor Code. 4. If a worker employed by a Subconsultant on a public works project is not paid the general prevailing per diem wages by the Subconsultant, the CONSULTANT of the project is not liable for the penalties described above unless the CONSULTANT had knowledge of that failure of the Subconsultant to pay the specified prevailing rate of wages to those workers or unless the CONSULTANT fails to comply with all of the following requirements:

    a. The AGREEMENT executed between the CONSULTANT and the Subconsultant for the performance of work on public works projects shall include a copy of the requirements in Labor Code §§ 1771, 1775, 1776, 1777.5, 1813, and 1815.

Upon becoming aware of the Subconsultant's failure to pay the specified prevailing rate of wages to the Subconsultant's workers, the CONSULTANT shall diligently take corrective action to halt or rectify the failure, including but not limited to, retaining sufficient funds due the Subconsultant for work performed on the public works project.

    d. Prior to making final payment to the Subconsultant for work performed on the public works project, the CONSULTANT shall obtain an affidavit signed under penalty of perjury from the Subconsultant that the Subconsultant had paid the specified general prevailing rate of per diem wages to the Subconsultant's employees on the public works project and any amounts due pursuant to Labor Code §1813.

5. Pursuant to Labor Code §1775, LOCAL AGENCY shall notify the CONSULTANT on a public works project within fifteen (15) calendar days of receipt of a complaint that a Subconsultant has failed to pay workers the general prevailing rate of per diem wages.

6. If LOCAL AGENCY determines that employees of a Subconsultant were not paid the general prevailing rate of per diem wages and if LOCAL AGENCY did not retain sufficient money under the AGREEMENT to pay those employees the balance of wages owed under the general prevailing rate of per diem wages, the CONSULTANT shall withhold an amount of moneys due the Subconsultant sufficient to pay those employees the general prevailing rate of per diem wages if requested by LOCAL AGENCY.

G. Hours of Labor

ARTICLE XIV REBATES, KICKBACKS OR OTHER UNLAWFUL CONSIDERATION

The CONSULTANT warrants that this AGREEMENT was not obtained or secured through rebates, kickbacks or other unlawful consideration either promised or paid to any LOCAL AGENCY employee. For breach or violation of this warranty, LOCAL AGENCY shall have the right, in its discretion, to terminate this AGREEMENT without liability, to pay only for the value of the work actually performed, or to deduct from this AGREEMENT price or otherwise recover the full amount of such rebate, kickback or other unlawful consideration.

ARTICLE XV PROHIBITION OF EXPENDING LOCAL AGENCY, STATE, OR FEDERAL FUNDS FOR LOBBYING

[*Include this article in all AGREEMENTs where federal funding will exceed ~~$150,000~~ $100,000. If less than ~~$150,000~~ $100,000 in federal funds will be expended on the AGREEMENT, delete this article and re-number the subsequent articles.*]

Any person who fails to file the required certification shall be subject to a civil penalty of not less than ten thousand dollars ($10,000) and not more than one hundred thousand dollars ($100,000) for each such failure.

C. The CONSULTANT also agrees by signing this document that he or she shall require that the language of this certification be included in all lower tier subagreements, which exceed one hundred thousand dollars ($100,000), and that all such subrecipients shall certify and disclose accordingly.

ARTICLE XVI NON-DISCRIMINATION CLAUSE AND STATEMENT OF COMPLIANCE

CONSULTANT, subrecipient or subconsultant will never exclude any person from participation in, deny any person the benefits of, or otherwise discriminate against anyone in connection with the award and performance of any contract covered by 49 CFR 26 on the basis of race, color, sex, or national origin. ~~In administering the LOCAL AGENCY components of the DBE Program Plan, CONSULTANT, subrecipient or subconsultant will not, directly, or through contractual or other arrangements, use criteria or methods of administration that have the effect of defeating or substantially impairing accomplishment of the objectives of the DBE Program Plan with respect to individuals of a particular race, color, sex, or national origin.~~

ARTICLE XVII DEBARMENT AND SUSPENSION CERTIFICATION

A. The CONSULTANT's signature affixed herein shall constitute a certification under penalty of perjury under the laws of the State of California, that the CONSULTANT or any person associated therewith in the capacity of owner, partner, director, officer or manager:

Disclosures must indicate the party to whom the exceptions apply, the initiating agency, and the dates of agency action.

C. Exceptions to the Federal Government excluded parties (https://sam.gov/content/home) maintained by the U.S. General Services Administration are to be determined by FHWA.

ARTICLE XVIII DISADVANTAGED BUSINESS ENTERPRISES (DBE) ~~PARTICIPATION~~

A. CONSULTANT, ~~subrecipient (LOCAL AGENCY),~~ or subconsultant, shall take necessary and reasonable steps to ensure that DBEs have opportunities to participate in the contract (49 CFR 26). ~~To ensure equal participation of DBEs provided in 49 CFR 26.5, the LOCAL AGENCY shows a contract goal for DBEs. CONSULTANT shall make work available to DBEs and select work parts consistent with available DBE subconsultants and suppliers.~~

~~CONSULTANT shall meet the DBE goal shown elsewhere in these special provisions or demonstrate that they made adequate Good Faith Efforts (GFE) to meet this goal. It is CONSULTANT's responsibility to verify at date of proposal opening that the DBE firm is certified as a DBE by using the California Unified Certification Program (CUCP) database and possesses the most specific available North American Industry Classification System (NAICS) codes and work code applicable to the type of work the firm will perform on the contract. Additionally, the CONSULTANT is responsible to document the verification record by printing out the CUCP data for each DBE firm. A list of DBEs certified by the CUCP can be found at: https://caltrans.dbesystem.com/.~~

~~All DBE participation will count toward the California Department of Transportation's federally mandated statewide overall DBE goal. Credit for materials or supplies CONSULTANT purchases from DBEs counts towards the goal in the following manner:~~

- ~~100 percent counts if the materials or supplies are obtained from a DBE manufacturer.~~
- ~~60 percent counts if the materials or supplies are purchased from a DBE regular dealer.~~
- ~~Only fees, commissions, and charges for assistance in the procurement and delivery of materials or supplies count if obtained from a DBE that is neither a manufacturer nor regular dealer. 49 CFR 26.55 defines "manufacturer" and "regular dealer."~~

~~This AGREEMENT is subject to 49 CFR 26 entitled "Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs". CONSULTANTs who enter into a federally-funded agreement will assist the LOCAL AGENCY in a good faith effort to achieve California's statewide overall DBE goal.~~

~~B. The goal for DBE participation for this AGREEMENT is _____%. Participation by DBE CONSULTANT or subconsultants shall be in accordance with information contained in Exhibit 10-O2: Consultant Contract DBE Commitment attached hereto and incorporated as part of the AGREEMENT. If a DBE subconsultant is unable to perform, CONSULTANT must make a good faith effort to replace him/her with another DBE subconsultant, if the goal is not otherwise met.~~

~~C. CONSULTANT can meet the DBE participation goal by either documenting commitments to DBEs to meet the AGREEMENT goal, or by documenting adequate good faith efforts to meet the AGREEMENT goal. An adequate good faith effort means that the CONSULTANT must show that it took all necessary and reasonable steps to achieve a DBE goal that, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to meet the DBE goal. If CONSULTANT has not met the DBE goal, complete and submit Exhibit 15-H: Proposer/Contractor Good Faith Efforts to document efforts to meet the goal. Refer to 49 CFR 26 for guidance regarding evaluation of good faith efforts to meet the DBE goal.~~

~~D. Contract Assurance~~

In accordance with 49 CFR 26.13(b):

CONSULTANT, ~~subrecipient~~ or subconsultant, shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. CONSULTANT shall carry out applicable requirements of 49 CFR 26 in the award and administration of federal-aid contracts.

Failure by the CONSULTANT to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the LOCAL AGENCY deems appropriate, which may include, but is not limited to:

(1) Withholding monthly progress payments;

(2) Assessing sanctions; and/or

(3) Disqualifying CONSULTANT from future proposing as non-responsible

~~E. Termination and Replacement of DBE Subconsultants~~

~~CONSULTANT shall utilize the specific DBEs listed to perform the work and supply the materials for which each is listed unless CONSULTANT or DBE subconsultant obtains the LOCAL AGENCY's written consent. CONSULTANT shall not terminate or replace a listed DBE for convenience and perform the work with their own forces or obtain materials from other sources without authorization from the LOCAL AGENCY. Unless the LOCAL AGENCY's consent is provided, the CONSULTANT shall not be entitled to any payment for work or material unless it is performed or supplied by the listed DBE on the Exhibit 10-02: Consultant Contract DBE Commitment form.~~

~~Termination of DBE Subconsultants~~

~~After execution of the AGREEMENT, termination of a DBE may be allowed for the following, but not limited to, justifiable reasons with prior written authorization from the LOCAL AGENCY:~~

~~1. Listed DBE fails or refuses to execute a written contract based on plans and specifications for the project.~~

2. The LOCAL AGENCY stipulated that a bond is a condition of executing the subcontract and the listed DBE fails to meet the LOCAL AGENCY's bond requirements.
3. Work requires a consultant's license and listed DBE does not have a valid license under Contractors License Law.
4. Listed DBE fails or refuses to perform the work or furnish the listed materials (failing or refusing to perform is not an allowable reason to remove a DBE if the failure or refusal is a result of bad faith or discrimination).
5. Listed DBE's work is unsatisfactory and not in compliance with the contract.
6. Listed DBE is ineligible to work on the project because of suspension or debarment.
7. Listed DBE becomes bankrupt or insolvent or exhibits credit unworthiness.
8. Listed DBE voluntarily withdraws with written notice from the Contract.
9. Listed DBE is ineligible to receive credit for the type of work required.
10. Listed DBE owner dies or becomes disabled resulting in the inability to perform the work on the Contract.
11. The LOCAL AGENCY determines other documented good cause.

CONSULTANT must use the following procedures to request the termination of a DBE or portion of a DBE's work:

1. Send a written notice to the DBE of the CONSULTANT's intent to use other forces or material sources and include one or more justifiable reasons listed above. Simultaneously send a copy of this written notice to the LOCAL AGENCY. The written notice to the DBE must request they provide any response within five (5) business days to both the CONSULTANT and the LOCAL AGENCY by either acknowledging their agreement or documenting their reasoning as to why the use of other forces or sources of materials should not occur.
2. If the DBE does not respond within five (5) business days, CONSULTANT may move forward with the request as if the DBE had agreed to CONSULTANT's written notice.
3. Submit CONSULTANT's DBE termination request by written letter to the LOCAL AGENCY and include:
    - One or more above listed justifiable reasons along with supporting documentation.
    - CONSULTANT's written notice to the DBE regarding the request, including proof of transmission and tracking documentation of CONSULTANT's written notice
    - The DBE's response to CONSULTANT's written notice, if received. If a written response was not provided, provide a statement to that effect.

The LOCAL AGENCY shall respond in writing to CONSULTANT's DBE termination request within five (5) business days.

Replacement of DBE Subconsultants

After receiving the LOCAL AGENCY's written authorization of DBE termination request, CONSULTANT must obtain the LOCAL AGENCY's written agreement for DBE replacement. CONSULTANT must find or demonstrate GFEs to find qualified DBE replacement firms to perform the work to the extent needed to meet the DBE commitment.

~~The following procedures shall be followed to request authorization to replace a DBE firm:~~

~~1. Submit a request to replace a DBE with other forces or material sources in writing to the LOCAL AGENCY which must include:~~

~~a. Description of remaining uncommitted work item made available for replacement DBE solicitation and participation.~~

~~b. The proposed DBE replacement firm's business information, the work they have agreed to perform, and the following:~~

- ~~Description of scope of work and cost proposal~~
- ~~Proposed subcontract agreement and written confirmation of agreement to perform on the Contract~~
- ~~Revised Exhibit 10-O2: Consultant Contract DBE Commitment~~

~~2. If CONSULTANT has not identified a DBE replacement firm, submits documentation of CONSULTANT's GFEs to use DBE replacement firms within seven (7) days of LOCAL AGENCY's authorization to terminate the DBE. CONSULTANT may request the LOCAL AGENCY's approval to extend this submittal period to a total of 14 days. Submit documentation of actions taken to find a DBE replacement firm, such as:~~

- ~~Search results of certified DBEs available to perform the original DBE work identified and or other work CONSULTANT had intended to self-perform, to the extent needed to meet DBE commitment~~
- ~~Solicitations of DBEs for performance of work identified~~
- ~~Correspondence with interested DBEs that may have included contract details and requirements~~
- ~~Negotiation efforts with DBEs that reflect why an agreement was not reached~~
- ~~If a DBE's quote was rejected, provide reasoning for the rejection, such as why the DBE was unqualified for the work, or why the price quote was unreasonable or excessive~~
- ~~Copies of each DBE's and non-DBE's price quotes for work identified, as the LOCAL AGENCY may contact the firms to verify solicitation efforts and determine if the DBE quotes are substantially higher~~
- ~~Additional documentation that supports CONSULTANT's GFE~~

~~The LOCAL AGENCY shall respond in writing to CONSULTANT's DBE replacement request within five (5) business days.~~

~~F. Commitment and Utilization~~

~~The LOCAL AGENCY's DBE program must include a monitoring and enforcement mechanism to ensure that DBE commitments reconcile to DBE utilization.~~

~~The LOCAL AGENCY shall request CONSULTANT to:~~

~~1. Notify the LOCAL AGENCY's contract administrator or designated representative of any changes to its anticipated DBE participation~~

~~2. Provide this notification before starting the affected work~~

3. Maintain records including:
   - Name and business address of each 1st -tier subconsultant
   - Name and business address of each DBE subconsultant, DBE vendor, and DBE trucking company, regardless of tier
   - Date of payment and total amount paid to each business (see Exhibit 9-F: Monthly Disadvantaged Business Enterprise Payment)

If CONSULTANT is a DBE CONSULTANT, they shall include the date of work performed by their own forces and the corresponding value of the work.
If a DBE is decertified before completing its work, the DBE must notify CONSULTANT in writing of the decertification date. If a business becomes a certified DBE before completing its work, the business must notify CONSULTANT in writing of the certification date. CONSULTANT shall submit the notifications to the LOCAL AGENCY. On work completion, CONSULTANT shall complete Exhibit 17-O: Disadvantaged Business Enterprises (DBE) Certification Status Change and submit the form to the LOCAL AGENCY within 30 days of contract acceptance.

Upon work completion, CONSULTANT shall complete Exhibit 17-F: Final Report – Utilization of Disadvantaged Business Enterprises (DBE), First-Tier Subcontractors and submit it to the LOCAL AGENCY within 90 days of contract acceptance. The LOCAL AGENCY will withhold $10,000 until the form is submitted. The LOCAL AGENCY will release the withhold upon submission of the completed form.

In the LOCAL AGENCY's reports of DBE participation to Caltrans, the LOCAL AGENCY must display both commitments and attainments.

G. Commercially Useful Function

DBEs must perform a commercially useful function (CUF) under 49 CFR 26.55 when performing work or supplying materials listed on the DBE Commitment form. The DBE value of work will only count toward the DBE commitment if the DBE performs a CUF. A DBE performs a CUF when it is responsible for execution of the work of the AGREEMENT and is carrying out its responsibilities by actually performing, managing, and supervising the work involved. To perform a CUF, the DBE must also be responsible, with respect to materials and supplies used on the AGREEMENT, for negotiating price, determining quality and quantity, ordering the material and installing (where applicable), and paying for the material itself.

CONSULTANT must perform CUF evaluation for each DBE working on a federal-aid contract, with or without a DBE goal. Perform a CUF evaluation at the beginning of the DBE's work and continue to monitor the performance of CUF for the duration of the project.

CONSULTANT must provide written notification to the LOCAL AGENCY at least 15 days in advance of each DBE's initial performance of work or supplying materials for the Contract. The notification must include the DBE's name, work the DBE will perform on the contract, and the location, date, and time of where their work will take place.

Within 10 days of a DBE initially performing work or supplying materials on the Contract, CONSULTANT shall submit to the LPA the initial evaluation and validation of DBE performance of a CUF using the LAPM 9-J: Disadvantaged Business Enterprise Commercially Useful Function Evaluation. Include the following information with the submittal:

- Subcontract agreement with the DBE
- Purchase orders

- ~~Bills of lading~~
- ~~Invoices~~
- ~~Proof of payment~~

~~CONSULTANT must monitor all DBE's performance of CUF by conducting quarterly evaluations and validations throughout their duration of work on the Contract using the LAPM 9-J: DBE Commercially Useful Function Evaluation. CONSULTANT must submit to the LOCAL AGENCY these quarterly evaluations and validations by the 5th of the month for the previous three months of work.~~

~~CONSULTANT must notify the LOCAL AGENCY immediately if they believe the DBE may not be performing a CUF.~~

~~The LOCAL AGENCY will verify DBEs performance of CUF by reviewing the initial and quarterly submissions of LAPM 9-J: DBE Commercially Useful Function Evaluation, submitted supporting information, field observations, and through any additional LOCAL AGENCY evaluations. The LOCAL AGENCY must evaluate DBEs and their CUF performance throughout the duration of a Contract. The LOCAL AGENCY will provide written notice to the CONSULTANT and the DBE at least two (2) business days prior to any evaluation. The CONSULTANT and the DBE must participate in the evaluation. Upon completing the evaluation, the LOCAL AGENCY must share the evaluation results with the CONSULTANT and the DBE. An evaluation could include items that must be remedied upon receipt. If the LOCAL AGENCY determines the DBE is not performing a CUF, the CONSULTANT must suspend performance of the noncompliant work.~~

~~CONSULTANT and DBEs must submit any additional CUF related records and documents within five (5) business days of LOCAL AGENCY's request such as:~~

- ~~Proof of ownership or lease and rental agreements for equipment~~
- ~~Tax records~~
- ~~Employee rosters~~
- ~~Certified payroll records~~
- ~~Inventory rosters~~

~~Failure to submit required DBE Commercially Useful Function Evaluation forms or requested records and documents can result in withholding of payment for the value of work completed by the DBE.~~

~~If CONSULTANT and/or the LOCAL AGENCY determine that a listed DBE is not performing a CUF in performance of their DBE committed work, CONSULTANT must immediately suspend performance of the noncompliant portion of the work. LOCAL AGENCY may deny payment for the noncompliant portion of the work. LOCAL AGENCY will ask the CONSULTANT to submit a corrective action plan (CAP) to the LOCAL AGENCY within five (5) days of the noncompliant CUF determination. The CAP must identify how the CONSULTANT will correct the noncompliance findings for the remaining portion of the DBE's work. LOCAL AGENCY has five (5) days to review the CAP in conjunction with the CONSULTANT's review. The CONSULTANT must implement the CAP within five (5) days of the LOCAL AGENCY's approval. The LOCAL AGENCY will then authorize the prior noncompliant portion of work for the DBE's committed work.~~

~~If corrective actions cannot be accomplished to ensure the DBE performs a commercially useful function on the Contract, CONSULTANT may have good cause to request termination of the DBE.~~

~~H. A DBE does not perform a CUF if its role is limited to that of an extra participant in a transaction, AGREEMENT, or project through which funds are passed in order to obtain the appearance of DBE participation. In determining whether a DBE is such an extra participant, examine similar transactions, particularly those in which DBEs do not participate.~~

~~I. If a DBE does not perform or exercise responsibility for at least thirty percent (30%) of the total cost of its AGREEMENT with its own work force, or the DBE subcontracts a greater portion of the work of the AGREEMENT than would be expected on the basis of normal industry practice for the type of work involved, it will be presumed that it is not performing a CUF.~~

~~J. CONSULTANT shall maintain records of materials purchased or supplied from all subcontracts entered into with certified DBEs. The records shall show the name and business address of each DBE or vendor and the total dollar amount actually paid each DBE or vendor, regardless of tier. The records shall show the date of payment and the total dollar figure paid to all firms. DBE CONSULTANT's shall also show the date of work performed by their own forces along with the corresponding dollar value of the work.~~

~~K. If a DBE subconsultant is decertified during the life of the AGREEMENT, the decertified subconsultant shall notify CONSULTANT in writing with the date of decertification. If a subconsultant becomes a certified DBE during the life of the AGREEMENT, the subconsultant shall notify CONSULTANT in writing with the date of certification. Any changes should be reported to LOCAL AGENCY's Contract Administrator within thirty (30) calendar days.~~

~~L. For projects awarded on or after March 1, 2020, but before September 1, 2023: after submitting an invoice for reimbursement that includes a payment to a DBE, but no later than the 10th of the following month, the prime contractor/consultant must complete and email Exhibit 9-F: Disadvantaged Business Enterprise Running Tally of Payments to business.support.unit@dot.ca.gov with a copy to local administering agencies.~~

~~For projects awarded on or after September 1, 2023: Exhibit 9-F is no longer required. Instead, by the 15th of the month following the month of any payment(s), the CONSULTANT must now submit Exhibit 9-P to the LOCAL AGENCY administering the contract. If the CONSULTANT does not make any payments to subconsultants, supplier(s), and/or manufacturers they must report "no payments were made to subs this month" and write this visibly and legibly on Exhibit 9-P.~~

~~M. Any subcontract entered into as a result of this AGREEMENT shall contain all of the provisions of this section.~~

The City reserves the right to refrain from issuing on-call bench list contract based on SOQ received. The City also reserves the right to re-issue the RFQual seeking additional SOQ based on its sole and independent judgment.

All qualifications submitted to the City shall become the exclusive property of the City. Gov. Code § 6250 *et seq*.) .

Each element of qualifications submittal that the Consultant desires not to be considered a public record must be marked as set forth above. Re: RFQual No. 26-03 – Labor Compliance & Program Administration Support Services

Dear Ms. Ramos and Members of the Selection Committee:

Cumming Management Group, Inc. ("Cumming Group") is pleased to submit our Statement of Qualifications to the City of Montebello for Labor Compliance & Program Administration Support Services. We appreciate the opportunity to be considered for this on-call bench and are confident that our experience supporting California public agencies on labor compliance, prevailing wage monitoring, and funded project administration aligns well with the City's needs.

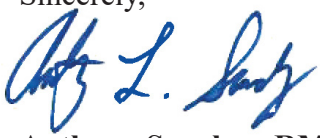
Cumming Group understands that the City is seeking responsive, on-call support for both labor compliance services and broader program administration support associated with federally, state, and locally funded public works projects. We are well prepared to provide practical, scalable, and well-documented support across multiple project phases, including planning, preconstruction, active construction, reporting, and closeout.

Cumming Group is fully available to dedicate the time, personnel, and resources necessary to support the City under this contract. Our in-house labor compliance team has the capacity to respond quickly to assignment needs, maintain consistent oversight, and provide clear communication and documentation throughout each task order. We do not anticipate the need to rely on subconsultants for these services.

Cumming Group acknowledges receipt of Addendum No. 1 and commits to the availability of the firm and all proposed key staff during the planning period, including periods when the City is pursuing funding opportunities, preparing grant applications, and developing preliminary project documentation. Our team understands that early-phase support may be essential to establishing the compliance procedures, documentation protocols, and reporting expectations needed for successful project delivery.

Cumming Group appreciates the opportunity to support the City of Montebello and would be honored to serve as a member of the City's on-call bench for these services. Thank you for your consideration.

Sincerely,



Anthony Sanchez, RME, Assoc. DBIA

SECTION 2

PROJECT UNDERSTANDING AND APPROACH

SECTION 2

PROJECT UNDERSTANDING AND APPROACH

Please include a statement demonstrating your understanding of the proposed project. Describe your general approach to completing the project successfully, methodologies and technologies you would employ, key milestones and processes you would employ. Describe what information you would expect the City to supply.

Cumming Group understands that the City of Montebello is seeking flexible, on-call support that bridges two closely related but distinct needs: labor compliance services for publicly funded construction projects and program administration support for funded public works projects and programs.

As described in the RFQual, the City is looking for consultant support not only to monitor compliance with Federal and State prevailing wage requirements, but also to assist with the implementation, oversight, coordination, documentation, and reporting associated with funded projects.

The selected consultant(s) will work in collaboration with City staff to provide administrative, technical, and programmatic support on an as-needed basis, with assignments issued through task orders, requests for service/proposal, or direct assignment depending on project needs.

We understand this to be an on-call services contract intended to support a varied public works portfolio, rather than a single defined project. Through the RFQual and Addendum No. 1, the City indicates that its typical projects include street rehabilitation and paving, traffic signals, pedestrian improvements, ADA enhancements, sewer improvements, storm drain improvements, bridges, underpasses, and streetlights, with recent project values generally ranging from $100,000 to $4M.

The City also noted that it averages roughly 4 to 10 projects per year, and that some assignments may trigger additional labor requirements such as compliance with the City's Project Labor Agreement for projects above the stated threshold.

We also understand that Montebello's need extends earlier in the project lifecycle than traditional construction-phase labor compliance alone. The Addendum clarifies that the "planning period" includes the phase during which the City is pursuing funding, preparing grant applications, and developing preliminary project documentation. That is significant because it means the City is not simply looking for a consultant to review certified payrolls after construction begins; it is looking for a partner that can help establish the compliance, documentation, and reporting framework that supports projects from planning through closeout.

Another important consideration is that the City confirmed it does not currently maintain its own labor compliance tracking system and instead relies on consultants to provide labor compliance services. We take that to mean the selected consultant must bring not only technical knowledge of prevailing wage requirements, but also the organizational structure, reporting discipline, and practical tools needed to help the City maintain consistent, well-documented compliance across multiple assignments.

Understanding of the City's Needs

Based on the RFQual, we believe the City's priorities center on four core needs: dependable labor compliance administration, scalable on-call support, organized and audit-ready documentation, and a consultant that can function as a practical extension of City staff.

Labor Compliance Administration

The City needs a consultant that can provide reliable labor compliance administration across a variety of public works assignments. That includes support for State and Federal prevailing wage requirements, certified payroll review, apprentice compliance, contractor outreach and training, field interviews, discrepancy resolution, monthly reporting, and project closeout documentation.

Flexible, Scalable Support

Because this is an on-call bench arrangement, the level of effort will vary from assignment to assignment. Some task orders may involve active construction monitoring for a straightforward improvement project, while others may involve broader coordination and reporting support tied to funding requirements, project planning, or preconstruction compliance setup. The City therefore needs a consultant that can respond quickly, apply the appropriate level of staffing, and adjust as project and funding conditions evolve.

Documentation and Reporting Discipline

The City also needs support that will help it maintain clear, organized, and audit-ready documentation. The RFQual places strong emphasis on reporting, file maintenance, coordination with funding agencies, and preparation of required documentation for internal and external use. In our experience, this is especially important for smaller and mid-sized public works programs where multiple funding requirements, contractor submittals, and reporting deadlines must be managed carefully to protect compliance and funding eligibility.

Extension of City Staff

Finally, the City needs a consultant that can function as a practical extension of City staff. The selected team will need to work closely with project managers, contractors, subcontractors, and funding partners while also helping the City communicate expectations clearly, resolve issues early, and maintain forward progress across multiple assignments. We view that as both a technical and a service responsibility.

Key Delivery Considerations

Several delivery considerations will shape successful performance under this contract.

One is the need to align compliance administration with the specific funding and regulatory drivers applicable to each task order. Montebello's projects may involve Federal Highway Administration, Caltrans, SCAG, Metro, and other governmental funding sources, each of which may introduce different documentation, reporting, and oversight requirements.

In addition, the City confirmed in the Addendum that federally funded projects may require monitoring for Section 3 and BABA requirements. That means the selected consultant must be prepared to tailor its approach to the particular funding structure and compliance obligations of each assignment rather than applying a one-size-fits-all process.

A related consideration is the need to integrate labor compliance and broader program administration support rather than treating them as separate silos. The RFQual's scope includes not only certified payroll and labor monitoring activities, but also assistance with outreach, planning, coordination, funding applications and reporting, performance tracking, and maintenance of organized program files.

We believe the City will benefit most from a consultant that approaches these responsibilities as part of a single support framework: one that helps the City maintain consistent documentation, clear communication, and defensible compliance records from project initiation through closeout.

Just as important is the need for proactive issue prevention. On public works projects of this type, the most effective compliance programs are not purely reactive. They establish expectations early, educate contractors and subcontractors, identify documentation gaps quickly, and address discrepancies before they develop into larger payment, reporting, or audit issues. We believe Montebello will be best served by a consultant that emphasizes early coordination, contractor guidance, and disciplined follow-through.

Our Approach to Successful Delivery

Cumming Group's approach is built around the idea that compliance and program administration should support project delivery, not slow it down. We approach assignments like these as an extension of public agency staff, combining technical rigor with practical, day-to-day responsiveness.

Establish the Framework Early

For each assignment, we will begin by confirming the project's funding source, labor standards, reporting requirements, applicable wage determinations, key documentation needs, and lines of communication. By clarifying those items at the outset, we can help the City and its contractors move forward with a common understanding of expectations and reduce confusion later in the project lifecycle.

Maintain Active Oversight

Successful compliance administration depends on disciplined review of payrolls, submittals, certifications, and field conditions, supported by regular reporting and direct coordination with the City and project team. Our role is not just to collect documents, but to verify compliance, identify gaps, document findings clearly, and support timely resolution.

Keep Documentation Organized

Because Montebello's assignments may involve multiple funding and reporting obligations, we will focus on maintaining records in a manner that supports monthly monitoring, reimbursement documentation, external reporting, and project closeout. Strong documentation is essential both for day-to-day project management and for protecting the City in the event of later audit or funding review.

Scale Support to the Assignment

Some assignments may require more intensive labor compliance monitoring during active construction, while others may require broader program administration support during planning, funding pursuit, or reporting phases. Our approach is designed to be flexible so that the City receives the level and type of support appropriate to each task order.

This overall philosophy reflects how we have supported other California public agencies on labor compliance and grant or program-support assignments: by combining technical compliance knowledge with practical coordination, responsive communication, and consistent documentation control. That same approach is especially well suited to Montebello's stated need for on-call support across a variety of project types and funding conditions.

Information and Coordination Needed from the City

To support successful delivery, we anticipate needing several categories of information from the City at the beginning of each assignment. At a minimum, we would expect to coordinate with City staff regarding the applicable funding source and compliance requirements; available project documents such as bid packages, specifications, schedules, and contracts; designated City points of contact; contractor and subcontractor information; and any existing reporting formats, file conventions, or agency-specific requirements the City wants us to follow.

We would also expect close coordination with City staff regarding project status, anticipated contractor mobilization, payment milestones, and any issues requiring City direction or escalation. Because the RFQual contemplates support that may begin during planning and funding pursuit, we would similarly coordinate with the City on grant-related documentation needs, reporting expectations, and any required coordination with outside funding partners.

SECTION 4

SUB-CONTRACTORS/ SUB-CONSULTANTS

SECTION 4

SUB-CONTRACTORS/SUB-CONSULTANTS

If your firm works with sub-contractors/subconsultants to perform the services described in the proposed Scope of Work/Statement of Work for the Project, please provide the name, full address for each sub-contractor, as well as the name of a contact person and phone number. If awarded, the City will need to provide written approval for any services offered by any and all sub-contractor/subconsultant.

Cumming Group does not anticipate the use of subcontractors or subconsultants for the services proposed under this contract. All services will be performed by our in-house labor compliance professionals, providing the City with direct accountability, consistency in compliance monitoring, and streamlined communication throughout the duration of each assignment.

SECTION 5

PROPOSED SCOPE OF SERVICES

SECTION 5

PROPOSED SCOPE OF SERVICES

Please provide a proposed Scope of Services, based on the Scope of Work contained in this RFQual; and discuss any ideas for modifying, clarifying, or improving the City's proposed scope of work.

Cumming Group will provide flexible, on-call labor compliance and program administration support services tailored to the specific needs of each project or program assignment issued by the City. Based on the RFQual, we understand that these services may be requested through task orders, requests for service/proposal, or direct project assignments, and that the level of effort may vary depending on project type, funding source, delivery stage, and compliance requirements. Our proposed scope is therefore intended to reflect the range of services we will provide under this on-call contract rather than a fixed level of effort for any one defined project.

We also understand from Addendum No. 1 that respondents are to provide fully burdened hourly rates at the SOQ stage, with assignment-specific cost proposals to be prepared after award as projects and programs are issued. Accordingly, the scope below is organized around the service areas identified in the RFQual and the manner in which we anticipate supporting the City across planning, preconstruction, active monitoring, reporting, and closeout.

Pre-Bid and Preconstruction Compliance Support

Cumming Group will support the City at the outset of each assignment by helping establish the labor compliance framework applicable to the specific project or program. This will include review of available bid and contract documentation, confirmation of applicable labor requirements, and coordination with City staff and contractors regarding expectations for compliance and reporting.

Our services during this phase may include:

- Reviewing bid packages to confirm inclusion of required wage determinations, reporting forms, and labor compliance provisions
- Obtaining and confirming applicable State and Federal prevailing wage information based on the project funding source
- Preparing labor compliance checklists, contractor guidance materials, and startup documentation
- Participating in preconstruction meetings with City staff, prime contractors, and subcontractors to address labor compliance requirements
- Providing one-on-one training and technical assistance regarding certified payroll reporting, required compliance forms, apprentice documentation, and other project-specific labor standards requirements

This early support is intended to reduce confusion during construction, establish clear expectations from the beginning, and help the City and contractor team start each assignment with a shared understanding of applicable compliance obligations.

Contractor and Subcontractor Compliance Monitoring

During active project delivery, Cumming Group will provide ongoing labor compliance monitoring services to help the City maintain compliance with applicable State, Federal, and funding-source requirements. We will review contractor and subcontractor documentation in a timely and organized manner and work proactively to identify deficiencies, document issues, and support resolution.

Our services may include:

- Reviewing weekly or periodic Certified Payroll Reports and related eDocuments
- Verifying prevailing wage payment, overtime compliance, fringe benefit reporting, and worker classifications
- Reviewing Statements of Compliance and other required contractor labor forms for completeness and accuracy
- Confirming contractor and subcontractor registration with the Department of Industrial Relations

- Confirming that contractor and subcontractor licenses are current and active
- Verifying that firms are not listed on the federal debarment list, where applicable
- Identifying deficiencies, discrepancies, or missing documentation and promptly notifying the contractor
- Tracking responses, corrections, and outstanding items through resolution

Our objective here is not simply to collect compliance documents, but to help the City maintain a monitoring process that is timely, defensible, and practical to administer across multiple assignments.

Jobsite Interviews, Contractor Support, and Discrepancy Resolution

Cumming Group will conduct on-site worker interviews and related field verification activities throughout the duration of each assignment, as appropriate to project scope and funding requirements. These activities are intended to confirm consistency between field conditions and contractor-submitted payroll and compliance records and to support early identification of potential labor issues.

When discrepancies are identified regarding wages, benefits, classifications, apprenticeship compliance, or other labor requirements, we will work directly with the contractor to resolve the issue in an expedient and well-documented manner. We will provide City staff and the project manager with clear documentation of the issue, the actions taken to address it, and the final resolution. Where needed, we will also support the City with recommendations regarding further corrective action, follow-up review, or documentation needed to support compliance enforcement.

We also view contractor education and technical assistance as part of effective compliance administration. In our experience, many recurring deficiencies can be minimized by establishing expectations early, providing practical guidance on forms and reporting requirements, and maintaining open communication throughout the assignment. We will therefore remain available to help contractors and subcontractors understand submission expectations, address documentation questions, and correct issues before they become larger compliance problems.

Monthly Reporting, Progress Support, and Closeout Documentation

Cumming Group will prepare and distribute regular labor compliance reporting to help the City maintain visibility into project status, contractor compliance, outstanding issues, and required follow-up actions. Our reporting will be structured to provide City staff with practical day-to-day information while also supporting funding oversight and future audit review.

Our services may include:

- Preparing monthly labor compliance audit reports or status summaries
- Summarizing contractor and subcontractor compliance status, outstanding discrepancies, and corrective actions
- Tracking recurring issues, unresolved items, and risk areas requiring City attention
- Assisting the City, as requested, with documentation associated with progress payment review
- Preparing summary information and supporting records for internal or external reporting purposes

At project closeout, we will provide the City with complete documentation and correspondence related to the construction project, including organized records of payrolls, field interviews, notices, contractor forms, and final compliance materials. Our goal will be to leave the City with a complete and well-organized record of each assignment rather than a collection of disconnected files.

Program Administration and Funding Support

In addition to labor compliance monitoring, Cumming Group will support the City in the broader administration of funded projects and programs. We understand this to be a key component of the RFQual and one that extends beyond construction-phase compliance alone. Depending on the nature of the assignment, our services may begin during the planning period and continue through reporting and closeout.

These services may include:

- Assisting with outreach associated with the project or program
- Supporting planning, coordination, and administrative processes associated with City projects
- Preparing materials and supporting documentation for project funding applications, submittals, and reporting
- Supporting the City in tracking program performance and maintaining required documentation for internal and external reporting
- Coordinating with City staff, contractors, and funding agencies regarding documentation, reporting requirements, and compliance obligations
- Preparing program reports, summaries, and required supporting documentation
- Assisting in monitoring compliance with applicable regulations, grant conditions, and funding requirements

Where assignments involve State or Federal funding, our team will help the City maintain clear linkage between project activity, labor documentation, and funding-related reporting requirements.

As needed, we will assist with assembling backup materials, maintaining organized support files, and preparing summaries that can be used for reimbursement support, progress reporting, or agency review. This integrated approach is intended to help the City protect funding eligibility while reducing administrative burden on City staff.

Records Management and Audit-Ready File Maintenance

Cumming Group will maintain organized records and project files throughout the duration of each assignment. Our goal will be to help the City maintain consistent, accessible, and audit-ready documentation across both labor compliance and broader program administration activities.

This may include tracking payroll records, compliance forms, correspondence, contractor submittals, interview records, monthly reports, and supporting funding documentation in a structured manner that aligns with project and program needs. We understand that the City does not currently maintain its own labor compliance tracking system, so we will furnish the organizational discipline and documentation controls needed to support each assignment effectively.

Our records-management approach will emphasize:

- Consistency in documentation and filing practices
- Timely capture of correspondence and compliance activity
- Clear organization of supporting materials for monthly reporting and closeout
- Retrieval of records in the event of audit, funding review, or internal follow-up

Additional Assignment-Specific Services

Cumming Group understands that certain assignments may involve additional requirements depending on project size, funding source, or contract terms. As applicable, we will support assignment-specific needs such as:

- Project Labor Agreement administration for projects that trigger PLA requirements
- Additional Federal compliance monitoring, including Section 3 and Build America, Buy America (BABA) requirements
- Agency-specific reporting or documentation obligations associated with funding partners such as FHWA, Caltrans, Metro, SCAG, HUD, or other applicable agencies
- Additional contractor education, working sessions, or closeout coordination needed to resolve complex compliance issues

Suggested Scope Modifications or Improvements

Cumming Group generally finds the City's proposed scope to be comprehensive and well aligned with the City's stated objectives. To support efficient implementation under an on-call bench structure, we offer the following suggested refinements:

- **Clarify assignment-specific service combinations.** Because the RFQual combines labor compliance and program administration support, we recommend clarifying at the task-order stage whether a given assignment will require labor compliance services only, program administration support only, or an integrated combination of both. This will help align staffing, level of effort, and deliverables to the City's needs for each assignment.
- **Establish assignment-specific deliverables at task-order kickoff.** We recommend that each task order confirm the applicable funding source, reporting requirements, required deliverables, and project-specific compliance obligations at the outset. This will help ensure that documentation, reporting cadence, and consultant support are appropriately tailored to each assignment.
- **Standardize documentation and reporting expectations across assignments.** Because the City does not currently maintain its own labor compliance tracking system, we recommend establishing consistent file organization, reporting formats, and documentation protocols at contract startup. This will promote continuity across multiple assignments and support clear, audit-ready records over the life of the contract.

Cumming Group's proposed scope is intended to provide the City of Montebello with responsive, organized, and scalable support across the full range of services contemplated by the RFQual. Our team will tailor each assignment to the City's project type, funding structure, and reporting requirements while maintaining a consistent focus on compliance, documentation quality, and practical support to City staff.

CONFLICT OF INTEREST STATEMENT

SECTION 6

CONFLICT OF INTEREST STATEMENT

The vendor shall disclose any financial, business, or other relationship with the City that may have an impact upon the selection process. If the vendor does not have any such conflicts, a statement declaring such should be included in their submission.

Cumming Group **does not** have any financial, business, or other relationship with the City that may have an impact upon the selection process.

SECTION 7

COST PROPOSAL

SECTION 7

COST PROPOSAL

From Addendum No. 1: The cost proposal to be submitted for this RFQual shall include a fully burdened hourly rate for each position held within each firm applicable to labor compliance and program administration support services. Once consultant is awarded an agreement, the City shall request task orders, and consultant shall generate cost proposals for various projects and programs based on the cost proposal hourly rate.

Cumming Management Group, Inc. ("Cumming Group") is pleased to submit our Fee Proposal for Labor Compliance and Program Administration Support Services to the City of Montebello ("City"). Cumming Group supports several local public agencies and recognizes the need for the highest quality services at economical cost. We are flexible, and willing to work within your budget to provide these services and would be happy to engage in a discussion with the City regarding our proposed costs.

Proposed Hourly Rates

Cumming Group's proposed compensation structure is based on time and materials. From our experience, we have found that this compensation model traditionally provides our clients with the most flexibility, cost effectiveness, and the ability to expeditiously mobilize resources to address any immediate project needs. We present the following hourly rates for all anticipated team members to provide the aforementioned services on an as-needed, as-requested basis in support of the City's projects:

CLASSIFICATION	HOURLY RATE
Compliance Lead	$150
Compliance Director	$140
Compliance Manager	$130
Compliance Analyst	$120
Compliance Admin	$110

Cumming Group acknowledges that our hourly rates are fully burdened, including full compensation for all overhead and profit. Furthermore, our billing rates include provision for normal office costs, including, but not limited to; office rental, utilities, insurance, cell phone or radio, equipment, normal supplies and materials, in-house reproduction services, and local travel costs.

Not-to-Exceed Fee

In accordance with the solicitation, Cumming Group acknowledges that once a specific project has been identified, the City and the consultant shall negotiate a not-to-exceed fee (or fixed rate) proposal for each project, based on the project's scope and duration and using the consultant's proposed hourly rates. At that time, Cumming Group would be happy to submit a fee schedule for the tasks involved, broken down per task and hours, along with a schedule of current hourly rates for applicable personnel and any reimbursable expenses.

Reimbursable Expenses

Cumming Group affirms that all costs associated with printing, mileage, telephone, mailing, and other incidental expenses related to the performance of services are fully included in the hourly rates provided in the fee proposal.

Cumming Group Overview

Cumming Management Group, Inc. ("Cumming Group") is a California-founded construction and project management consultancy with three decades of experience supporting public agencies throughout Southern California. Since 1996, we have partnered with cities, counties, transportation agencies, utility providers, school districts, and other public-sector owners to deliver specialized support across capital programs and public works projects, including labor compliance, PLA/CWA administration, contractor outreach, and broader program administration services.

Today, Cumming Group includes more than 3,000 professionals across approximately 70 offices worldwide, combining the depth and resources of a large organization with the responsiveness of a locally focused public-sector team. Our Southern California presence includes offices in Los Angeles, Hermosa Beach, Aliso Viejo, Murrieta, and San Diego, allowing us to provide responsive, on-call support to clients throughout Los Angeles County, the Inland Empire, Orange County, and surrounding regions. This local footprint enables us to mobilize quickly while drawing on the experience of a broader regional team with deep expertise in prevailing wage compliance, certified payroll review, apprenticeship monitoring, funding-related documentation, and project records management.

Our labor compliance professionals have supported a wide range of publicly funded projects, including roadway and street improvements, traffic and pedestrian enhancements, utility and water infrastructure, parks and recreation improvements, public facilities, and other municipal capital projects. This experience includes assignments for clients such as the City of Menifee, City of Murrieta, City of Pomona, City of Irvine, City of Long Beach, Long Beach Utilities, County of Imperial, County of San Bernardino, and San Bernardino Transportation Authority. Across these assignments, our team has helped public agencies maintain compliance with State and Federal prevailing wage requirements, administer project labor obligations, resolve payroll and documentation issues, and support clear, audit-ready project records.

For the City of Montebello, Cumming Group will provide a dedicated in-house team focused on labor compliance and program administration support. Our approach is grounded in responsiveness, consistency, and practical coordination with City staff, contractors, subcontractors, and funding partners. We understand that on-call support must be both technically strong and easy to work with, and we are committed to providing services that help the City maintain compliance, protect funding, and move projects forward efficiently.

Team Roles and Responsibilities

Cumming Group's proposed organization is designed to provide the City of Montebello with clear lines of responsibility, responsive communication, and the flexibility to scale support based on assignment needs. The team combines senior oversight, day-to-day compliance leadership, project-level execution, and administrative support so that each assignment is staffed appropriately and delivered efficiently. This structure is adapted from how we have presented and deployed labor compliance teams on similar on-call public works assignments.

Eileen Ta, Compliance Lead

Eileen Ta will serve as the City's Compliance Lead and primary point of contact for labor compliance and program administration support services. She will provide overall leadership for the assignment, oversee coordination with City staff, and ensure that services are delivered in accordance with applicable labor standards, funding requirements, and City expectations. Eileen will also guide reporting, documentation, and quality control efforts across all assigned projects and programs.

Toby Bautista, Compliance Director

Toby Bautista will provide senior technical oversight for labor compliance implementation. She will support interpretation of prevailing wage requirements, certified payroll compliance, apprenticeship documentation, PLA-related obligations, and discrepancy resolution. Toby will also assist with quality assurance, contractor guidance, and issue escalation to help ensure that compliance activities are administered consistently and thoroughly across assignments. This role is closely aligned with the technical oversight position described in the Corona proposal.

Randy Munoz, Compliance Manager

Randy Munoz will support project-level implementation of labor compliance services, including payroll and document review, field verification support, contractor coordination, and assistance with PLA- and workforce-related requirements where applicable. He will work closely with the Compliance Lead and Compliance Director to help monitor assignment progress, communicate with project stakeholders, and maintain timely follow-through on compliance issues.

Mason Lutz, Compliance Analyst

Mason Lutz will support day-to-day compliance administration, including review of contractor submissions, tracking of required forms and documentation, coordination of records, and assistance with reporting. He will help verify compliance with State and Federal labor requirements and support the team's efforts to maintain organized, accurate, and defensible project documentation.

Rhonda Nguyen, Compliance Administrator

Rhonda Nguyen will provide administrative and documentation support across active assignments. Her responsibilities will include file maintenance, tracking of forms and correspondence, support for preconstruction and closeout coordination, assistance with report assembly, and general administrative support needed to keep each assignment organized and responsive. As reflected in similar go-bys, this role is important to maintaining continuity, documentation control, and smooth communication across multiple on-call assignments.

No additional compensation will be paid to CONSULTANT, unless there is a change in the scope of the work or the scope of the project. In the instance of a change in the scope of work or scope of the project, adjustment to the total lump sum compensation will be negotiated between CONSULTANT and LOCAL AGENCY. Adjustment in the total lump sum compensation will not be effective until authorized by AGREEMENT amendment and approved by LOCAL AGENCY.

B. Progress payments may be made monthly in arrears based on the percentage of work completed by CONSULTANT. Upon termination, LOCAL AGENCY shall be entitled to all work, including but not limited to, reports, investigations, appraisals, inventories, studies, analyses, drawings and data estimates performed to that date, whether completed or not.

B. LOCAL AGENCY may temporarily suspend this AGREEMENT, at no additional cost to LOCAL AGENCY, provided that CONSULTANT is given written notice (delivered by certified mail, return receipt requested) of temporary suspension. If LOCAL AGENCY gives such notice of temporary suspension, CONSULTANT shall immediately suspend its activities under this AGREEMENT. A temporary suspension may be issued concurrent with the notice of termination.

C. Notwithstanding any provisions of this AGREEMENT, CONSULTANT shall not be relieved of liability to LOCAL AGENCY for damages sustained by LOCAL AGENCY by virtue of any breach of this AGREEMENT by CONSULTANT, and LOCAL AGENCY may withhold any payments due to CONSULTANT until such time as the exact amount of damages, if any, due LOCAL AGENCY from CONSULTANT is determined.

D. In the event of termination, CONSULTANT shall be compensated as provided for in this AGREEMENT. Upon termination, LOCAL AGENCY shall be entitled to all work, including but not limited to, reports, investigations, appraisals, inventories, studies, analyses, drawings and data estimates performed to that date, whether completed or not.

ARTICLE VII COST PRINCIPLES AND ADMINISTRATIVE REQUIREMENTS

A. The CONSULTANT agrees that 48 CFR 31, Contract Cost Principles and Procedures, shall be used to determine the allowability of individual terms of cost.

B. The CONSULTANT also agrees to comply with Federal procedures in accordance with 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

C. Any costs for which payment has been made to the CONSULTANT that are determined by subsequent audit to be unallowable under 48 CFR 31 or 2 CFR 200 are subject to repayment by the CONSULTANT to LOCAL AGENCY.

D. When a CONSULTANT or Subconsultant is a Non-Profit Organization or an Institution of Higher Education, the Cost Principles for Title 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards shall apply.

ARTICLE VIII RETENTION OF RECORD/AUDITS

For the purpose of determining compliance with Gov. Code § 8546.7, the CONSULTANT, Subconsultants, and LOCAL AGENCY shall maintain all books, documents, papers, accounting records, Independent CPA Audited Indirect Cost Rate workpapers, and other evidence pertaining to the performance of the AGREEMENT including, but not limited to, the costs of administering the AGREEMENT. All parties, including the CONSULTANT's Independent CPA, shall make such workpapers and materials available at their respective offices at all reasonable times during the AGREEMENT period and for three (3) years from the date of final payment under the AGREEMENT and records for real property and equipment acquired with federal funds must be retained for three (3) years after final disposition. LOCAL AGENCY, Caltrans Auditor, FHWA, or any duly authorized representative of the Federal government having jurisdiction under Federal laws or regulations (including the basis of Federal funding in whole or in part) shall have access to any books, records, and documents of the CONSULTANT, Subconsultants, and the CONSULTANT's Independent CPA, that are pertinent to the AGREEMENT for audits, examinations, workpaper review, excerpts, and transactions, and copies thereof shall be furnished if requested without limitation.

ARTICLE IX AUDIT REVIEW PROCEDURES

A. Any dispute concerning a question of fact arising under an interim or post audit of this AGREEMENT that is not disposed of by AGREEMENT, shall be reviewed by LOCAL AGENCY'S Chief Financial Officer.

B. Not later than thirty (30) calendar days after issuance of the final audit report, CONSULTANT may request a review by LOCAL AGENCY'S Chief Financial Officer of unresolved audit issues. The request for review will be submitted in writing.

C. Neither the pendency of a dispute nor its consideration by LOCAL AGENCY will excuse CONSULTANT from full and timely performance, in accordance with the terms of this AGREEMENT.

D. CONSULTANT and subconsultant AGREEMENTs, including cost proposals and Indirect Cost Rates (ICR), may be subject to audits or reviews such as, but not limited to, an AGREEMENT audit, an incurred cost audit, an ICR Audit, or a CPA ICR audit work paper review. If selected for audit or review, the AGREEMENT, cost proposal and ICR and related work papers, if applicable, will be reviewed to verify compliance with 48 CFR 31 and other related laws and regulations. In the instances of a CPA ICR audit work paper review it is CONSULTANT's responsibility to ensure federal, LOCAL AGENCY, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. The AGREEMENT, cost proposal, and ICR shall be adjusted by CONSULTANT and approved by LOCAL AGENCY Contract Administrator to conform to the audit or review recommendations. CONSULTANT agrees that individual terms of costs identified in the audit report shall be incorporated into the AGREEMENT by this reference if directed by LOCAL AGENCY at its sole discretion. Refusal by CONSULTANT to incorporate audit or review recommendations, or to ensure that the federal, LOCAL AGENCY or local governments have access to CPA work papers, will be considered a breach of AGREEMENT terms and cause for termination of the AGREEMENT and disallowance of prior reimbursed costs.

E. CONSULTANT's Cost Proposal may be subject to a CPA ICR Audit Work Paper Review and/or audit by the Independent Office of Audits and Investigations (IOAI). IOAI, at its sole discretion, may review and/or audit and approve the CPA ICR documentation. The Cost Proposal shall be adjusted by the CONSULTANT and approved by the LOCAL AGENCY Contract Administrator to conform to the Work Paper Review recommendations included in the management letter or audit recommendations included in the audit report. Refusal by the CONSULTANT to incorporate the Work Paper Review recommendations included in the management letter or audit recommendations included in the audit report will be considered a breach of the AGREEMENT terms and cause for termination of the AGREEMENT and disallowance of prior reimbursed costs.

   1. During IOAI's review of the ICR audit work papers created by the CONSULTANT's independent CPA, IOAI will work with the CPA and/or CONSULTANT toward a resolution of issues that arise during the review. Each party agrees to use its best efforts to resolve any audit disputes in a timely manner. If IOAI identifies significant issues during the review and is unable to issue a cognizant approval letter, LOCAL AGENCY will reimburse the CONSULTANT at an accepted ICR until a FAR (Federal Acquisition Regulation) compliant ICR (e.g. 48 CFR Part 31; GAGAS (Generally Accepted Auditing Standards); CAS (Cost Accounting Standards), if applicable; in accordance with procedures and guidelines of the American Association of State Highways and Transportation Officials (AASHTO) Audit Guide; and other applicable procedures and guidelines) is received and approved by IOAI.

Accepted rates will be as follows:

a. If the proposed rate is less than one hundred fifty percent (150%) - the accepted rate reimbursed will be ninety percent (90%) of the proposed rate.

b. If the proposed rate is between one hundred fifty percent (150%) and two hundred percent (200%) - the accepted rate will be eighty-five percent (85%) of the proposed rate.

c. If the proposed rate is greater than two hundred percent (200%) - the accepted rate will be seventy-five percent (75%) of the proposed rate.

2. If IOAI is unable to issue a cognizant letter per paragraph E.1. above, IOAI may require CONSULTANT to submit a revised independent CPA-audited ICR and audit report within three (3) months of the effective date of the management letter. IOAI will then have up to six (6) months to review the CONSULTANT's and/or the independent CPA's revisions.

3. If the CONSULTANT fails to comply with the provisions of this paragraph E, or if IOAI is still unable to issue a cognizant approval letter after the revised independent CPA audited ICR is submitted, overhead cost reimbursement will be limited to the accepted ICR that was established upon initial rejection of the ICR and set forth in paragraph E.1. above for all rendered services. In this event, this accepted ICR will become the actual and final ICR for reimbursement purposes under this AGREEMENT.

4. CONSULTANT may submit to LOCAL AGENCY final invoice only when all of the following items have occurred: (1) IOAI accepts or adjusts the original or revised independent CPA audited ICR; (2) all work under this AGREEMENT has been completed to the satisfaction of LOCAL AGENCY; and, (3) IOAI has issued its final ICR review letter. The CONSULTANT MUST SUBMIT ITS FINAL INVOICE TO LOCAL AGENCY no later than sixty (60) calendar days after occurrence of the last of these items. The accepted ICR will apply to this AGREEMENT and all other agreements executed between LOCAL AGENCY and the CONSULTANT, either as a prime or subconsultant, with the same fiscal period ICR.

ARTICLE X SUBCONTRACTING

A. Nothing contained in this AGREEMENT or otherwise, shall create any contractual relation between the LOCAL AGENCY and any Subconsultants, and no subagreement shall relieve the CONSULTANT of its responsibilities and obligations hereunder. The CONSULTANT agrees to be as fully responsible to the LOCAL AGENCY for the acts and omissions of its Subconsultants and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the CONSULTANT. The CONSULTANT's obligation to pay its Subconsultants is an independent obligation from the LOCAL AGENCY's obligation to make payments to the CONSULTANT.

B. The CONSULTANT shall perform the work contemplated with resources available within its own organization and no portion of the work shall be subcontracted without written authorization by the LOCAL AGENCY Contract Administrator, except that which is expressly identified in the CONSULTANT's approved Cost Proposal.

C. Any subagreement entered into as a result of this AGREEMENT, shall contain all the provisions stipulated in this entire AGREEMENT to be applicable to Subconsultants unless otherwise noted.

~~D. CONSULTANT shall pay its Subconsultants within Fifteen (15) calendar days from receipt of each payment made to the CONSULTANT by the LOCAL AGENCY.~~

D. Any substitution of Subconsultants must be approved in writing by the LOCAL AGENCY Contract Administrator in advance of assigning work to a substitute Subconsultant.

E. Prompt Progress Payment

CONSULTANT or subconsultant shall pay to any subconsultant, not later than fifteen (15) days after receipt of each progress payment, unless otherwise agreed to in writing, the respective amounts allowed CONSULTANT on account of the work performed by the subconsultants, to the extent of each subconsultant's interest therein. In the event that there is a good faith dispute over all or any portion of the amount due on a progress payment from CONSULTANT or subconsultant to a subconsultant, CONSULTANT or subconsultant may withhold no more than 150 percent of the disputed amount. Any violation of this requirement shall constitute a cause for disciplinary action and shall subject the licensee to a penalty, payable to the subconsultant, of 2 percent of the amount due per month for every month that payment is not made.

In any action for the collection of funds wrongfully withheld, the prevailing party shall be entitled to his or her attorney's fees and costs. The sanctions authorized under this requirement shall be separate from, and in addition to, all other remedies, either civil, administrative, or criminal. ~~This clause applies to both DBE and non-DBE subconsultants.~~

CONSULTANT must submit Exhibit 9-P to the LOCAL AGENCY administering the contract by the 15th of the month following the month of any payment(s). If the CONSULTANT does not make any payments to subconsultants, supplier(s), and/or manufacturers they must report "no payments were made to subs this month" and write this visibly and legibly on Exhibit 9-P.

The LOCAL AGENCY must verify all Exhibit 9-P information, monitor compliance with prompt payment requirements for DBE and non-DBE firms, and address any shortfalls to the DBE commitment and prompt payment issues until the end of the project. The LOCAL AGENCY must email a copy of Exhibit 9-P to DBE.Forms@dot.ca.gov before the end of the month after receiving the Exhibit 9-P from the CONSULTANT.

F. Prompt Payment of Withheld Funds to Subconsultants

Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions, and other remedies specified in Section 3321 of the California Civil Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies, otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT, deficient subconsultant performance and/or noncompliance by a subconsultant. This clause applies to both DBE and non-DBE subconsultants.

Method 2: No retainage will be held by the LOCAL AGENCY from progress payments due to CONSULTANT. Any retainage kept by CONSULTANT or by a subconsultant must be paid in full to the earning subconsultant within 15 days after the subconsultant's work is satisfactorily completed. Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions, and remedies specified in Section 3321 of the California Civil Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies, otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT, deficient subconsultant performance and/or noncompliance by a subconsultant. This clause applies to both DBE and non-DBE subconsultants.

Method 3: The LOCAL AGENCY shall hold retainage from CONSULTANT and shall make prompt and regular incremental acceptances of portions, as determined by the LOCAL AGENCY of the contract work and pay retainage to CONSULTANT based on these acceptances. CONSULTANT or subconsultant shall return all monies withheld in retention from all subconsultants within 15 days after receiving payment for work satisfactorily completed and accepted including incremental acceptances of portions of the contract work by the LOCAL AGENCY. Any delay or postponement of payment may take place only for good cause and with the LOCAL AGENCY's prior written approval. Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions, and other remedies specified in Section 3321 of the California Civil Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT; deficient subconsultant performance and/or noncompliance by a subconsultant. This clause applies to both DBE and non-DBE subconsultants.

Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions and other remedies specified therein. These requirements shall not be construed to limit or impair any contractual, administrative, or judicial remedies otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT, deficient subcontract performance, or noncompliance by a subconsultant.

ARTICLE XI EQUIPMENT PURCHASE AND OTHER CAPITAL EXPENDITURES

A. Prior authorization in writing by LOCAL AGENCY's Contract Administrator shall be required before CONSULTANT enters into any unbudgeted purchase order, or subcontract exceeding five thousand dollars ($5,000) for supplies, equipment, or CONSULTANT services. CONSULTANT shall provide an evaluation of the necessity or desirability of incurring such costs.

B. For purchase of any item, service, or consulting work not covered in CONSULTANT's approved Cost Proposal and exceeding five thousand dollars ($5,000), with prior authorization by LOCAL AGENCY's Contract Administrator, three competitive quotations must be submitted with the request, or the absence of proposal must be adequately justified.

If the purchased equipment needs replacement and is sold or traded in, LOCAL AGENCY shall receive a proper refund or credit at the conclusion of the AGREEMENT, or if the AGREEMENT is terminated, CONSULTANT may either keep the

equipment and credit LOCAL AGENCY in an amount equal to its fair market value, or sell such equipment at the best price obtainable at a public or private sale, in accordance with established LOCAL AGENCY procedures; and credit LOCAL AGENCY in an amount equal to the sales price. If CONSULTANT elects to keep the equipment, fair market value shall be determined at CONSULTANT's expense, on the basis of a competent independent appraisal of such equipment. Appraisals shall be obtained from an appraiser mutually agreeable to by LOCAL AGENCY and CONSULTANT, if it is determined to sell the equipment, the terms and conditions of such sale must be approved in advance by LOCAL AGENCY.

2. Regulation 2 CFR 200 requires a credit to Federal funds when participating equipment with a fair market value greater than five thousand dollars ($5,000) is credited to the project.

ARTICLE XII STATE PREVAILING WAGE RATES

    a. The information contained in the payroll record is true and correct.

    b. The employer has complied with the requirements of Labor Code §1771, §1811, and §1815 for any work performed by his or her employees on the public works project.

2. The payroll records enumerated under paragraph (1) above shall be certified as correct by the CONSULTANT under penalty of perjury. The payroll records and all supporting documents shall be made available for inspection and copying by LOCAL AGENCY representatives at all

3. Each CONSULTANT shall submit a certified copy of the records enumerated in paragraph (1) above, to the entity that requested the records within ten (10) calendar days after receipt of a written request.

4. Any copy of records made available for inspection as copies and furnished upon request to the public or any public agency by LOCAL AGENCY shall be marked or obliterated in such a manner as to prevent disclosure of each individual's name, address, and social security number. 5. The CONSULTANT shall inform LOCAL AGENCY of the location of the records enumerated under paragraph (1) above, including the street address, city and county, and shall, within five (5) working days, provide a notice of a change of location and address.

Such penalties shall be withheld by LOCAL AGENCY from payments then due. CONSULTANT is not subject to a penalty assessment pursuant to this section due to the failure of a Subconsultant to comply with this section.

Pursuant to Labor Code §1775, the CONSULTANT and any Subconsultant shall forfeit to the LOCAL AGENCY a penalty of not more than two hundred dollars ($200) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the Director of DIR for the work or craft in which the worker is employed for any public work done under the AGREEMENT by the CONSULTANT or by its Subconsultant in

violation of the requirements of the Labor Code and in particular, Labor Code §§1770 to 1780, inclusive.

2. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of mistake, inadvertence, or neglect of the CONSULTANT or Subconsultant in failing to pay the correct rate of prevailing wages, or the previous record of the CONSULTANT or Subconsultant in meeting their respective prevailing wage obligations, or the willful failure by the CONSULTANT or Subconsultant to pay the correct rates of prevailing wages. A mistake, inadvertence, or neglect in failing to pay the correct rates of prevailing wages is not excusable if the CONSULTANT or Subconsultant had knowledge of the obligations under the Labor Code. The CONSULTANT is responsible for paying the appropriate rate, including any escalations that take place during the term of the AGREEMENT.

3. In addition to the penalty and pursuant to Labor Code §1775, the difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the CONSULTANT or Subconsultant.

4. If a worker employed by a Subconsultant on a public works project is not paid the general prevailing per diem wages by the Subconsultant, the CONSULTANT of the project is not liable for the penalties described above unless the CONSULTANT had knowledge of that failure of the Subconsultant to pay the specified prevailing rate of wages to those workers or unless the CONSULTANT fails to comply with all of the following requirements:

    a. The AGREEMENT executed between the CONSULTANT and the Subconsultant for the performance of work on public works projects shall include a copy of the requirements in Labor Code §§ 1771, 1775, 1776, 1777.5, 1813, and 1815.

    b. The CONSULTANT shall monitor the payment of the specified general prevailing rate of per diem wages by the Subconsultant to the employees by periodic review of the certified payroll records of the Subconsultant.

    c. Upon becoming aware of the Subconsultant's failure to pay the specified prevailing rate of wages to the Subconsultant's workers, the CONSULTANT shall diligently take corrective action to halt or rectify the failure, including but not limited to, retaining sufficient funds due the Subconsultant for work performed on the public works project.

    d. Prior to making final payment to the Subconsultant for work performed on the public works project, the CONSULTANT shall obtain an affidavit signed under penalty of perjury from the Subconsultant that the Subconsultant had paid the specified general prevailing rate of per diem wages to the Subconsultant's employees on the public works project and any amounts due pursuant to Labor Code §1813.

5. Pursuant to Labor Code §1775, LOCAL AGENCY shall notify the CONSULTANT on a public works project within fifteen (15) calendar days of receipt of a complaint that a Subconsultant has failed to pay workers the general prevailing rate of per diem wages.

6. If LOCAL AGENCY determines that employees of a Subconsultant were not paid the general prevailing rate of per diem wages and if LOCAL AGENCY did not retain sufficient money under the AGREEMENT to pay those employees the balance of wages owed under the general prevailing rate of per diem wages, the CONSULTANT shall withhold an amount of moneys due the Subconsultant sufficient to pay those employees the general prevailing rate of per diem wages if requested by LOCAL AGENCY.

G. Hours of Labor

Eight (8) hours labor constitutes a legal day's work. The CONSULTANT shall forfeit, as a penalty to the LOCAL AGENCY, twenty-five dollars ($25) for each worker employed in the execution of the AGREEMENT by the CONSULTANT or any of its Subconsultants for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one calendar day and forty (40) hours in any one calendar week in violation of the provisions of the Labor Code, and in particular §§1810 to 1815 thereof, inclusive, except that work performed by employees in excess of eight (8) hours per day, and forty (40) hours during any one week, shall be permitted upon compensation for all hours worked in excess of eight (8) hours per day and forty (40) hours in any week, at not less than one and one-half (1.5) times the basic rate of pay, as provided in §1815.

ARTICLE XIV REBATES, KICKBACKS OR OTHER UNLAWFUL CONSIDERATION

The CONSULTANT warrants that this AGREEMENT was not obtained or secured through rebates, kickbacks or other unlawful consideration either promised or paid to any LOCAL AGENCY employee. For breach or violation of this warranty, LOCAL AGENCY shall have the right, in its discretion, to terminate this AGREEMENT without liability, to pay only for the value of the work actually performed, or to deduct from this AGREEMENT price or otherwise recover the full amount of such rebate, kickback or other unlawful consideration.

ARTICLE XV PROHIBITION OF EXPENDING LOCAL AGENCY, STATE, OR FEDERAL FUNDS FOR LOBBYING

[*Include this article in all AGREEMENTs where federal funding will exceed ~~$150,000~~ $100,000. If less than ~~$150,000~~ $100,000 in federal funds will be expended on the AGREEMENT, delete this article and re-number the subsequent articles.*]

A. The CONSULTANT certifies, to the best of his or her knowledge and belief, that:

Any person who fails to file the required certification shall be subject to a civil penalty of not less than ten thousand dollars ($10,000) and not more than one hundred thousand dollars ($100,000) for each such failure.

C. The CONSULTANT also agrees by signing this document that he or she shall require that the language of this certification be included in all lower tier subagreements, which exceed one hundred thousand dollars ($100,000), and that all such subrecipients shall certify and disclose accordingly.

ARTICLE XVI NON-DISCRIMINATION CLAUSE AND STATEMENT OF COMPLIANCE

ARTICLE XVII DEBARMENT AND SUSPENSION CERTIFICATION

A. The CONSULTANT's signature affixed herein shall constitute a certification under penalty of perjury under the laws of the State of California, that the CONSULTANT or any person associated therewith in the capacity of owner, partner, director, officer or manager:

C. Exceptions to the Federal Government excluded parties (https://sam.gov/content/home) maintained by the U.S. General Services Administration are to be determined by FHWA.

ARTICLE XVIII DISADVANTAGED BUSINESS ENTERPRISES (DBE) ~~PARTICIPATION~~

A. CONSULTANT, ~~subrecipient (LOCAL AGENCY),~~ or subconsultant, shall take necessary and reasonable steps to ensure that DBEs have opportunities to participate in the contract (49 CFR 26). ~~To ensure equal participation of DBEs provided in 49 CFR 26.5, the LOCAL AGENCY shows a contract goal for DBEs. CONSULTANT shall make work available to DBEs and select work parts consistent with available DBE subconsultants and suppliers.~~

~~CONSULTANT shall meet the DBE goal shown elsewhere in these special provisions or demonstrate that they made adequate Good Faith Efforts (GFE) to meet this goal. It is CONSULTANT's responsibility to verify at date of proposal opening that the DBE firm is certified as a DBE by using the California Unified Certification Program (CUCP) database and possesses the most specific available North American Industry Classification System (NAICS) codes and work code applicable to the type of work the firm will perform on the contract. Additionally, the CONSULTANT is responsible to document the verification record by printing out the CUCP data for each DBE firm. A list of DBEs certified by the CUCP can be found at: https://caltrans.dbesystem.com/.~~

~~All DBE participation will count toward the California Department of Transportation's federally mandated statewide overall DBE goal. Credit for materials or supplies CONSULTANT purchases from DBEs counts towards the goal in the following manner:~~

- ~~100 percent counts if the materials or supplies are obtained from a DBE manufacturer.~~
- ~~60 percent counts if the materials or supplies are purchased from a DBE regular dealer.~~
- ~~Only fees, commissions, and charges for assistance in the procurement and delivery of materials or supplies count if obtained from a DBE that is neither a manufacturer nor regular dealer. 49 CFR 26.55 defines "manufacturer" and "regular dealer."~~

~~This AGREEMENT is subject to 49 CFR 26 entitled "Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs". CONSULTANTs who enter into a federally-funded agreement will assist the LOCAL AGENCY in a good faith effort to achieve California's statewide overall DBE goal.~~

~~B. The goal for DBE participation for this AGREEMENT is _____%. Participation by DBE CONSULTANT or subconsultants shall be in accordance with information contained in Exhibit 10-O2: Consultant Contract DBE Commitment attached hereto and incorporated as part of the AGREEMENT. If a DBE subconsultant is unable to perform, CONSULTANT must make a good faith effort to replace him/her with another DBE subconsultant, if the goal is not otherwise met.~~

~~C. CONSULTANT can meet the DBE participation goal by either documenting commitments to DBEs to meet the AGREEMENT goal, or by documenting adequate good faith efforts to meet the AGREEMENT goal. An adequate good faith effort means that the CONSULTANT must show that it took all necessary and reasonable steps to achieve a DBE goal that, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to meet the DBE goal. If CONSULTANT has not met the DBE goal, complete and submit Exhibit 15-H: Proposer/Contractor Good Faith Efforts to document efforts to meet the goal. Refer to 49 CFR 26 for guidance regarding evaluation of good faith efforts to meet the DBE goal.~~

~~D. Contract Assurance~~

In accordance with 49 CFR 26.13(b):

CONSULTANT, ~~subrecipient~~ or subconsultant, shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. CONSULTANT shall carry out applicable requirements of 49 CFR 26 in the award and administration of federal-aid contracts.

Failure by the CONSULTANT to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the LOCAL AGENCY deems appropriate, which may include, but is not limited to:

(1) Withholding monthly progress payments;

(2) Assessing sanctions; and/or

(3) Disqualifying CONSULTANT from future proposing as non-responsible

~~E. Termination and Replacement of DBE Subconsultants~~

~~CONSULTANT shall utilize the specific DBEs listed to perform the work and supply the materials for which each is listed unless CONSULTANT or DBE subconsultant obtains the LOCAL AGENCY's written consent. CONSULTANT shall not terminate or replace a listed DBE for convenience and perform the work with their own forces or obtain materials from other sources without authorization from the LOCAL AGENCY. Unless the LOCAL AGENCY's consent is provided, the CONSULTANT shall not be entitled to any payment for work or material unless it is performed or supplied by the listed DBE on the Exhibit 10-02: Consultant Contract DBE Commitment form.~~

~~Termination of DBE Subconsultants~~

~~After execution of the AGREEMENT, termination of a DBE may be allowed for the following, but not limited to, justifiable reasons with prior written authorization from the LOCAL AGENCY:~~

~~1. Listed DBE fails or refuses to execute a written contract based on plans and specifications for the project.~~

2. The LOCAL AGENCY stipulated that a bond is a condition of executing the subcontract and the listed DBE fails to meet the LOCAL AGENCY's bond requirements.
3. Work requires a consultant's license and listed DBE does not have a valid license under Contractors License Law.
4. Listed DBE fails or refuses to perform the work or furnish the listed materials (failing or refusing to perform is not an allowable reason to remove a DBE if the failure or refusal is a result of bad faith or discrimination).
5. Listed DBE's work is unsatisfactory and not in compliance with the contract.
6. Listed DBE is ineligible to work on the project because of suspension or debarment.
7. Listed DBE becomes bankrupt or insolvent or exhibits credit unworthiness.
8. Listed DBE voluntarily withdraws with written notice from the Contract.
9. Listed DBE is ineligible to receive credit for the type of work required.
10. Listed DBE owner dies or becomes disabled resulting in the inability to perform the work on the Contract.
11. The LOCAL AGENCY determines other documented good cause.

CONSULTANT must use the following procedures to request the termination of a DBE or portion of a DBE's work:

1. Send a written notice to the DBE of the CONSULTANT's intent to use other forces or material sources and include one or more justifiable reasons listed above. Simultaneously send a copy of this written notice to the LOCAL AGENCY. The written notice to the DBE must request they provide any response within five (5) business days to both the CONSULTANT and the LOCAL AGENCY by either acknowledging their agreement or documenting their reasoning as to why the use of other forces or sources of materials should not occur.
2. If the DBE does not respond within five (5) business days, CONSULTANT may move forward with the request as if the DBE had agreed to CONSULTANT's written notice.
3. Submit CONSULTANT's DBE termination request by written letter to the LOCAL AGENCY and include:
    - One or more above listed justifiable reasons along with supporting documentation.
    - CONSULTANT's written notice to the DBE regarding the request, including proof of transmission and tracking documentation of CONSULTANT's written notice
    - The DBE's response to CONSULTANT's written notice, if received. If a written response was not provided, provide a statement to that effect.

The LOCAL AGENCY shall respond in writing to CONSULTANT's DBE termination request within five (5) business days.

Replacement of DBE Subconsultants

After receiving the LOCAL AGENCY's written authorization of DBE termination request, CONSULTANT must obtain the LOCAL AGENCY's written agreement for DBE replacement. CONSULTANT must find or demonstrate GFEs to find qualified DBE replacement firms to perform the work to the extent needed to meet the DBE commitment.

~~The following procedures shall be followed to request authorization to replace a DBE firm:~~

~~1. Submit a request to replace a DBE with other forces or material sources in writing to the LOCAL AGENCY which must include:~~

~~a. Description of remaining uncommitted work item made available for replacement DBE solicitation and participation.~~

~~b. The proposed DBE replacement firm's business information, the work they have agreed to perform, and the following:~~

- ~~Description of scope of work and cost proposal~~
- ~~Proposed subcontract agreement and written confirmation of agreement to perform on the Contract~~
- ~~Revised Exhibit 10-O2: Consultant Contract DBE Commitment~~

~~2. If CONSULTANT has not identified a DBE replacement firm, submits documentation of CONSULTANT's GFEs to use DBE replacement firms within seven (7) days of LOCAL AGENCY's authorization to terminate the DBE. CONSULTANT may request the LOCAL AGENCY's approval to extend this submittal period to a total of 14 days. Submit documentation of actions taken to find a DBE replacement firm, such as:~~

- ~~Search results of certified DBEs available to perform the original DBE work identified and or other work CONSULTANT had intended to self-perform, to the extent needed to meet DBE commitment~~
- ~~Solicitations of DBEs for performance of work identified~~
- ~~Correspondence with interested DBEs that may have included contract details and requirements~~
- ~~Negotiation efforts with DBEs that reflect why an agreement was not reached~~
- ~~If a DBE's quote was rejected, provide reasoning for the rejection, such as why the DBE was unqualified for the work, or why the price quote was unreasonable or excessive~~
- ~~Copies of each DBE's and non-DBE's price quotes for work identified, as the LOCAL AGENCY may contact the firms to verify solicitation efforts and determine if the DBE quotes are substantially higher~~
- ~~Additional documentation that supports CONSULTANT's GFE~~

~~The LOCAL AGENCY shall respond in writing to CONSULTANT's DBE replacement request within five (5) business days.~~

~~F. Commitment and Utilization~~

~~The LOCAL AGENCY's DBE program must include a monitoring and enforcement mechanism to ensure that DBE commitments reconcile to DBE utilization.~~

~~The LOCAL AGENCY shall request CONSULTANT to:~~

~~1. Notify the LOCAL AGENCY's contract administrator or designated representative of any changes to its anticipated DBE participation~~

~~2. Provide this notification before starting the affected work~~

3. Maintain records including:
   - Name and business address of each 1st -tier subconsultant
   - Name and business address of each DBE subconsultant, DBE vendor, and DBE trucking company, regardless of tier
   - Date of payment and total amount paid to each business (see Exhibit 9-F: Monthly Disadvantaged Business Enterprise Payment)

If CONSULTANT is a DBE CONSULTANT, they shall include the date of work performed by their own forces and the corresponding value of the work.
If a DBE is decertified before completing its work, the DBE must notify CONSULTANT in writing of the decertification date. If a business becomes a certified DBE before completing its work, the business must notify CONSULTANT in writing of the certification date. CONSULTANT shall submit the notifications to the LOCAL AGENCY. On work completion, CONSULTANT shall complete Exhibit 17-O: Disadvantaged Business Enterprises (DBE) Certification Status Change and submit the form to the LOCAL AGENCY within 30 days of contract acceptance.

Upon work completion, CONSULTANT shall complete Exhibit 17-F: Final Report – Utilization of Disadvantaged Business Enterprises (DBE), First-Tier Subcontractors and submit it to the LOCAL AGENCY within 90 days of contract acceptance. The LOCAL AGENCY will withhold $10,000 until the form is submitted. The LOCAL AGENCY will release the withhold upon submission of the completed form.

In the LOCAL AGENCY's reports of DBE participation to Caltrans, the LOCAL AGENCY must display both commitments and attainments.

G. Commercially Useful Function

DBEs must perform a commercially useful function (CUF) under 49 CFR 26.55 when performing work or supplying materials listed on the DBE Commitment form. The DBE value of work will only count toward the DBE commitment if the DBE performs a CUF. A DBE performs a CUF when it is responsible for execution of the work of the AGREEMENT and is carrying out its responsibilities by actually performing, managing, and supervising the work involved. To perform a CUF, the DBE must also be responsible, with respect to materials and supplies used on the AGREEMENT, for negotiating price, determining quality and quantity, ordering the material and installing (where applicable), and paying for the material itself.

CONSULTANT must perform CUF evaluation for each DBE working on a federal-aid contract, with or without a DBE goal. Perform a CUF evaluation at the beginning of the DBE's work and continue to monitor the performance of CUF for the duration of the project.

CONSULTANT must provide written notification to the LOCAL AGENCY at least 15 days in advance of each DBE's initial performance of work or supplying materials for the Contract. The notification must include the DBE's name, work the DBE will perform on the contract, and the location, date, and time of where their work will take place.

Within 10 days of a DBE initially performing work or supplying materials on the Contract, CONSULTANT shall submit to the LPA the initial evaluation and validation of DBE performance of a CUF using the LAPM 9-J: Disadvantaged Business Enterprise Commercially Useful Function Evaluation. Include the following information with the submittal:

- Subcontract agreement with the DBE
- Purchase orders

- ~~Bills of lading~~
- ~~Invoices~~
- ~~Proof of payment~~

~~CONSULTANT must monitor all DBE's performance of CUF by conducting quarterly evaluations and validations throughout their duration of work on the Contract using the LAPM 9-J: DBE Commercially Useful Function Evaluation. CONSULTANT must submit to the LOCAL AGENCY these quarterly evaluations and validations by the 5th of the month for the previous three months of work.~~

~~CONSULTANT must notify the LOCAL AGENCY immediately if they believe the DBE may not be performing a CUF.~~

~~The LOCAL AGENCY will verify DBEs performance of CUF by reviewing the initial and quarterly submissions of LAPM 9-J: DBE Commercially Useful Function Evaluation, submitted supporting information, field observations, and through any additional LOCAL AGENCY evaluations. The LOCAL AGENCY must evaluate DBEs and their CUF performance throughout the duration of a Contract. The LOCAL AGENCY will provide written notice to the CONSULTANT and the DBE at least two (2) business days prior to any evaluation. The CONSULTANT and the DBE must participate in the evaluation. Upon completing the evaluation, the LOCAL AGENCY must share the evaluation results with the CONSULTANT and the DBE. An evaluation could include items that must be remedied upon receipt. If the LOCAL AGENCY determines the DBE is not performing a CUF, the CONSULTANT must suspend performance of the noncompliant work.~~

~~CONSULTANT and DBEs must submit any additional CUF related records and documents within five (5) business days of LOCAL AGENCY's request such as:~~

- ~~Proof of ownership or lease and rental agreements for equipment~~
- ~~Tax records~~
- ~~Employee rosters~~
- ~~Certified payroll records~~
- ~~Inventory rosters~~

~~Failure to submit required DBE Commercially Useful Function Evaluation forms or requested records and documents can result in withholding of payment for the value of work completed by the DBE.~~

~~If CONSULTANT and/or the LOCAL AGENCY determine that a listed DBE is not performing a CUF in performance of their DBE committed work, CONSULTANT must immediately suspend performance of the noncompliant portion of the work. LOCAL AGENCY may deny payment for the noncompliant portion of the work. LOCAL AGENCY will ask the CONSULTANT to submit a corrective action plan (CAP) to the LOCAL AGENCY within five (5) days of the noncompliant CUF determination. The CAP must identify how the CONSULTANT will correct the noncompliance findings for the remaining portion of the DBE's work. LOCAL AGENCY has five (5) days to review the CAP in conjunction with the CONSULTANT's review. The CONSULTANT must implement the CAP within five (5) days of the LOCAL AGENCY's approval. The LOCAL AGENCY will then authorize the prior noncompliant portion of work for the DBE's committed work.~~

~~If corrective actions cannot be accomplished to ensure the DBE performs a commercially useful function on the Contract, CONSULTANT may have good cause to request termination of the DBE.~~

~~H. A DBE does not perform a CUF if its role is limited to that of an extra participant in a transaction, AGREEMENT, or project through which funds are passed in order to obtain the appearance of DBE participation. In determining whether a DBE is such an extra participant, examine similar transactions, particularly those in which DBEs do not participate.~~

~~I. If a DBE does not perform or exercise responsibility for at least thirty percent (30%) of the total cost of its AGREEMENT with its own work force, or the DBE subcontracts a greater portion of the work of the AGREEMENT than would be expected on the basis of normal industry practice for the type of work involved, it will be presumed that it is not performing a CUF.~~

~~J. CONSULTANT shall maintain records of materials purchased or supplied from all subcontracts entered into with certified DBEs. The records shall show the name and business address of each DBE or vendor and the total dollar amount actually paid each DBE or vendor, regardless of tier. The records shall show the date of payment and the total dollar figure paid to all firms. DBE CONSULTANT's shall also show the date of work performed by their own forces along with the corresponding dollar value of the work.~~

~~K. If a DBE subconsultant is decertified during the life of the AGREEMENT, the decertified subconsultant shall notify CONSULTANT in writing with the date of decertification. If a subconsultant becomes a certified DBE during the life of the AGREEMENT, the subconsultant shall notify CONSULTANT in writing with the date of certification. Any changes should be reported to LOCAL AGENCY's Contract Administrator within thirty (30) calendar days.~~

~~L. For projects awarded on or after March 1, 2020, but before September 1, 2023: after submitting an invoice for reimbursement that includes a payment to a DBE, but no later than the 10th of the following month, the prime contractor/consultant must complete and email Exhibit 9-F: Disadvantaged Business Enterprise Running Tally of Payments to business.support.unit@dot.ca.gov with a copy to local administering agencies.~~

~~For projects awarded on or after September 1, 2023: Exhibit 9-F is no longer required. Instead, by the 15th of the month following the month of any payment(s), the CONSULTANT must now submit Exhibit 9-P to the LOCAL AGENCY administering the contract. If the CONSULTANT does not make any payments to subconsultants, supplier(s), and/or manufacturers they must report "no payments were made to subs this month" and write this visibly and legibly on Exhibit 9-P.~~

~~M. Any subcontract entered into as a result of this AGREEMENT shall contain all of the provisions of this section.~~

ITEM # 16

CITY OF MONTEBELLO
CITY COUNCIL AGENDA STAFF REPORT

TO: Honorable Mayor and City Council Members

FROM: Raul Alvarez, City Manager

BY: Cesar Roldan, Director of Public Works

SUBJECT: **APPROVE AGREEMENT NOS. 4533, 4534 AND 4535 WITH G3 QUALITY, THE CONVERSE PROFESSIONAL GROUP AND PA & ASSOCIATES FOR MATERIAL TESTING AND SPECIAL INSPECTION SERVICES**

DATE: June 24, 2026

RECOMMENDATIONS:

It is recommended that the City Council:

1. Authorize the City Manager to execute Professional Services Agreement No. 4533 with G3 Quality, Inc. (Attachment A) for on-call material testing and special inspection services for the not-to-exceed annual amount of one hundred thousand ($100,000); and
2. Authorize the City Manager to execute Professional Services Agreement No. 4534 with Converse Professional Group (Attachment B) for on-call material testing and special inspection services for the not-to-exceed annual amount of one hundred thousand ($100,000); and
3. Authorize the City Manager to execute Professional Services Agreement No. 4535 with PA & Associates (Attachment C) for on-call material testing and special inspection services for the not-to-exceed annual amount of seventy-five ($75,000); and
4. Take such additional, related action that may be desirable.

FISCAL IMPACT:

City Council authorized staff to solicit proposals for on-call material testing and special inspection services (Request for Qualifications No. 26-04) in compliance with Federal, State and County regulations at the regularly scheduled April 8, 2026 City Council meeting. The services performed by the three (3) firms listed in the recommended actions

will be paid for from a combination of project-specific funds, typically funded through approved Capital Improvement Program (CIP) budgets. Staff will minimize and mitigate the use of General Fund appropriations and other special interest funds reserved and designated for other operational purposes.

The Fiscal Year 2026-27 proposed budget includes funding in the CIP for various projects and for various services required to complete each infrastructure project. Therefore, the recommended actions do not require a budget amendment.

Execution of a professional services agreement (PSA) is not an indication that the engineering firms will receive compensation for the intended services. It is the intent of the staff to spread the work amongst the firms and award specific projects to firms that are most suited to completing the specific type of project, while providing the City with the most flexible options to move forward with a project.

The PSAs (Attachments A, B and C) are for a period of three years (ending on June 30, 2029) and will include two optional one-year terms. The PSAs allow the City flexibility by augmenting or reducing contract staff as required without interrupting services to residents, businesses, or developers while continuing to meet service goals.

BACKGROUND/DISCUSSION:

The City routinely undertakes capital improvement projects including street rehabilitation, utility upgrades, facility renovations, and new construction. Many of these projects require third-party material testing and special inspections to verify code compliance, ensure construction quality, and protect the City's infrastructure investment.

Material testing firms provide services such as concrete and asphalt testing, compaction testing, structural steel inspections, welding inspections, and other specialized evaluations. These services are mandated by local codes, funding agencies, and best technical practices. Project schedules fluctuate throughout the year and materials testing needs frequently arise on short notice. The City has historically relied on on-call service agreements to ensure timely access to qualified testing and inspection professionals when needed.

On April 8, 2026, the City Council authorized staff to advertise a Request for Qualifications (RFQual No. 26-04). On-call professional services agreements for specific disciplines will maximize expertise and experience and allow staff to mobilize the firms based on pre-negotiated, competitive procurement terms and conditions. This philosophy allows the congruence of City staff and consultants to find solutions in an effective and efficient manner.

The Public Works Department utilizes municipal engineering contracts to provide public works and engineering support on an as-needed basis. The City needs technical expertise in several disciplines to advance the objectives and policies of the City Council.
.
RFQual No. 26-04 was published on April 9, 2026, in a newspaper of general circulation. Engineering firms accessed the documents via PlanetBids. Proposals were electronically

submitted via PlanetBids on May 6, 2026. The following table includes the twelve professional companies that submitted their respective qualifications proposals:

	Material Testing Companies
1	California Testing and Inspection
2	Caltech Labs, Inc.
3	Fenagh Engineering and Testing LLC
4	G3 Quality, Inc.
5	Geocon West, Inc.
6	Koury Engineering & Testing, Inc.
7	MTGL Inc.
8	PA & Associates
9	Smith-Emery Laboratories
10	The Converse Professional Group
11	The Quality Firm
12	Union Materials Testing, Inc.

City staff reviewed the companies' qualifications based on their expertise and experience of the firm, its key personnel and the ability and competence of the firm to perform the work; familiarity with required Federal, State, and local standards and procedures; and capacity and quality of staff to provide resources necessary to develop and manage multiple work assignments. Based on the investigation, the staff's recommendation is to award professional service agreements (Attachments A, B and C) to tG3 Quality, The Converse Professional Group and PA & Associates. The remaining proposals are available in the City Clerk's Office for review.

Approval of an on-call professional services agreement for material testing and special inspections involves no physical construction and does not authorize any activity that could result in a direct or reasonably foreseeable physical change in the environment. Therefore, the action is not a project under CEQA (PRC § 21065; CEQA Guidelines § 15378(b)(2), (5)).

1. Introduction

The City of Montebello (hereinafter referred to as the "City") is pleased to present this Request for Qualifications ("RFQual") soliciting Statement(s) of Qualifications ("SOQ") from general vendors/consultant/contractors (hereinafter referred to as "Consultant"), seeking to submit proposals for Material Testing & Special Inspection Services ("Services"). Based on the SOQ responses, the City will compile a short-list of qualified Consultants ("Short-List of Respondents"). The City intends to issue on-call bench list contracts to the consultants selected based on the quality of the proposals received.

SOQs are due on Wednesday, May 6, 2026, at 11:00 am PST through the City's PlanetBids portal ("Portal"). Before submitting SOQs, Consultants must register as a "vendor" in the Portal. Consultants are encouraged to register well ahead of the deadline to avoid any technical difficulties that may arise. All responses to this opportunity must conform to the requirements of this RFQual. Failure to do so may result in the response being considered non-responsive.

The Public Works Department is seeking RFQual to solicit SOQs from qualified consulting firms to provide material testing and special inspection services related to the City's Capital Improvement Program and other City projects. Material testing is essential for ensuring the quality and safety of asphalt and concrete used in construction. It helps verify that the materials meet standards for strength, durability, and performance, safeguarding lives, and investments. Testing is performed both on-site and, in a laboratory, with common materials tested including concrete, steel, and asphalt. Specialized equipment and recognized standards are used to conduct these tests, ensuring accurate and reliable results. The City intends to establish a bench of up to two (2) consultants to provide Material Testing & Special Inspection Services on an on-call, as-needed basis. As projects are issued, the City may issue task orders, requests for service/proposal, or assign projects to one or more of the selected consultants based on the scope and requirements of the specific assignment.

The process for selecting the on-call bench list is described in **Appendix B –** (**Evaluation Criteria)**, attached hereto and incorporated herein by this reference.

The City reserves the right to refrain from issuing on-call bench list contract based on SOQ received. The City also reserves the right to re-issue the RFQual seeking additional SOQ based on its sole and independent judgment.

All qualifications submitted to the City shall become the exclusive property of the City. Once City staff has identified the on-call bench list of consultants, all qualifications shall become a matter of public record subject to disclosure, except for those elements of each qualification that are identified by the Consultant as business or trade secrets and marked as "Trade Secret", "Confidential", or "Proprietary" and determined by the City to be exempt from disclosure under the Public Records Act (Cal. Gov. Code § 6250 *et seq*.) .

Each element of qualifications submittal that the Consultant desires not to be considered a public record must be marked as set forth above. If disclosure is required under the California Public Records Act or other applicable law, the City will make an independent determination and retain the confidentiality to the extent permitted.

2. About the City of Montebello

Montebello ("beautiful mountain" in Spanish and Italian) is a City in the County of Los Angeles, California. Founded in 1899 and incorporated in 1920, the City is an 8.37 square mile General Law City located east of Downtown Los Angeles. Currently, the City has a population of approximately 63,000 residents. It hosts a mix of various industries that represent the business diversity of the County of Los Angeles as a whole. It is a full-service City that provides a long list of services, employing approximately 480 full-time and part-time employees in public safety, transit, and non-safety functions. In the upcoming years, the City anticipates growth in population and economic development. In preparation for this growth and increases in City service demands, the staff is seeking to improve the City infrastructure to support the expansion properly.

3. Proposed Scope of Work/Statement of Work

(This scope of work/statement of work is intended to provide interested Consultants submitting their SOQs a general understanding of the items and services required by the City. Shortly after selecting compiling the Short-List of Respondents, the City will issue on-call contracts to the selected consultants to begin performing Material Testing & Special Inspection Services.)

Services provided under this RFQual will be for a three-year period starting on July 1, 2026, and ending on June 30, 2029, with the option to renew annually for an additional two (2) one-year extensions.

The consultant will provide Materials Testing and Special Inspection Services. The City requires On-Call Materials Testing and Special Inspection Services for grading, asphalt paving, concrete work, installation of sewer and storm drainage pipes, and other public works construction projects, integrity/structural testing of existing infrastructure, and other related work. Duties include, though are not limited to:

- Laboratory testing of soils, aggregate, rubberized-asphalt, micro surfacing, asphalt concrete, controlled low strength material, Portland cement concrete, structural steel and other construction materials.
- Field testing of soils, aggregate, rubberized asphalt, chip seal, micro surfacing, asphalt concrete, Portland cement concrete and other construction materials
- Special inspections in accordance with Section 17 of the California Building Code.
- Other services, including asphalt and concrete mix design review, batch plant inspection, project documentation, technical support, laboratory reports, field logs, final reports, affidavits and additional services as required.

City performs public works projects that may be funded by Federal, State, County and other governmental agency's grant funds. Consultants assist the City comply with Federal/State/County/Local requirements (as applicable and in effect at the time of the grant) including, though not limited to mandated standards for construction plans, specifications and estimates.

The services will be on an "as-needed" basis, and the scope of the services will be determined when such services are requested via a Request for Services (RFS) basis. A separate fee proposal will be required for each RFS. Contracts will be awarded based on the City's anticipated needs and the relative skills and experience of respondents in the various identified areas of need.

Consultants must be familiar with Caltrans material testing requirements:

Caltrans has established specific requirements for material testing to ensure compliance with contract specifications and safety standards. These requirements include:

- Sampling and Testing: Materials must be sampled and tested in accordance with contract specifications. This involves notifying the resident engineer of the need for inspection and acceptance testing of manufactured materials and products.
- Acceptance Methods: Acceptance methods include source inspection and testing, manufacturer certificate of compliance, and field release of material. The chain of custody for material and product acceptance samples is crucial for Caltrans' quality assurance program.
- Material Acceptance: Acceptance sampling and testing requirements vary depending on the section of the specifications the material falls under. For example, Section 6-1.04 of the specifications provides detailed information on Buy America requirements.
- Field Tests: Field tests must be performed in accordance with guidelines provided in the chapter. Maintaining a record of field tests and material inspected and released on the job is essential.

The City is not obligated to pay any costs incurred by the proposer(s) in the preparation of the RFQual. Proposers agree that all costs incurred in developing a proposal are the proposer's responsibility.

We further understand that the scope of work includes supporting public works projects and ensuring compliance with plans, specifications, and regulations. Our team will provide laboratory and field testing of soils, aggregates, asphalt, concrete, steel, and other materials, along with special inspections per Section 17 of the California Building Code. PROJECT APPROACH

G3 is well-versed in handling various task orders under an on-call contract and is also familiar with the proposal process for such contracts. Drawing from our experience, we anticipate tasks progressing as outlined in the graphic below. In our experience, typically, a City representative would formally request services from G3, providing a brief description of the project's scope, size, and required services along with a set of plans and specifications for review. If the City has not yet developed plans and specifications for the project, we would collaborate with them to propose innovative and sustainable treatment approaches tailored to the specific project.

Figure 1: Overall Project Approach

1 Proposal Solicitation

The City solicits a proposal from the on-call list based on scope of work and funding requirements. G3 Project Manager reviews plans and specifications and prepares proposal.

2 Project Award and Intro Meeting

The City selects G3 and issues a Notice to Proceed. G3 PM meets with the City to discuss the testing plan, standards, and expectations to ensure that all aspects of the project requirements are covered.

3 Pre-Construction Meeting

The G3 PM will attend the meeting to discuss the schedule. During this meeting, the G3 PM will define our role and responsibilities. across the project lifespan.

4 Construction Services

Through our understanding of the project and pre-planning meetings G3 will dispatch qualified inspectors/ technicians to provide the required services. Laboratory testing will be performed by our accredited lab in a timely manner.

5 Project Reporting

- G3 inspectors and technicians report results to City representatives during and after of each shift.
- Field and laboratory test results will be compiled and submitted by the G3 PM.
- A monthly summary report will also be submitted during the course of the project, if requested.
- A final report detailing a summary of each field and laboratory test will be submitted at the project completion.

6 Project Closeout

Once the project has been completed, the G3 PM and the City will meet. During this time, both parties elicit feedback, talk about lessons learned, and discuss future work.

We will test materials as necessary, according to the project plans, specifications, and the City of Montebello's Quality Assurance Programs.

During construction, our field inspector will meet each shift with the City's representative to discuss the day's operations. Each inspector utilizes electronic reporting systems to notify each other of any issues in real time. Materials will be sampled at the established sampling frequencies per the required code and standards and the City's established Quality Assurance Program and tested at our laboratory facility. Should a non-compliant issue arise, the inspectors will notify our Project Manager, Dr. Qiang Li, PE and the City representative in a timely manner.

The test results for each material will be processed into a standard report format and sent to the City's Project Manager in the timeline established in the City of Montebello and Caltrans Quality Assurance Programs. A summary of all acceptance testing will be maintained and updated throughout the project. The summary will include: the date, test method, location, test result, specification limit, and action taken if the result has failed.

B. The CONSULTANT also agrees to comply with Federal procedures in accordance with 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

C. Any costs for which payment has been made to the CONSULTANT that are determined by subsequent audit to be unallowable under 48 CFR 31 or 2 CFR 200 are subject to repayment by the CONSULTANT to LOCAL AGENCY.

D. When a CONSULTANT or Subconsultant is a Non-Profit Organization or an Institution of Higher Education, the Cost Principles for Title 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards shall apply.

ARTICLE VIII RETENTION OF RECORD/AUDITS

For the purpose of determining compliance with Gov. Code § 8546.7, the CONSULTANT, Subconsultants, and LOCAL AGENCY shall maintain all books, documents, papers, accounting records, Independent CPA Audited Indirect Cost Rate workpapers, and other evidence pertaining to the performance of the AGREEMENT including, but not limited to, the costs of administering the AGREEMENT. All parties, including the CONSULTANT's Independent CPA, shall make such workpapers and materials available at their respective offices at all reasonable times during the AGREEMENT period and for three (3) years from the date of final payment under the AGREEMENT and records for real property and equipment acquired with federal funds must be retained for three (3) years after final disposition. LOCAL AGENCY, Caltrans Auditor, FHWA, or any duly authorized representative of the Federal government having jurisdiction under Federal laws or regulations (including the basis of Federal funding in whole or in part) shall have access to any books, records, and documents of the CONSULTANT, Subconsultants, and the CONSULTANT's Independent CPA, that are pertinent to the AGREEMENT for audits, examinations, workpaper review, excerpts, and transactions, and copies thereof shall be furnished if requested without limitation.

ARTICLE IX AUDIT REVIEW PROCEDURES

A. Any dispute concerning a question of fact arising under an interim or post audit of this AGREEMENT that is not disposed of by AGREEMENT, shall be reviewed by LOCAL AGENCY'S Chief Financial Officer.

B. Not later than thirty (30) calendar days after issuance of the final audit report, CONSULTANT may request a review by LOCAL AGENCY'S Chief Financial Officer of unresolved audit issues. The request for review will be submitted in writing.

C. Neither the pendency of a dispute nor its consideration by LOCAL AGENCY will excuse CONSULTANT from full and timely performance, in accordance with the terms of this AGREEMENT.

D. CONSULTANT and subconsultant AGREEMENTs, including cost proposals and Indirect Cost Rates (ICR), may be subject to audits or reviews such as, but not limited to, an AGREEMENT audit, an incurred cost audit, an ICR Audit, or a CPA ICR audit work paper review. If selected for audit or review, the AGREEMENT, cost proposal and ICR and related work papers, if applicable, will be reviewed to verify compliance with 48 CFR 31 and other related laws and regulations. In the instances of a CPA ICR audit work paper review it is CONSULTANT's responsibility to ensure federal, LOCAL AGENCY, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. The AGREEMENT, cost proposal, and ICR shall be adjusted by CONSULTANT and approved by LOCAL AGENCY Contract Administrator to conform to the audit or review recommendations. CONSULTANT agrees that individual terms of costs identified in the audit report shall be incorporated into the AGREEMENT by this reference if directed by LOCAL AGENCY at its sole discretion. Refusal by CONSULTANT to incorporate audit or review recommendations, or to ensure that the federal, LOCAL AGENCY or local governments have access to CPA work papers, will be considered a breach of AGREEMENT terms and cause for termination of the AGREEMENT and disallowance of prior reimbursed costs.

E. CONSULTANT's Cost Proposal may be subject to a CPA ICR Audit Work Paper Review and/or audit by the Independent Office of Audits and Investigations (IOAI). IOAI, at its sole discretion, may review and/or audit and approve the CPA ICR documentation. The Cost Proposal shall be adjusted by the CONSULTANT and approved by the LOCAL AGENCY Contract Administrator to conform to the Work Paper Review recommendations included in the management letter or audit recommendations included in the audit report. Refusal by the CONSULTANT to incorporate the Work Paper Review recommendations included in the management letter or audit recommendations included in the audit report will be considered a breach of the AGREEMENT terms and cause for termination of the AGREEMENT and disallowance of prior reimbursed costs.

   1. During IOAI's review of the ICR audit work papers created by the CONSULTANT's independent CPA, IOAI will work with the CPA and/or CONSULTANT toward a resolution of issues that arise during the review. Each party agrees to use its best efforts to resolve any audit disputes in a timely manner. If IOAI identifies significant issues during the review and is unable to issue a cognizant approval letter, LOCAL AGENCY will reimburse the CONSULTANT at an accepted ICR until a FAR (Federal Acquisition Regulation) compliant ICR (e.g. 48 CFR Part 31; GAGAS (Generally Accepted Auditing Standards); CAS (Cost Accounting Standards), if applicable; in accordance with procedures and guidelines of the American Association of State Highways and Transportation Officials (AASHTO) Audit Guide; and other applicable procedures and guidelines) is received and approved by IOAI.

Accepted rates will be as follows:

b. If the proposed rate is between one hundred fifty percent (150%) and two hundred percent (200%) - the accepted rate will be eighty-five percent (85%) of the proposed rate.

c. If the proposed rate is greater than two hundred percent (200%) - the accepted rate will be seventy-five percent (75%) of the proposed rate.

2. If IOAI is unable to issue a cognizant letter per paragraph E.1. above, IOAI may require CONSULTANT to submit a revised independent CPA-audited ICR and audit report within three (3) months of the effective date of the management letter. IOAI will then have up to six (6) months to review the CONSULTANT's and/or the independent CPA's revisions.

3. If the CONSULTANT fails to comply with the provisions of this paragraph E, or if IOAI is still unable to issue a cognizant approval letter after the revised independent CPA audited ICR is submitted, overhead cost reimbursement will be limited to the accepted ICR that was established upon initial rejection of the ICR and set forth in paragraph E.1. above for all rendered services. In this event, this accepted ICR will become the actual and final ICR for reimbursement purposes under this AGREEMENT.

4. CONSULTANT may submit to LOCAL AGENCY final invoice only when all of the following items have occurred: (1) IOAI accepts or adjusts the original or revised independent CPA audited ICR; (2) all work under this AGREEMENT has been completed to the satisfaction of LOCAL AGENCY; and, (3) IOAI has issued its final ICR review letter. The CONSULTANT MUST SUBMIT ITS FINAL INVOICE TO LOCAL AGENCY no later than sixty (60) calendar days after occurrence of the last of these items. The accepted ICR will apply to this AGREEMENT and all other agreements executed between LOCAL AGENCY and the CONSULTANT, either as a prime or subconsultant, with the same fiscal period ICR.

The CONSULTANT agrees to be as fully responsible to the LOCAL AGENCY for the acts and omissions of its Subconsultants and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the CONSULTANT. In the event that there is a good faith dispute over all or any portion of the amount due on a progress payment from CONSULTANT or subconsultant to a subconsultant, CONSULTANT or subconsultant may withhold no more than 150 percent of the disputed amount. Any violation of this requirement shall constitute a cause for disciplinary action and shall subject the licensee to a penalty, payable to the subconsultant, of 2 percent of the amount due per month for every month that payment is not made.

In any action for the collection of funds wrongfully withheld, the prevailing party shall be entitled to his or her attorney's fees and costs. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies, otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT, deficient subconsultant performance and/or noncompliance by a subconsultant. This clause applies to both DBE and non-DBE subconsultants.

Method 2: No retainage will be held by the LOCAL AGENCY from progress payments due to CONSULTANT. Any retainage kept by CONSULTANT or by a subconsultant must be paid in full to the earning subconsultant within 15 days after the subconsultant's work is satisfactorily completed.     b. The employer has complied with the requirements of Labor Code §1771, §1811, and §1815 for any work performed by his or her employees on the public works project.

2. The payroll records enumerated under paragraph (1) above shall be certified as correct by the CONSULTANT under penalty of perjury. The payroll records and all supporting documents shall be made available for inspection and copying by LOCAL AGENCY representatives at all

reasonable hours at the principal office of the CONSULTANT. The CONSULTANT shall provide copies of certified payrolls or permit inspection of its records as follows:

a. A certified copy of an employee's payroll record shall be made available for inspection or furnished to the employee or the employee's authorized representative on request.

b. A certified copy of all payroll records enumerated in paragraph (1) above, shall be made available for inspection or furnished upon request to a representative of LOCAL AGENCY, the Division of Labor Standards Enforcement and the Division of Apprenticeship Standards of the Department of Industrial Relations. Certified payrolls submitted to LOCAL AGENCY, the Division of Labor Standards Enforcement and the Division of Apprenticeship Standards shall not be altered or obliterated by the CONSULTANT.

c. The public shall not be given access to certified payroll records by the CONSULTANT. The CONSULTANT is required to forward any requests for certified payrolls to the LOCAL AGENCY Contract Administrator by both email and regular mail on the business day following receipt of the request.

3. Each CONSULTANT shall submit a certified copy of the records enumerated in paragraph (1) above, to the entity that requested the records within ten (10) calendar days after receipt of a written request.

4. Any copy of records made available for inspection as copies and furnished upon request to the public or any public agency by LOCAL AGENCY shall be marked or obliterated in such a manner as to prevent disclosure of each individual's name, address, and social security number. The name and address of the CONSULTANT or Subconsultant performing the work shall not be marked or obliterated.

5. The CONSULTANT shall inform LOCAL AGENCY of the location of the records enumerated under paragraph (1) above, including the street address, city and county, and shall, within five (5) working days, provide a notice of a change of location and address.

6. The CONSULTANT or Subconsultant shall have ten (10) calendar days in which to comply subsequent to receipt of written notice requesting the records enumerated in paragraph (1) above. In the event the CONSULTANT or Subconsultant fails to comply within the ten (10) day period, he or she shall, as a penalty to LOCAL AGENCY, forfeit one hundred dollars ($100) for each calendar day, or portion thereof, for each worker, until strict compliance is effectuated. Such penalties shall be withheld by LOCAL AGENCY from payments then due. CONSULTANT is not subject to a penalty assessment pursuant to this section due to the failure of a Subconsultant to comply with this section.

E. When prevailing wage rates apply, the CONSULTANT is responsible for verifying compliance with certified payroll requirements. Invoice payment will not be made until the invoice is approved by the LOCAL AGENCY Contract Administrator.

F. Penalty

1. The CONSULTANT and any of its Subconsultants shall comply with Labor Code §1774 and §1775. Pursuant to Labor Code §1775, the CONSULTANT and any Subconsultant shall forfeit to the LOCAL AGENCY a penalty of not more than two hundred dollars ($200) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the Director of DIR for the work or craft in which the worker is employed for any public work done under the AGREEMENT by the CONSULTANT or by its Subconsultant in

violation of the requirements of the Labor Code and in particular, Labor Code §§1770 to 1780, inclusive.

2. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of mistake, inadvertence, or neglect of the CONSULTANT or Subconsultant in failing to pay the correct rate of prevailing wages, or the previous record of the CONSULTANT or Subconsultant in meeting their respective prevailing wage obligations, or the willful failure by the CONSULTANT or Subconsultant to pay the correct rates of prevailing wages. A mistake, inadvertence, or neglect in failing to pay the correct rates of prevailing wages is not excusable if the CONSULTANT or Subconsultant had knowledge of the obligations under the Labor Code. The CONSULTANT is responsible for paying the appropriate rate, including any escalations that take place during the term of the AGREEMENT.

3. In addition to the penalty and pursuant to Labor Code §1775, the difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the CONSULTANT or Subconsultant.

4. If a worker employed by a Subconsultant on a public works project is not paid the general prevailing per diem wages by the Subconsultant, the CONSULTANT of the project is not liable for the penalties described above unless the CONSULTANT had knowledge of that failure of the Subconsultant to pay the specified prevailing rate of wages to those workers or unless the CONSULTANT fails to comply with all of the following requirements:

    a. The AGREEMENT executed between the CONSULTANT and the Subconsultant for the performance of work on public works projects shall include a copy of the requirements in Labor Code §§ 1771, 1775, 1776, 1777.5, 1813, and 1815.

    b. The CONSULTANT shall monitor the payment of the specified general prevailing rate of per diem wages by the Subconsultant to the employees by periodic review of the certified payroll records of the Subconsultant.

    c. Upon becoming aware of the Subconsultant's failure to pay the specified prevailing rate of wages to the Subconsultant's workers, the CONSULTANT shall diligently take corrective action to halt or rectify the failure, including but not limited to, retaining sufficient funds due the Subconsultant for work performed on the public works project.

    d. Prior to making final payment to the Subconsultant for work performed on the public works project, the CONSULTANT shall obtain an affidavit signed under penalty of perjury from the Subconsultant that the Subconsultant had paid the specified general prevailing rate of per diem wages to the Subconsultant's employees on the public works project and any amounts due pursuant to Labor Code §1813.

5. Pursuant to Labor Code §1775, LOCAL AGENCY shall notify the CONSULTANT on a public works project within fifteen (15) calendar days of receipt of a complaint that a Subconsultant has failed to pay workers the general prevailing rate of per diem wages.

6. If LOCAL AGENCY determines that employees of a Subconsultant were not paid the general prevailing rate of per diem wages and if LOCAL AGENCY did not retain sufficient money under the AGREEMENT to pay those employees the balance of wages owed under the general prevailing rate of per diem wages, the CONSULTANT shall withhold an amount of moneys due the Subconsultant sufficient to pay those employees the general prevailing rate of per diem wages if requested by LOCAL AGENCY.

G. Hours of Labor

Eight (8) hours labor constitutes a legal day's work. The CONSULTANT shall forfeit, as a penalty to the LOCAL AGENCY, twenty-five dollars ($25) for each worker employed in the execution of the AGREEMENT by the CONSULTANT or any of its Subconsultants for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one calendar day and forty (40) hours in any one calendar week in violation of the provisions of the Labor Code, and in particular §§1810 to 1815 thereof, inclusive, except that work performed by employees in excess of eight (8) hours per day, and forty (40) hours during any one week, shall be permitted upon compensation for all hours worked in excess of eight (8) hours per day and forty (40) hours in any week, at not less than one and one-half (1.5) times the basic rate of pay, as provided in §1815.

H. Employment of Apprentices

1. Where either the prime AGREEMENT or the subagreement exceeds thirty thousand dollars ($30,000), the CONSULTANT and any subconsultants under him or her shall comply with all applicable requirements of Labor Code §§ 1777.5, 1777.6 and 1777.7 in the employment of apprentices.

2. CONSULTANTs and subconsultants are required to comply with all Labor Code requirements regarding the employment of apprentices, including mandatory ratios of journey level to apprentice workers. Prior to commencement of work, CONSULTANT and subconsultants are advised to contact the DIR Division of Apprenticeship Standards website at https://www.dir.ca.gov/das/, for additional information regarding the employment of apprentices and for the specific journey-to- apprentice ratios for the AGREEMENT work. The CONSULTANT is responsible for all subconsultants' compliance with these requirements. Penalties are specified in Labor Code §1777.7.

An affiliated firm is one, which is subject to the control of the same persons, through joint ownership or otherwise.

ARTICLE XIV REBATES, KICKBACKS OR OTHER UNLAWFUL CONSIDERATION

The CONSULTANT warrants that this AGREEMENT was not obtained or secured through rebates, kickbacks or other unlawful consideration either promised or paid to any LOCAL AGENCY employee. For breach or violation of this warranty, LOCAL AGENCY shall have the right, in its discretion, to terminate this AGREEMENT without liability, to pay only for the value of the work actually performed, or to deduct from this AGREEMENT price or otherwise recover the full amount of such rebate, kickback or other unlawful consideration.

ARTICLE XV PROHIBITION OF EXPENDING LOCAL AGENCY, STATE, OR FEDERAL FUNDS FOR LOBBYING

[*Include this article in all AGREEMENTs where federal funding will exceed ~~$150,000~~ $100,000. If less than ~~$150,000~~ $100,000 in federal funds will be expended on the AGREEMENT, delete this article and re-number the subsequent articles.*]

A. The CONSULTANT certifies, to the best of his or her knowledge and belief, that:

   1. No State, Federal, or LOCAL AGENCY appropriated funds have been paid or will be paid, by or on behalf of the CONSULTANT, to any person for influencing or attempting to influence an officer or employee of any local, State, or Federal agency, a Member of the State Legislature or United States Congress, an officer or employee of the Legislature or Congress, or any employee of a Member of the Legislature or Congress in connection with the awarding or making of this AGREEMENT, or with the extension, continuation, renewal, amendment, or modification of this AGREEMENT.

If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with this AGREEMENT, the CONSULTANT shall complete and submit Standard Form-LLL, “Disclosure Form to Report Lobbying,” in accordance with its instructions.

B. This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31 U.S.C. §1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than ten thousand dollars ($10,000) and not more than one hundred thousand dollars ($100,000) for each such failure.

C. The CONSULTANT also agrees by signing this document that he or she shall require that the language of this certification be included in all lower tier subagreements, which exceed one hundred thousand dollars ($100,000), and that all such subrecipients shall certify and disclose accordingly.

ARTICLE XVI NON-DISCRIMINATION CLAUSE AND STATEMENT OF COMPLIANCE

A. The CONSULTANT’s signature affixed herein and dated shall constitute a certification under penalty of perjury under the laws of the State of California that the CONSULTANT has, unless exempt, complied with the nondiscrimination program requirements of Gov. Code §12990 and 2 CCR §11102.

I. CONSULTANT, subrecipient or subconsultant will never exclude any person from participation in, deny any person the benefits of, or otherwise discriminate against anyone in connection with the award and performance of any contract covered by 49 CFR 26 on the basis of race, color, sex, or national origin. ~~In administering the LOCAL AGENCY components of the DBE Program Plan, CONSULTANT, subrecipient or subconsultant will not, directly, or through contractual or other arrangements, use criteria or methods of administration that have the effect of defeating or substantially impairing accomplishment of the objectives of the DBE Program Plan with respect to individuals of a particular race, color, sex, or national origin.~~

ARTICLE XVII DEBARMENT AND SUSPENSION CERTIFICATION

A. The CONSULTANT's signature affixed herein shall constitute a certification under penalty of perjury under the laws of the State of California, that the CONSULTANT or any person associated therewith in the capacity of owner, partner, director, officer or manager:

C. Exceptions to the Federal Government excluded parties (https://sam.gov/content/home) maintained by the U.S. General Services Administration are to be determined by FHWA.

ARTICLE XVIII DISADVANTAGED BUSINESS ENTERPRISES (DBE) ~~PARTICIPATION~~

A. CONSULTANT, ~~subrecipient (LOCAL AGENCY),~~ or subconsultant, shall take necessary and reasonable steps to ensure that DBEs have opportunities to participate in the contract (49 CFR 26). ~~To ensure equal participation of DBEs provided in 49 CFR 26.5, the LOCAL AGENCY shows a contract goal for DBEs. CONSULTANT shall make work available to DBEs and select work parts consistent with available DBE subconsultants and suppliers.~~

~~CONSULTANT shall meet the DBE goal shown elsewhere in these special provisions or demonstrate that they made adequate Good Faith Efforts (GFE) to meet this goal. It is CONSULTANT's responsibility to verify at date of proposal opening that the DBE firm is certified as a DBE by using the California Unified Certification Program (CUCP) database and possesses the most specific available North American Industry Classification System (NAICS) codes and work code applicable to the type of work the firm will perform on the contract. Additionally, the CONSULTANT is responsible to document the verification record by printing out the CUCP data for each DBE firm. A list of DBEs certified by the CUCP can be found at: https://caltrans.dbesystem.com/.~~

~~All DBE participation will count toward the California Department of Transportation's federally mandated statewide overall DBE goal. Credit for materials or supplies CONSULTANT purchases from DBEs counts towards the goal in the following manner:~~

- ~~100 percent counts if the materials or supplies are obtained from a DBE manufacturer.~~
- ~~60 percent counts if the materials or supplies are purchased from a DBE regular dealer.~~
- ~~Only fees, commissions, and charges for assistance in the procurement and delivery of materials or supplies count if obtained from a DBE that is neither a manufacturer nor regular dealer. 49 CFR 26.55 defines "manufacturer" and "regular dealer."~~

This AGREEMENT is subject to 49 CFR 26 entitled "Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs". CONSULTANTs who enter into a federally-funded agreement will assist the LOCAL AGENCY in a good faith effort to achieve California's statewide overall DBE goal.

B. The goal for DBE participation for this AGREEMENT is _____%. Participation by DBE CONSULTANT or subconsultants shall be in accordance with information contained in Exhibit 10-O2: Consultant Contract DBE Commitment attached hereto and incorporated as part of the AGREEMENT. If a DBE subconsultant is unable to perform, CONSULTANT must make a good faith effort to replace him/her with another DBE subconsultant, if the goal is not otherwise met.

C. CONSULTANT can meet the DBE participation goal by either documenting commitments to DBEs to meet the AGREEMENT goal, or by documenting adequate good faith efforts to meet the AGREEMENT goal. An adequate good faith effort means that the CONSULTANT must show that it took all necessary and reasonable steps to achieve a DBE goal that, by their scope, intensity, and appropriateness to the objective, could reasonably be expected to meet the DBE goal. If CONSULTANT has not met the DBE goal, complete and submit Exhibit 15-H: Proposer/Contractor Good Faith Efforts to document efforts to meet the goal. Refer to 49 CFR 26 for guidance regarding evaluation of good faith efforts to meet the DBE goal.

D. Contract Assurance

In accordance with 49 CFR 26.13(b):

CONSULTANT, subrecipient or subconsultant, shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. CONSULTANT shall carry out applicable requirements of 49 CFR 26 in the award and administration of federal-aid contracts.

Failure by the CONSULTANT to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the LOCAL AGENCY deems appropriate, which may include, but is not limited to:

(1) Withholding monthly progress payments;

(2) Assessing sanctions; and/or

(3) Disqualifying CONSULTANT from future proposing as non-responsible

E. Termination and Replacement of DBE Subconsultants

CONSULTANT shall utilize the specific DBEs listed to perform the work and supply the materials for which each is listed unless CONSULTANT or DBE subconsultant obtains the LOCAL AGENCY's written consent. CONSULTANT shall not terminate or replace a listed DBE for convenience and perform the work with their own forces or obtain materials from other sources without authorization from the LOCAL AGENCY. Unless the LOCAL AGENCY's consent is provided, the CONSULTANT shall not be entitled to any payment for work or material unless it is performed or supplied by the listed DBE on the Exhibit 10-02: Consultant Contract DBE Commitment form.

Termination of DBE Subconsultants

After execution of the AGREEMENT, termination of a DBE may be allowed for the following, but not limited to, justifiable reasons with prior written authorization from the LOCAL AGENCY:

1. Listed DBE fails or refuses to execute a written contract based on plans and specifications for the project.

2. The LOCAL AGENCY stipulated that a bond is a condition of executing the subcontract and the listed DBE fails to meet the LOCAL AGENCY's bond requirements.
3. Work requires a consultant's license and listed DBE does not have a valid license under Contractors License Law.
4. Listed DBE fails or refuses to perform the work or furnish the listed materials (failing or refusing to perform is not an allowable reason to remove a DBE if the failure or refusal is a result of bad faith or discrimination).
5. Listed DBE's work is unsatisfactory and not in compliance with the contract.
6. Listed DBE is ineligible to work on the project because of suspension or debarment.
7. Listed DBE becomes bankrupt or insolvent or exhibits credit unworthiness.
8. Listed DBE voluntarily withdraws with written notice from the Contract.
9. Listed DBE is ineligible to receive credit for the type of work required.
10. Listed DBE owner dies or becomes disabled resulting in the inability to perform the work on the Contract.
11. The LOCAL AGENCY determines other documented good cause.

CONSULTANT must use the following procedures to request the termination of a DBE or portion of a DBE's work:

1. Send a written notice to the DBE of the CONSULTANT's intent to use other forces or material sources and include one or more justifiable reasons listed above. Simultaneously send a copy of this written notice to the LOCAL AGENCY. The written notice to the DBE must request they provide any response within five (5) business days to both the CONSULTANT and the LOCAL AGENCY by either acknowledging their agreement or documenting their reasoning as to why the use of other forces or sources of materials should not occur.
2. If the DBE does not respond within five (5) business days, CONSULTANT may move forward with the request as if the DBE had agreed to CONSULTANT's written notice.
3. Submit CONSULTANT's DBE termination request by written letter to the LOCAL AGENCY and include:
    - One or more above listed justifiable reasons along with supporting documentation.
    - CONSULTANT's written notice to the DBE regarding the request, including proof of transmission and tracking documentation of CONSULTANT's written notice
    - The DBE's response to CONSULTANT's written notice, if received. If a written response was not provided, provide a statement to that effect.

The LOCAL AGENCY shall respond in writing to CONSULTANT's DBE termination request within five (5) business days.

Replacement of DBE Subconsultants

After receiving the LOCAL AGENCY's written authorization of DBE termination request, CONSULTANT must obtain the LOCAL AGENCY's written agreement for DBE replacement. CONSULTANT must find or demonstrate GFEs to find qualified DBE replacement firms to perform the work to the extent needed to meet the DBE commitment.

~~The following procedures shall be followed to request authorization to replace a DBE firm:~~

~~1. Submit a request to replace a DBE with other forces or material sources in writing to the LOCAL AGENCY which must include:~~

~~a. Description of remaining uncommitted work item made available for replacement DBE solicitation and participation.~~

~~b. The proposed DBE replacement firm's business information, the work they have agreed to perform, and the following:~~

- ~~Description of scope of work and cost proposal~~
- ~~Proposed subcontract agreement and written confirmation of agreement to perform on the Contract~~
- ~~Revised Exhibit 10-O2: Consultant Contract DBE Commitment~~

~~2. If CONSULTANT has not identified a DBE replacement firm, submits documentation of CONSULTANT's GFEs to use DBE replacement firms within seven (7) days of LOCAL AGENCY's authorization to terminate the DBE. CONSULTANT may request the LOCAL AGENCY's approval to extend this submittal period to a total of 14 days. Submit documentation of actions taken to find a DBE replacement firm, such as:~~

- ~~Search results of certified DBEs available to perform the original DBE work identified and or other work CONSULTANT had intended to self-perform, to the extent needed to meet DBE commitment~~
- ~~Solicitations of DBEs for performance of work identified~~
- ~~Correspondence with interested DBEs that may have included contract details and requirements~~
- ~~Negotiation efforts with DBEs that reflect why an agreement was not reached~~
- ~~If a DBE's quote was rejected, provide reasoning for the rejection, such as why the DBE was unqualified for the work, or why the price quote was unreasonable or excessive~~
- ~~Copies of each DBE's and non-DBE's price quotes for work identified, as the LOCAL AGENCY may contact the firms to verify solicitation efforts and determine if the DBE quotes are substantially higher~~
- ~~Additional documentation that supports CONSULTANT's GFE~~

~~The LOCAL AGENCY shall respond in writing to CONSULTANT's DBE replacement request within five (5) business days.~~

~~F. Commitment and Utilization~~

~~The LOCAL AGENCY's DBE program must include a monitoring and enforcement mechanism to ensure that DBE commitments reconcile to DBE utilization.~~

~~The LOCAL AGENCY shall request CONSULTANT to:~~

~~1. Notify the LOCAL AGENCY's contract administrator or designated representative of any changes to its anticipated DBE participation~~

~~2. Provide this notification before starting the affected work~~

3. Maintain records including:
   - Name and business address of each 1st -tier subconsultant
   - Name and business address of each DBE subconsultant, DBE vendor, and DBE trucking company, regardless of tier
   - Date of payment and total amount paid to each business (see Exhibit 9-F: Monthly Disadvantaged Business Enterprise Payment)

If CONSULTANT is a DBE CONSULTANT, they shall include the date of work performed by their own forces and the corresponding value of the work.
If a DBE is decertified before completing its work, the DBE must notify CONSULTANT in writing of the decertification date. If a business becomes a certified DBE before completing its work, the business must notify CONSULTANT in writing of the certification date. CONSULTANT shall submit the notifications to the LOCAL AGENCY. On work completion, CONSULTANT shall complete Exhibit 17-O: Disadvantaged Business Enterprises (DBE) Certification Status Change and submit the form to the LOCAL AGENCY within 30 days of contract acceptance.

Upon work completion, CONSULTANT shall complete Exhibit 17-F: Final Report – Utilization of Disadvantaged Business Enterprises (DBE), First-Tier Subcontractors and submit it to the LOCAL AGENCY within 90 days of contract acceptance. The LOCAL AGENCY will withhold $10,000 until the form is submitted. The LOCAL AGENCY will release the withhold upon submission of the completed form.

In the LOCAL AGENCY's reports of DBE participation to Caltrans, the LOCAL AGENCY must display both commitments and attainments.

G. Commercially Useful Function

DBEs must perform a commercially useful function (CUF) under 49 CFR 26.55 when performing work or supplying materials listed on the DBE Commitment form. The DBE value of work will only count toward the DBE commitment if the DBE performs a CUF. A DBE performs a CUF when it is responsible for execution of the work of the AGREEMENT and is carrying out its responsibilities by actually performing, managing, and supervising the work involved. To perform a CUF, the DBE must also be responsible, with respect to materials and supplies used on the AGREEMENT, for negotiating price, determining quality and quantity, ordering the material and installing (where applicable), and paying for the material itself.

CONSULTANT must perform CUF evaluation for each DBE working on a federal-aid contract, with or without a DBE goal. Perform a CUF evaluation at the beginning of the DBE's work and continue to monitor the performance of CUF for the duration of the project.

CONSULTANT must provide written notification to the LOCAL AGENCY at least 15 days in advance of each DBE's initial performance of work or supplying materials for the Contract. The notification must include the DBE's name, work the DBE will perform on the contract, and the location, date, and time of where their work will take place.

Within 10 days of a DBE initially performing work or supplying materials on the Contract, CONSULTANT shall submit to the LPA the initial evaluation and validation of DBE performance of a CUF using the LAPM 9-J: Disadvantaged Business Enterprise Commercially Useful Function Evaluation. Include the following information with the submittal:

- Subcontract agreement with the DBE
- Purchase orders

- ~~Bills of lading~~
- ~~Invoices~~
- ~~Proof of payment~~

~~CONSULTANT must monitor all DBE's performance of CUF by conducting quarterly evaluations and validations throughout their duration of work on the Contract using the LAPM 9-J: DBE Commercially Useful Function Evaluation. CONSULTANT must submit to the LOCAL AGENCY these quarterly evaluations and validations by the 5th of the month for the previous three months of work.~~

~~CONSULTANT must notify the LOCAL AGENCY immediately if they believe the DBE may not be performing a CUF.~~

~~The LOCAL AGENCY will verify DBEs performance of CUF by reviewing the initial and quarterly submissions of LAPM 9-J: DBE Commercially Useful Function Evaluation, submitted supporting information, field observations, and through any additional LOCAL AGENCY evaluations. The LOCAL AGENCY must evaluate DBEs and their CUF performance throughout the duration of a Contract. The LOCAL AGENCY will provide written notice to the CONSULTANT and the DBE at least two (2) business days prior to any evaluation. The CONSULTANT and the DBE must participate in the evaluation. Upon completing the evaluation, the LOCAL AGENCY must share the evaluation results with the CONSULTANT and the DBE. An evaluation could include items that must be remedied upon receipt. If the LOCAL AGENCY determines the DBE is not performing a CUF, the CONSULTANT must suspend performance of the noncompliant work.~~

~~CONSULTANT and DBEs must submit any additional CUF related records and documents within five (5) business days of LOCAL AGENCY's request such as:~~

- ~~Proof of ownership or lease and rental agreements for equipment~~
- ~~Tax records~~
- ~~Employee rosters~~
- ~~Certified payroll records~~
- ~~Inventory rosters~~

~~Failure to submit required DBE Commercially Useful Function Evaluation forms or requested records and documents can result in withholding of payment for the value of work completed by the DBE.~~

~~If CONSULTANT and/or the LOCAL AGENCY determine that a listed DBE is not performing a CUF in performance of their DBE committed work, CONSULTANT must immediately suspend performance of the noncompliant portion of the work. LOCAL AGENCY may deny payment for the noncompliant portion of the work. LOCAL AGENCY will ask the CONSULTANT to submit a corrective action plan (CAP) to the LOCAL AGENCY within five (5) days of the noncompliant CUF determination. The CAP must identify how the CONSULTANT will correct the noncompliance findings for the remaining portion of the DBE's work. LOCAL AGENCY has five (5) days to review the CAP in conjunction with the CONSULTANT's review. The CONSULTANT must implement the CAP within five (5) days of the LOCAL AGENCY's approval. The LOCAL AGENCY will then authorize the prior noncompliant portion of work for the DBE's committed work.~~

~~If corrective actions cannot be accomplished to ensure the DBE performs a commercially useful function on the Contract, CONSULTANT may have good cause to request termination of the DBE.~~

~~H. A DBE does not perform a CUF if its role is limited to that of an extra participant in a transaction, AGREEMENT, or project through which funds are passed in order to obtain the appearance of DBE participation. In determining whether a DBE is such an extra participant, examine similar transactions, particularly those in which DBEs do not participate.~~

~~I. 1. Introduction

The City of Montebello (hereinafter referred to as the "City") is pleased to present this Request for Qualifications ("RFQual") soliciting Statement(s) of Qualifications ("SOQ") from general vendors/consultant/contractors (hereinafter referred to as "Consultant"), seeking to submit proposals for Material Testing & Special Inspection Services ("Services"). Based on the SOQ responses, the City will compile a short-list of qualified Consultants ("Short-List of Respondents"). The City intends to issue on-call bench list contracts to the consultants selected based on the quality of the proposals received.

SOQs are due on Wednesday, May 6, 2026, at 11:00 am PST through the City's PlanetBids portal ("Portal"). Before submitting SOQs, Consultants must register as a "vendor" in the Portal. Consultants are encouraged to register well ahead of the deadline to avoid any technical difficulties that may arise. All responses to this opportunity must conform to the requirements of this RFQual. Failure to do so may result in the response being considered non-responsive.

The Public Works Department is seeking RFQual to solicit SOQs from qualified consulting firms to provide material testing and special inspection services related to the City's Capital Improvement Program and other City projects. Material testing is essential for ensuring the quality and safety of asphalt and concrete used in construction. It helps verify that the materials meet standards for strength, durability, and performance, safeguarding lives, and investments. Testing is performed both on-site and, in a laboratory, with common materials tested including concrete, steel, and asphalt. Specialized equipment and recognized standards are used to conduct these tests, ensuring accurate and reliable results. The City intends to establish a bench of up to two (2) consultants to provide Material Testing & Special Inspection Services on an on-call, as-needed basis. As projects are issued, the City may issue task orders, requests for service/proposal, or assign projects to one or more of the selected consultants based on the scope and requirements of the specific assignment.

The process for selecting the on-call bench list is described in **Appendix B –** (**Evaluation Criteria)**, attached hereto and incorporated herein by this reference.

The City reserves the right to refrain from issuing on-call bench list contract based on SOQ received. The City also reserves the right to re-issue the RFQual seeking additional SOQ based on its sole and independent judgment.

All qualifications submitted to the City shall become the exclusive property of the City. Once City staff has identified the on-call bench list of consultants, all qualifications shall become a matter of public record subject to disclosure, except for those elements of each qualification that are identified by the Consultant as business or trade secrets and marked as "Trade Secret", "Confidential", or "Proprietary" and determined by the City to be exempt from disclosure under the Public Records Act (Cal. Gov. Code § 6250 *et seq*.) .

Each element of qualifications submittal that the Consultant desires not to be considered a public record must be marked as set forth above. If disclosure is required under the California Public Records Act or other applicable law, the City will make an independent determination and retain the confidentiality to the extent permitted.

2. About the City of Montebello

Montebello ("beautiful mountain" in Spanish and Italian) is a City in the County of Los Angeles, California. Founded in 1899 and incorporated in 1920, the City is an 8.37 square mile General Law City located east of Downtown Los Angeles. Currently, the City has a population of approximately 63,000 residents. It hosts a mix of various industries that represent the business diversity of the County of Los Angeles as a whole. It is a full-service City that provides a long list of services, employing approximately 480 full-time and part-time employees in public safety, transit, and non-safety functions. In the upcoming years, the City anticipates growth in population and economic development. In preparation for this growth and increases in City service demands, the staff is seeking to improve the City infrastructure to support the expansion properly.

3. Proposed Scope of Work/Statement of Work

(This scope of work/statement of work is intended to provide interested Consultants submitting their SOQs a general understanding of the items and services required by the City. Shortly after selecting compiling the Short-List of Respondents, the City will issue on-call contracts to the selected consultants to begin performing Material Testing & Special Inspection Services.)

Services provided under this RFQual will be for a three-year period starting on July 1, 2026, and ending on June 30, 2029, with the option to renew annually for an additional two (2) one-year extensions.

The consultant will provide Materials Testing and Special Inspection Services. The City requires On-Call Materials Testing and Special Inspection Services for grading, asphalt paving, concrete work, installation of sewer and storm drainage pipes, and other public works construction projects, integrity/structural testing of existing infrastructure, and other related work. Duties include, though are not limited to:

- Laboratory testing of soils, aggregate, rubberized-asphalt, micro surfacing, asphalt concrete, controlled low strength material, Portland cement concrete, structural steel and other construction materials.
- Field testing of soils, aggregate, rubberized asphalt, chip seal, micro surfacing, asphalt concrete, Portland cement concrete and other construction materials
- Special inspections in accordance with Section 17 of the California Building Code.
- Other services, including asphalt and concrete mix design review, batch plant inspection, project documentation, technical support, laboratory reports, field logs, final reports, affidavits and additional services as required.

Consultants assist the City comply with Federal/State/County/Local requirements (as applicable and in effect at the time of the grant) including, though not limited to mandated standards for construction plans, specifications and estimates.

The services will be on an "as-needed" basis, and the scope of the services will be determined when such services are requested via a Request for Services (RFS) basis. A separate fee proposal will be required for each RFS. Contracts will be awarded based on the City's anticipated needs and the relative skills and experience of respondents in the various identified areas of need.

Consultants must be familiar with Caltrans material testing requirements:

Caltrans has established specific requirements for material testing to ensure compliance with contract specifications and safety standards. These requirements include:

- Sampling and Testing: Materials must be sampled and tested in accordance with contract specifications. This involves notifying the resident engineer of the need for inspection and acceptance testing of manufactured materials and products.
- Acceptance Methods: Acceptance methods include source inspection and testing, manufacturer certificate of compliance, and field release of material. The chain of custody for material and product acceptance samples is crucial for Caltrans' quality assurance program.
- Material Acceptance: Acceptance sampling and testing requirements vary depending on the section of the specifications the material falls under. For example, Section 6-1.04 of the specifications provides detailed information on Buy America requirements.
- Field Tests: Field tests must be performed in accordance with guidelines provided in the chapter. Maintaining a record of field tests and material inspected and released on the job is essential.

The City is not obligated to pay any costs incurred by the proposer(s) in the preparation of the RFQual. Proposers agree that all costs incurred in developing a proposal are the proposer's responsibility.

RE: **TECHNICAL PROPOSAL IN RESPONSE TO RFQUAL NO. 26-04**
MATERIALS TESTING & SPECIAL INSPECTION SERVICES
Montebello, Los Angeles County, California
Converse Project Number: 26-31-174-00

Dear Ms. Ramos,

THE CONVERSE PROFESSIONAL GROUP, dba Converse Consultants (Converse), is pleased to present our Statement of Qualifications (SOQ) for On-Call Materials Testing and Special Inspection Services for the City of Montebello (City). We understand that the City's Public Works Department is seeking qualified consulting firms to provide material testing and special inspection services related to the City's Capital Improvement Program and other City projects, and we believe our services would be valuable to the City.

Converse has an 80-year history working with cities, counties, and public agencies throughout Southern California. Our mission is to work together with our clients to be responsive and deliver quality services, resulting in the development of long-term relationships. After carefully examining RFQUAL No. 26-04 and Addendum 1, issued on April 23, we have prepared this submittal to show you how we might address the City's objectives and challenges.

Experience is crucial when providing on-call services. Over our long history, we have fine-tuned our communication skills and understanding of time parameters and scheduling. We are able and fully committed to meeting the City's needs when executing this on-call contract.

Many city projects are funded by State and Federal grants. We understand that all services performed under this contract and any resulting agreements may be funded in whole or in part by State, Federal, or other grant sources. Converse has demonstrable experience managing projects funded by these agencies and ensuring compliance with all applicable requirements. We have provided these services since 1946. In 2016, we provided material testing and special inspection services for the City's Central Library Renovation.

Converse is familiar with Caltrans local assistance procedures manual requirements for Federal and State-funded projects and are current on applicable prevailing wage laws. Because Converse has been providing similar services to cities sharing the City's challenges, we are confident in our approach and success.

Availability to Dedicate Time, Personnel, and Resources. Converse commits to making the listed staff available for the duration of our contract and while said staff are in our employment.

Commitment of Availability of Converse and Its Team. One of the key elements of servicing an on-call contract is to have the appropriate staff available when needed. To meet that demand, we have access to a pool of about 60 regional professional and technical staff.

Proposed Project Schedule. Materials testing and special inspections follow a phased schedule, typically occurring immediately before or during structural activities. Key inspections for concrete and steel require continuous or periodic observation, while site stormwater compliance requires inspection within 72 hours of rain. Considerations include critical elements (such as concrete placing and welding), which require full-time, continuous inspection, while less critical elements may be periodically checked.

Your projects will be managed and staffed by our nearby Monrovia office. Principal-in-Charge Dr. Siva K. Sivathasan, an officer of Converse who is authorized to bind the firm to the contract, will be the program manager and primary contact person for the City. His contact information and that of Converse is as follows:

2. Project Understanding and Approach

Converse is prepared to provide On-Call Materials Testing and Special Inspection Services to the City on an on-call basis. We understand the City requires On-Call Materials Testing and Special Inspection Services for grading, asphalt paving, concrete work, installation of sewer and storm drainage pipes, and other public works construction projects, integrity/structural testing of existing infrastructure, and other related work. Duties include, though are not limited to:

- Laboratory testing of soils, aggregate, rubberized-asphalt, micro surfacing, asphalt concrete, controlled low strength material, Portland cement concrete, structural steel and other construction materials.
- Field testing of soils, aggregate, rubberized asphalt, chip seal, micro surfacing, asphalt concrete, Portland cement concrete and other construction materials
- Special inspections in accordance with Section 17 of the California Building Code.
- Other services, including asphalt and concrete mix design review, batch plant inspection, project documentation, technical support, laboratory reports, field logs, final reports, affidavits and additional services as required.

We understand that the City performs public works projects that may be funded by Federal, State, County, and other governmental agency's grant funds. Converse will assist the City in complying with all relevant governmental requirements (as applicable and in effect at the time of the grant) including, though not limited to, mandated standards for construction plans, specifications, and estimates.

The services will be on an "as-needed" basis, and the scope of the services will be determined when such services are requested via a Request for Services (RFS) basis. A separate fee proposal will be required for each RFS. Contracts will be awarded based on the City's anticipated needs and the relative skills and experience of respondents in the various identified areas of need.

Converse is familiar with Caltrans material testing requirements, including specific requirements for material testing to ensure compliance with contract specifications and safety standards. These requirements include:

- **Sampling and Testing:** Materials must be sampled and tested in accordance with contract specifications. This involves notifying the resident engineer of the need for inspection and acceptance testing of manufactured materials and products.
- **Acceptance Methods:** Acceptance methods include source inspection and testing, manufacturer certificate of compliance, and field release of material. The chain of custody for material and product acceptance samples is crucial for Caltrans' quality assurance program.
- **Material Acceptance:** Acceptance sampling and testing requirements vary depending on the section of the specifications the material falls under. For example, Section 6-1.04 of the specifications provides detailed information on Buy America requirements.
- **Field Tests:** Field tests must be performed in accordance with guidelines provided in the chapter. Maintaining a record of field tests and material inspected and released on the job is essential.

Familiarity and Experience with State and Federal Procedures

Our professional staff are well-versed in regulations that govern the construction and renovation of public facilities, including standards set by the Division of Occupational Health & Safety (Cal/OSHA), Office of Statewide Health Planning and Development (OSHPD), California Geological Survey (CGS), American Society of Testing and Materials (ASTM), Department of Toxic Substances Control (DTSC), California Environmental Protection Agency (Cal/EPA), among others.

Familiarity and Experience with Caltrans and Green Book Standards

Converse is familiar with standards established by Caltrans, which establishes uniform practices and guidance for the traffic safety systems, and Green Book, the American Association of State Highway and Transportation Officials industry guide to highway and street design research and practices. Our team does not solely rely on these standards, as they are not a substitute for engineering knowledge, experience, or judgment, but as a generally recommended course of action in the solution of field conditions.

Project Approach

Our approach differs according to the kind of project we undertake. However, all of our projects start with a kick-off meeting in which the project's goals, schedule, and other important factors are established. The project approach is guided by the following factors:

Project Controls. Prior to initiation of a project, we prepare a proposal which will list the various tasks, the duration of each, and overall cost. We meet with your project manager and go over our scope and budget, and adjust the scope and budget as agreed upon prior to signing a contract. During the course of the project, our project manager will monitor the amount of work performed and budget expended on a weekly basis. She or he will update the budget tracking sheet and keep the City's representative informed of the budget status. The project manager will identify the disposition of any requests for work that falls outside of our initial scope of work and budget. She or he will seek the City's representative before providing the services. If more testing is requested than initially planned or if the contractor is behind schedule, we will meet with the City's representative to discuss how our scope of work can be modified to keep our cost within budget. Our goal will be to be proactive in controlling the budget and managing the schedule. As the City's partner, we will do what it takes to deliver projects on time and within budget.

Budgeting Methodology and Cost Control. All projects begin with the generation of a budget tracking sheet, which states the labor and expense budgets. Excel budget spreadsheets are typically generated for all projects which breakdown the labor and expense budgets. Converse utilizes an accounting database (Vantagepoint) which allows project managers immediate access to budget information. Our project manager will present an updated budget to the City's project manager on a weekly basis.

Converse always assigns a project manager who is either an engineer or geologist to provide quality control, oversight, and cost control for the assigned project. Being the single point of contact enables our manager to develop a good understanding of the project and clients' requirements. The Converse project manager will review plans and specifications to ensure that the project is completed accordingly. If a potential problem arises or is detected, he will discuss it with the parties involved to arrive at a reasonable solution. This proactive approach helps to avoid issues that can result in a costly delay in the project schedule and budget overruns.

Quality Control/Quality Assurance (QA/QC). Converse implements a set of standard quality control measures on every project to verify that our deliverables meet set quality standards and are free from errors. Quality control begins when a client asks us to submit a proposal and continues through the completion of our scope of work. In general, we perform the following steps to maintain accuracy and timeliness in our deliverables:

- Review the RFP thoroughly and discuss the project with the client to develop a clear understanding of the project needs and objectives, including specific challenges and risks associated with the project site.
- Discuss our extent of involvement with the client's contact person. We also discuss the specific types and quantity of laboratory testing required to meet the project specifications. This enables us to give an accurate projection for our costs and schedule.
- Assign a project manager who is either an engineer or geologist to provide quality control oversight for the assigned project. As the single point of contact, the project manager develops a comprehensive understanding of the project and clients' requirements and is responsible for communicating key project concerns to the entire project team.
- Review plans and specifications to ensure that the project is completed accordingly. If a potential problem arises or is detected, the project manager will discuss it with the parties involved to arrive at a reasonable solution. This proactive approach helps to avoid issues that can result in a delay in the project schedule and budget overruns.
- Maintain active communication with clients to make sure they are pleased with our services. In case of higher staff demands, the project manager will make every attempt to meet the client's needs.
- Implement a standardized review process for all submittals, including laboratory results, daily field reports, and geotechnical study reports, among others
- Assign a registered engineer to supervise the geotechnical and materials testing laboratory.

Scope of Work and Necessary Tasks

The scope of work will vary under each potential project. Below is a general schedule framework demonstrating Converse's responsiveness to City requests, and what the City may expect in return:

Typical Geotechnical Services Schedule (Small to Mid-Size Project)

- **Week 1: Project Initiation & Setup**
  - Initiate request and review project plans.
  - Secure permits and Right of Entry.
  - Schedule utility clearances (e.g., USA North/DigAlert).
- **Week 2: Field Investigation**
  - Mobilize drill rigs and personnel to the site.
  - Execute soil boring, rock coring, or test pit excavation.
  - Perform in-situ testing (e.g., SPT, cone penetration test).
- **Week 3-4: Laboratory Testing**
  - Transport samples to the lab.
  - Perform classification tests (moisture content, Atterberg limits).
  - Conduct strength/consolidation tests (direct shear, triaxial).
- **Week 5-6: Data Analysis & Reporting**
  - Analyze data and perform geotechnical engineering calculations.
  - Draft boring logs and site maps.
  - Prepare final report with foundation and design recommendations.

Key Scheduling Milestones

- **Mobilization:** 1–3 days.
- **Fieldwork Duration:** 1–5 days (varies by depth/number of borings).
- **Lab Testing:** 1–2 weeks.
- **Final Report Submittal:** ~4 weeks after Notice to Proceed.

Factors Affecting Schedule

- **Site Access/Traffic Control:** Restricted areas or high-traffic areas increase permitting time.
- **Environmental Concerns:** Contaminated sites require specialized handling.
- **Weather:** Heavy rain or freezing conditions can delay drilling.
- **Groundwater Monitoring:** Longer timelines if multi-week, post-drilling groundwater monitoring is required.

Unique Methods, Tools, and Techniques

Scheduling and Service Coordination/Dispatcher: Our Field Services Coordinator (FSC) is the single point of contact to take requests for our services from the City. We request 24 hours advance notice; however, due to our proximity to your sites and amount of field personnel on staff and from our subs, we will be on-site whenever you need us.

Based on the specific project requirements, the FSC coordinates with the project manager and Lead Technician daily and schedules field personnel to be at the site on the day and time requested. With this single point of contact, we effectively reduce the chances of miscommunication and/or technicians' failure to be at the site on time. Our FSC is available between 7:30 a.m. and 5:00 p.m. Service requests can be accommodated all seven (7) days of the week, except holidays. Due to our wide array of available staff, we can also accommodate multiple technician requests on weekends.

Team Flexibility and Responsiveness

Converse starts each assignment by carefully selecting its team. These team members are experienced and certified in multiple disciplines and have worked on various projects together. This built-in efficiency saves project time and money, but also enhances communication among members.

Project Management: Siva K. Sivathasan, PhD, PE, GE, DGE, QSD, F. ASCE will be the main point of contact and project manager. At the beginning of the project, Dr. Sivathasan will collect all the project-specific information from the City project manager and prepare a project-specific scope and fee estimate and assemble a highly qualified team with appropriate experience. He will work with your project manager on field coordination, field work, and report progress and finalizing the reports.

For the construction projects during construction, he will discuss the contractor's progress with your project manager weekly and work with our field services coordinator and field personnel to forecast the staffing hours of all inspection and testing activities. Based on the contractor schedule and sequencing of activities, he can project the staff requirements.

Availability: Converse employs a substantial pool of professionals and technical staff from three local Southern California offices, capable of responding to changes in construction schedules and expediting report preparation process for agency approval. Our project managers are always available to discuss project delays with a client. Our field staff are certified in many disciplines, making them more efficient in the field and flexible to staffing needs.

Mobilization: Due to our office location in nearby Monrovia, we can respond to service requests in under 24 hours. Our FSC is available after-hours to receive urgent service requests.

Laboratory Testing: Converse has three laboratories to accommodate fluctuating testing needs. Labs are available 24 hours, seven days a week. Typical turnaround for testing results in 24 hours, maximum three days.

Approach to Ensuring Responsiveness and Effective Communication

Scheduling of available staff and projects is coordinated through weekly office meetings. Our project managers are always available to staff and will be in constant contact with the Principal-in-Charge.

Key Milestones and Processes

Project management milestones typically fall under the four phases in the project life cycle: initiation, planning, implementation/execution, and close-out. Under those four major phases the following milestones can fall:

- Project kick-off meeting and coordination
- Site reconnaissance
- Preliminary assessment
- Geotechnical investigation
- Pertinent tasks (drilling oversight, percolation testing, laboratory testing)
- Data analysis and evaluation
- Report compilation

Actual milestones will vary according to type of project, but Converse will determine relevant project milestones by

- Establishing project goals.
- Dividing proposed plan into phases and tasks.
- Considering key transitional moments to recognize milestones, including in approvals and review times.
- Overlaying milestones onto your project plan.

Expectations of City

Converse attempts to establish a client's expectations in the project kick-off meeting. We ask that clients explicitly express their expectations regarding schedule, communications, etc., so we can do our best to meet those expectations. We discuss possible challenges and proactively consider alternatives – for example, additional staffing and accelerated schedule if delays should occur. Aside from that, we generally request access to existing reports and other material that will help us best serve you.

For our part, we will:

- Identify critical project features and prioritize them based on your budget. We will define what can be achieved within the available resources and propose options for additional features, if the budget permits.
- Ensure all testing meets the specific standards, codes, and technical documents in the contract.
- Utilize daily inspection software to make logs, photos, and reports immediately accessible to stakeholders.
- Clearly define which team member is responsible for each inspection and test.
- Attend pre-construction and progress meetings as needed.
- Provide updates on inspection and testing results during construction meetings.
- Coordinate with contractors and subcontractors to schedule inspections in accordance with construction milestones.
- Immediately notify the City of any issues that could impact the project schedule, safety, or compliance, and manage expectations before the budget is a concern.

A minimum laboratory fee of $50.00 will be charged to present and mail test results. Beyond the standard U.S. Mail delivery, specialized transmittal will be charged at additional cost (e.g., Federal Express, UPS, etc.). Geotechnical testing does not include engineering and/or geologic review and analysis. Typical turnaround for geotechnical laboratory testing is two weeks (or roughly ten working days). To expedite test turnaround to five working days, a 50% increase in the fees in this schedule will be applied. Many geotechnical tests require at least one week to perform in accordance with ASTM or other standard specifications. Fees presented in this schedule for relatively undisturbed direct shear, consolidation or expansion pressure tests are based on the assumption that 2.416-inch inside diameter brass ring samples will be provided to the geotechnical laboratory for testing. Remolded specimens will be compacted in standard 2.5-inch outside diameter brass rings for direct shear, consolidation and expansion pressure tests. All fees presented in this schedule are based on the assumption that the client will deliver samples to our laboratory at no additional cost to Converse.

Invoices will be issued monthly and are payable on receipt unless otherwise agreed upon. Interest of 1.5% per month (but not exceeding the maximum allowed by law) will be payable on any amount not paid within thirty days; payment thereafter to be applied first to accrued interest and then to the principle unpaid amount. The Client shall pay any attorneys' fees or other costs incurred in collecting any delinquent amounts.

Compensation for laboratory testing services will be based on rates in accordance with this fee schedule which includes test report(s) and engineering time. Costs of tests not on this schedule will be by quote and/or in accordance with our current hourly fee schedule. Our services will be performed in accordance with the General Conditions. This fee schedule is valid through the life of the contract.

A draft Task Order will identify the scope of services, expected results, project deliverables, period of performance, project schedule and will designate a LOCAL AGENCY Project Coordinator. The draft Task Order will be delivered to CONSULTANT for review. CONSULTANT shall return the draft Task Order within ten (10) calendar days along with a Cost Estimate, including a written estimate of the number of hours and hourly rates per staff person, any anticipated reimbursable expenses, overhead, fee if any, and total dollar amount. After agreement has been reached on the negotiable items and total cost; the finalized Task Order shall be signed by both LOCAL AGENCY and CONSULTANT.

Invoices shall be submitted no later than thirty (30) calendar days after the performance of work for which CONSULTANT is billing. Invoices shall detail the work performed on each milestone, on each project as applicable. Invoices shall follow the format stipulated for the approved Cost Proposal and shall reference this AGREEMENT number and project title. Final invoice must contain the final cost and all credits due LOCAL AGENCY that include any equipment purchased under the provisions of Article XI Equipment Purchase. The final invoice must be submitted within sixty (60) calendar days after completion of CONSULTANT's work unless a later date is approved by the LOCAL AGENCY. Invoices shall be mailed to LOCAL AGENCY's Contract Administrator at the following address:

E. The total amount payable by LOCAL AGENCY shall not exceed $(Amount).

ARTICLE VI TERMINATION

A. This AGREEMENT may be terminated by LOCAL AGENCY, provided that LOCAL AGENCY gives not less than thirty (30) calendar days' written notice (delivered by certified mail, return receipt requested) of intent to terminate. Upon termination, LOCAL AGENCY shall be entitled to all work, including but not limited to, reports, investigations, appraisals, inventories, studies, analyses, drawings and data estimates performed to that date, whether completed or not.

B. LOCAL AGENCY may temporarily suspend this AGREEMENT, at no additional cost to LOCAL AGENCY, provided that CONSULTANT is given written notice (delivered by certified mail, return receipt requested) of temporary suspension. If LOCAL AGENCY gives such notice of temporary suspension, CONSULTANT shall immediately suspend its activities under this AGREEMENT. A temporary suspension may be issued concurrent with the notice of termination.

C. Notwithstanding any provisions of this AGREEMENT, CONSULTANT shall not be relieved of liability to LOCAL AGENCY for damages sustained by LOCAL AGENCY by virtue of any breach of this AGREEMENT by CONSULTANT, and LOCAL AGENCY may withhold any payments due to CONSULTANT until such time as the exact amount of damages, if any, due LOCAL AGENCY from CONSULTANT is determined.

D. In the event of termination, CONSULTANT shall be compensated as provided for in this AGREEMENT. Upon termination, LOCAL AGENCY shall be entitled to all work, including but not limited to, reports, investigations, appraisals, inventories, studies, analyses, drawings and data estimates performed to that date, whether completed or not.

ARTICLE VII COST PRINCIPLES AND ADMINISTRATIVE REQUIREMENTS

A. The CONSULTANT agrees that 48 CFR 31, Contract Cost Principles and Procedures, shall be used to determine the allowability of individual terms of cost.

B. The CONSULTANT also agrees to comply with Federal procedures in accordance with 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

C. Any costs for which payment has been made to the CONSULTANT that are determined by subsequent audit to be unallowable under 48 CFR 31 or 2 CFR 200 are subject to repayment by the CONSULTANT to LOCAL AGENCY.

D. When a CONSULTANT or Subconsultant is a Non-Profit Organization or an Institution of Higher Education, the Cost Principles for Title 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards shall apply.

ARTICLE VIII RETENTION OF RECORD/AUDITS

For the purpose of determining compliance with Gov. Code § 8546.7, the CONSULTANT, Subconsultants, and LOCAL AGENCY shall maintain all books, documents, papers, accounting records, Independent CPA Audited Indirect Cost Rate workpapers, and other evidence pertaining to the performance of the AGREEMENT including, but not limited to, the costs of administering the AGREEMENT. All parties, including the CONSULTANT's Independent CPA, shall make such workpapers and materials available at their respective offices at all reasonable times during the AGREEMENT period and for three (3) years from the date of final payment under the AGREEMENT and records for real property and equipment acquired with federal funds must be retained for three (3) years after final disposition. LOCAL AGENCY, Caltrans Auditor, FHWA, or any duly authorized representative of the Federal government having jurisdiction under Federal laws or regulations (including the basis of Federal funding in whole or in part) shall have access to any books, records, and documents of the CONSULTANT, Subconsultants, and the CONSULTANT's Independent CPA, that are pertinent to the AGREEMENT for audits, examinations, workpaper review, excerpts, and transactions, and copies thereof shall be furnished if requested without limitation.

ARTICLE IX AUDIT REVIEW PROCEDURES

A. Any dispute concerning a question of fact arising under an interim or post audit of this AGREEMENT that is not disposed of by AGREEMENT, shall be reviewed by LOCAL AGENCY'S Chief Financial Officer.

B. Not later than thirty (30) calendar days after issuance of the final audit report, CONSULTANT may request a review by LOCAL AGENCY'S Chief Financial Officer of unresolved audit issues. The request for review will be submitted in writing.

C. Neither the pendency of a dispute nor its consideration by LOCAL AGENCY will excuse CONSULTANT from full and timely performance, in accordance with the terms of this AGREEMENT.

D. CONSULTANT and subconsultant AGREEMENTs, including cost proposals and Indirect Cost Rates (ICR), may be subject to audits or reviews such as, but not limited to, an AGREEMENT audit, an incurred cost audit, an ICR Audit, or a CPA ICR audit work paper review. If selected for audit or review, the AGREEMENT, cost proposal and ICR and related work papers, if applicable, will be reviewed to verify compliance with 48 CFR 31 and other related laws and regulations. In the instances of a CPA ICR audit work paper review it is CONSULTANT's responsibility to ensure federal, LOCAL AGENCY, or local government officials are allowed full access to the CPA's work papers including making copies as necessary. The AGREEMENT, cost proposal, and ICR shall be adjusted by CONSULTANT and approved by LOCAL AGENCY Contract Administrator to conform to the audit or review recommendations. CONSULTANT agrees that individual terms of costs identified in the audit report shall be incorporated into the AGREEMENT by this reference if directed by LOCAL AGENCY at its sole discretion. Refusal by CONSULTANT to incorporate audit or review recommendations, or to ensure that the federal, LOCAL AGENCY or local governments have access to CPA work papers, will be considered a breach of AGREEMENT terms and cause for termination of the AGREEMENT and disallowance of prior reimbursed costs.

E. CONSULTANT's Cost Proposal may be subject to a CPA ICR Audit Work Paper Review and/or audit by the Independent Office of Audits and Investigations (IOAI). IOAI, at its sole discretion, may review and/or audit and approve the CPA ICR documentation. The Cost Proposal shall be adjusted by the CONSULTANT and approved by the LOCAL AGENCY Contract Administrator to conform to the Work Paper Review recommendations included in the management letter or audit recommendations included in the audit report. Refusal by the CONSULTANT to incorporate the Work Paper Review recommendations included in the management letter or audit recommendations included in the audit report will be considered a breach of the AGREEMENT terms and cause for termination of the AGREEMENT and disallowance of prior reimbursed costs.

   1. During IOAI's review of the ICR audit work papers created by the CONSULTANT's independent CPA, IOAI will work with the CPA and/or CONSULTANT toward a resolution of issues that arise during the review. Each party agrees to use its best efforts to resolve any audit disputes in a timely manner. If IOAI identifies significant issues during the review and is unable to issue a cognizant approval letter, LOCAL AGENCY will reimburse the CONSULTANT at an accepted ICR until a FAR (Federal Acquisition Regulation) compliant ICR (e.g. 48 CFR Part 31; GAGAS (Generally Accepted Auditing Standards); CAS (Cost Accounting Standards), if applicable; in accordance with procedures and guidelines of the American Association of State Highways and Transportation Officials (AASHTO) Audit Guide; and other applicable procedures and guidelines) is received and approved by IOAI.

Accepted rates will be as follows:

a. If the proposed rate is less than one hundred fifty percent (150%) - the accepted rate reimbursed will be ninety percent (90%) of the proposed rate.

b. If the proposed rate is between one hundred fifty percent (150%) and two hundred percent (200%) - the accepted rate will be eighty-five percent (85%) of the proposed rate.

c. If the proposed rate is greater than two hundred percent (200%) - the accepted rate will be seventy-five percent (75%) of the proposed rate.

2. If IOAI is unable to issue a cognizant letter per paragraph E.1. above, IOAI may require CONSULTANT to submit a revised independent CPA-audited ICR and audit report within three (3) months of the effective date of the management letter. IOAI will then have up to six (6) months to review the CONSULTANT's and/or the independent CPA's revisions.

3. If the CONSULTANT fails to comply with the provisions of this paragraph E, or if IOAI is still unable to issue a cognizant approval letter after the revised independent CPA audited ICR is submitted, overhead cost reimbursement will be limited to the accepted ICR that was established upon initial rejection of the ICR and set forth in paragraph E.1. above for all rendered services. In this event, this accepted ICR will become the actual and final ICR for reimbursement purposes under this AGREEMENT.

4. CONSULTANT may submit to LOCAL AGENCY final invoice only when all of the following items have occurred: (1) IOAI accepts or adjusts the original or revised independent CPA audited ICR; (2) all work under this AGREEMENT has been completed to the satisfaction of LOCAL AGENCY; and, (3) IOAI has issued its final ICR review letter. The CONSULTANT MUST SUBMIT ITS FINAL INVOICE TO LOCAL AGENCY no later than sixty (60) calendar days after occurrence of the last of these items. The accepted ICR will apply to this AGREEMENT and all other agreements executed between LOCAL AGENCY and the CONSULTANT, either as a prime or subconsultant, with the same fiscal period ICR.

ARTICLE X SUBCONTRACTING

A. Nothing contained in this AGREEMENT or otherwise, shall create any contractual relation between the LOCAL AGENCY and any Subconsultants, and no subagreement shall relieve the CONSULTANT of its responsibilities and obligations hereunder. The CONSULTANT agrees to be as fully responsible to the LOCAL AGENCY for the acts and omissions of its Subconsultants and of persons either directly or indirectly employed by any of them as it is for the acts and omissions of persons directly employed by the CONSULTANT. The CONSULTANT's obligation to pay its Subconsultants is an independent obligation from the LOCAL AGENCY's obligation to make payments to the CONSULTANT.

B. The CONSULTANT shall perform the work contemplated with resources available within its own organization and no portion of the work shall be subcontracted without written authorization by the LOCAL AGENCY Contract Administrator, except that which is expressly identified in the CONSULTANT's approved Cost Proposal.

C. Any subagreement entered into as a result of this AGREEMENT, shall contain all the provisions stipulated in this entire AGREEMENT to be applicable to Subconsultants unless otherwise noted.

~~D. CONSULTANT shall pay its Subconsultants within Fifteen (15) calendar days from receipt of each payment made to the CONSULTANT by the LOCAL AGENCY.~~

D. Any substitution of Subconsultants must be approved in writing by the LOCAL AGENCY Contract Administrator in advance of assigning work to a substitute Subconsultant.

E. Prompt Progress Payment

CONSULTANT or subconsultant shall pay to any subconsultant, not later than fifteen (15) days after receipt of each progress payment, unless otherwise agreed to in writing, the respective amounts allowed CONSULTANT on account of the work performed by the subconsultants, to the extent of each subconsultant's interest therein. In the event that there is a good faith dispute over all or any portion of the amount due on a progress payment from CONSULTANT or subconsultant to a subconsultant, CONSULTANT or subconsultant may withhold no more than 150 percent of the disputed amount. Any violation of this requirement shall constitute a cause for disciplinary action and shall subject the licensee to a penalty, payable to the subconsultant, of 2 percent of the amount due per month for every month that payment is not made.

In any action for the collection of funds wrongfully withheld, the prevailing party shall be entitled to his or her attorney's fees and costs. The sanctions authorized under this requirement shall be separate from, and in addition to, all other remedies, either civil, administrative, or criminal. ~~This clause applies to both DBE and non-DBE subconsultants.~~

CONSULTANT must submit Exhibit 9-P to the LOCAL AGENCY administering the contract by the 15th of the month following the month of any payment(s). If the CONSULTANT does not make any payments to subconsultants, supplier(s), and/or manufacturers they must report "no payments were made to subs this month" and write this visibly and legibly on Exhibit 9-P.

The LOCAL AGENCY must verify all Exhibit 9-P information, monitor compliance with prompt payment requirements for DBE and non-DBE firms, and address any shortfalls to the DBE commitment and prompt payment issues until the end of the project. The LOCAL AGENCY must email a copy of Exhibit 9-P to DBE.Forms@dot.ca.gov before the end of the month after receiving the Exhibit 9-P from the CONSULTANT.

F. Prompt Payment of Withheld Funds to Subconsultants

The LOCAL AGENCY may hold retainage from CONSULTANT and shall make prompt and regular incremental acceptances of portions, as determined by the LOCAL AGENCY, of the contract work, and pay retainage to CONSULTANT based on these acceptances. The LOCAL AGENCY shall designate one of the methods below in the contract to ensure prompt and full payment of any retainage kept by CONSULTANT or subconsultant to a subconsultant.

[*Choose either Method 1, Method 2, or Method 3 below and delete the other two.*]

Method 1: No retainage will be held by the LOCAL AGENCY from progress payments due to CONSULTANT. CONSULTANTS and subconsultants are prohibited from holding retainage from subconsultants. Any delay or postponement of payment may take place only for good cause and with the LOCAL AGENCY's prior written approval. Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions, and other remedies specified in Section 3321 of the California Civil Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies, otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT, deficient subconsultant performance and/or noncompliance by a subconsultant. This clause applies to both DBE and non-DBE subconsultants.

Method 2: No retainage will be held by the LOCAL AGENCY from progress payments due to CONSULTANT. Any retainage kept by CONSULTANT or by a subconsultant must be paid in full to the earning subconsultant within 15 days after the subconsultant's work is satisfactorily completed. Any delay or postponement of payment may take place only for good cause and with the LOCAL AGENCY's prior written approval. Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions, and remedies specified in Section 3321 of the California Civil Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies, otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT, deficient subconsultant performance and/or noncompliance by a subconsultant. This clause applies to both DBE and non-DBE subconsultants.

Method 3: The LOCAL AGENCY shall hold retainage from CONSULTANT and shall make prompt and regular incremental acceptances of portions, as determined by the LOCAL AGENCY of the contract work and pay retainage to CONSULTANT based on these acceptances. CONSULTANT or subconsultant shall return all monies withheld in retention from all subconsultants within 15 days after receiving payment for work satisfactorily completed and accepted including incremental acceptances of portions of the contract work by the LOCAL AGENCY. Any delay or postponement of payment may take place only for good cause and with the LOCAL AGENCY's prior written approval. Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions, and other remedies specified in Section 3321 of the California Civil Code. This requirement shall not be construed to limit or impair any contractual, administrative or judicial remedies otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT; deficient subconsultant performance and/or noncompliance by a subconsultant. This clause applies to both DBE and non-DBE subconsultants.

Any violation of these provisions shall subject the violating CONSULTANT or subconsultant to the penalties, sanctions and other remedies specified therein. These requirements shall not be construed to limit or impair any contractual, administrative, or judicial remedies otherwise available to CONSULTANT or subconsultant in the event of a dispute involving late payment or nonpayment by CONSULTANT, deficient subcontract performance, or noncompliance by a subconsultant.

ARTICLE XI EQUIPMENT PURCHASE AND OTHER CAPITAL EXPENDITURES

A. Prior authorization in writing by LOCAL AGENCY's Contract Administrator shall be required before CONSULTANT enters into any unbudgeted purchase order, or subcontract exceeding five thousand dollars ($5,000) for supplies, equipment, or CONSULTANT services. CONSULTANT shall provide an evaluation of the necessity or desirability of incurring such costs.

B. For purchase of any item, service, or consulting work not covered in CONSULTANT's approved Cost Proposal and exceeding five thousand dollars ($5,000), with prior authorization by LOCAL AGENCY's Contract Administrator, three competitive quotations must be submitted with the request, or the absence of proposal must be adequately justified.

C. Any equipment purchased with funds provided under the terms of this AGREEMENT is subject to the following:

   1. CONSULTANT shall maintain an inventory of all nonexpendable property. Nonexpendable property is defined as having a useful life of at least two years and an acquisition cost of five thousand dollars ($5,000) or more. If the purchased equipment needs replacement and is sold or traded in, LOCAL AGENCY shall receive a proper refund or credit at the conclusion of the AGREEMENT, or if the AGREEMENT is terminated, CONSULTANT may either keep the

equipment and credit LOCAL AGENCY in an amount equal to its fair market value, or sell such equipment at the best price obtainable at a public or private sale, in accordance with established LOCAL AGENCY procedures; and credit LOCAL AGENCY in an amount equal to the sales price. If CONSULTANT elects to keep the equipment, fair market value shall be determined at CONSULTANT's expense, on the basis of a competent independent appraisal of such equipment. Appraisals shall be obtained from an appraiser mutually agreeable to by LOCAL AGENCY and CONSULTANT, if it is determined to sell the equipment, the terms and conditions of such sale must be approved in advance by LOCAL AGENCY.

2. Regulation 2 CFR 200 requires a credit to Federal funds when participating equipment with a fair market value greater than five thousand dollars ($5,000) is credited to the project.

ARTICLE XII STATE PREVAILING WAGE RATES

3. Each CONSULTANT shall submit a certified copy of the records enumerated in paragraph (1) above, to the entity that requested the records within ten (10) calendar days after receipt of a written request.

4. Any copy of records made available for inspection as copies and furnished upon request to the public or any public agency by LOCAL AGENCY shall be marked or obliterated in such a manner as to prevent disclosure of each individual's name, address, and social security number. Pursuant to Labor Code §1775, the CONSULTANT and any Subconsultant shall forfeit to the LOCAL AGENCY a penalty of not more than two hundred dollars ($200) for each calendar day, or portion thereof, for each worker paid less than the prevailing rates as determined by the Director of DIR for the work or craft in which the worker is employed for any public work done under the AGREEMENT by the CONSULTANT or by its Subconsultant in

violation of the requirements of the Labor Code and in particular, Labor Code §§1770 to 1780, inclusive.

2. The amount of this forfeiture shall be determined by the Labor Commissioner and shall be based on consideration of mistake, inadvertence, or neglect of the CONSULTANT or Subconsultant in failing to pay the correct rate of prevailing wages, or the previous record of the CONSULTANT or Subconsultant in meeting their respective prevailing wage obligations, or the willful failure by the CONSULTANT or Subconsultant to pay the correct rates of prevailing wages. A mistake, inadvertence, or neglect in failing to pay the correct rates of prevailing wages is not excusable if the CONSULTANT or Subconsultant had knowledge of the obligations under the Labor Code. The CONSULTANT is responsible for paying the appropriate rate, including any escalations that take place during the term of the AGREEMENT.

In addition to the penalty and pursuant to Labor Code §1775, the difference between the prevailing wage rates and the amount paid to each worker for each calendar day or portion thereof for which each worker was paid less than the prevailing wage rate shall be paid to each worker by the CONSULTANT or Subconsultant.

4. If a worker employed by a Subconsultant on a public works project is not paid the general prevailing per diem wages by the Subconsultant, the CONSULTANT of the project is not liable for the penalties described above unless the CONSULTANT had knowledge of that failure of the Subconsultant to pay the specified prevailing rate of wages to those workers or unless the CONSULTANT fails to comply with all of the following requirements:

    a. The AGREEMENT executed between the CONSULTANT and the Subconsultant for the performance of work on public works projects shall include a copy of the requirements in Labor Code §§ 1771, 1775, 1776, 1777.5, 1813, and 1815.

    b. The CONSULTANT shall monitor the payment of the specified general prevailing rate of per diem wages by the Subconsultant to the employees by periodic review of the certified payroll records of the Subconsultant.

    c. Upon becoming aware of the Subconsultant's failure to pay the specified prevailing rate of wages to the Subconsultant's workers, the CONSULTANT shall diligently take corrective action to halt or rectify the failure, including but not limited to, retaining sufficient funds due the Subconsultant for work performed on the public works project.

    d. Prior to making final payment to the Subconsultant for work performed on the public works project, the CONSULTANT shall obtain an affidavit signed under penalty of perjury from the Subconsultant that the Subconsultant had paid the specified general prevailing rate of per diem wages to the Subconsultant's employees on the public works project and any amounts due pursuant to Labor Code §1813.

5. Pursuant to Labor Code §1775, LOCAL AGENCY shall notify the CONSULTANT on a public works project within fifteen (15) calendar days of receipt of a complaint that a Subconsultant has failed to pay workers the general prevailing rate of per diem wages.

6. If LOCAL AGENCY determines that employees of a Subconsultant were not paid the general prevailing rate of per diem wages and if LOCAL AGENCY did not retain sufficient money under the AGREEMENT to pay those employees the balance of wages owed under the general prevailing rate of per diem wages, the CONSULTANT shall withhold an amount of moneys due the Subconsultant sufficient to pay those employees the general prevailing rate of per diem wages if requested by LOCAL AGENCY.

G. Hours of Labor

Eight (8) hours labor constitutes a legal day's work. The CONSULTANT shall forfeit, as a penalty to the LOCAL AGENCY, twenty-five dollars ($25) for each worker employed in the execution of the AGREEMENT by the CONSULTANT or any of its Subconsultants for each calendar day during which such worker is required or permitted to work more than eight (8) hours in any one calendar day and forty (40) hours in any one calendar week in violation of the provisions of the Labor Code, and in particular §§1810 to 1815 thereof, inclusive, except that work performed by employees in excess of eight (8) hours per day, and forty (40) hours during any one week, shall be permitted upon compensation for all hours worked in excess of eight (8) hours per day and forty (40) hours in any week, at not less than one and one-half (1.5) times the basic rate of pay, as provided in §1815.

ARTICLE XIV REBATES, KICKBACKS OR OTHER UNLAWFUL CONSIDERATION

The CONSULTANT warrants that this AGREEMENT was not obtained or secured through rebates, kickbacks or other unlawful consideration either promised or paid to any LOCAL AGENCY employee. For breach or violation of this warranty, LOCAL AGENCY shall have the right, in its discretion, to terminate this AGREEMENT without liability, to pay only for the value of the work actually performed, or to deduct from this AGREEMENT price or otherwise recover the full amount of such rebate, kickback or other unlawful consideration.
